ADVANCES IN APPLIED PROBABILITY

This is a companion publication to the *Journal of Applied Probability* published by the Applied Probability Trust. It contains reviews and expository papers in applied probability, as well as mathematical and scientific papers of interest to probabilists, letters to the editor and a section devoted to stochastic geometry and statistical applications (SGSA). An annual volume of up to 1200 pages is published in four issues appearing in March, June, September and December.

EDITORIAL BOARD

Co-Editors-in-Chief C. C. HEYDE (Columbia University and Australian National University)
S. ASMUSSEN (Aarhus Universitet)

Coordinating Editors N. H. BINGHAM (Imperial College London)
I. MOLCHANOV SGSA (Universität Bern)

Editors R. J. ADLER (Technion, Haifa)
T. AVEN (University of Stavanger)
F. BACCELLI SGSA (ENS, Paris)
A. J. BADDELEY SGSA (University of Western Australia)
P. BRÉMAUD (ENS, Paris, and EPFL, Lausanne)
C. CANNINGS (University of Sheffield)
R. COWAN SGSA (University of Sydney)

Applied Probability journals online at
<http://projecteuclid.org/jap>
<http://projecteuclid.org/aap>

Journal of Applied Probability and *Advances in Applied Probability* are now available online, in partnership with Project Euclid, at no extra cost to subscribers.

The online editions include

- an electronic version of each new issue (in PDF format) some weeks before the printed version becomes available
- an archive of all issues since 1998
- full bibliographic details of each article, along with its abstract and an actively linked list of references
- a search facility, allowing users to search by author name, article title, subject or keyword, or through the full text of the abstract or the article itself

Access

The abstract and reference list of each article are available free to all users; full access to the archive, including the full text of articles, is currently available at no extra charge to subscribers to the print editions.

Individual subscribers should register with Project Euclid by creating a user profile, entering their JAP and/or AAP subscription number where a 'subscriber code' is requested.

Institutional subscribers should complete and return a licence agreement (available at <http://www.appliedprobability.org/euclidaccess.html>) to the Applied Probability office along with details of their IP range.

Non-subscribers can gain access to individual articles on a pay-per-view basis.
