OCTOBER 1967

GENETICAL RESEARCH

EDITORIAL BOARD

C. H. WADDINGTON (*Chairman*)
CHARLOTTE AUERBACH D. LEWIS
H. GRÜNEBERG G. PONTECORVO
W. HAYES A. ROBERTSON

EXECUTIVE EDITOR

E. C. R. REEVE

ASSISTANT EXECUTIVE EDITOR

J. O. BISHOP

PUBLISHED BY

CAMBRIDGE UNIVERSITY PRESS

Bentley House, 200 Euston Road, London, N.W. 1
American Branch: 32 East 57th Street, New York, N.Y. 10022

SUBSCRIPTION £5 net (U.S.A. \$18.50) per volume

SINGLE PARTS 45s. net (U.S.A. \$7.50)

GENETICAL RESEARCH

GENETICAL RESEARCH publishes original work on all aspects of genetics, or in any field of research which has an important bearing on genetics. Papers will be submitted to referees before acceptance. They will generally be printed in order of acceptance. In addition, Short Papers (see below) may be included if received 3 months before publication date.

TWO VOLUMES are published per year each consisting of three parts plus an index.

SUBSCRIPTIONS may be sent to any bookseller or to the Cambridge University Press, 200 Euston Road, London, N.W. 1. Subscriptions in the U.S.A. should be sent to the American Branch of the Press, 32 East 57th Street, New York, N.Y. 10022. The subscription price is £5 net (including postage) for a volume of three parts (\$18.50 in the U.S.A.), payable in advance; Separate parts 45s. or \$7.50 each (plus postage).

NOTES FOR CONTRIBUTORS

CONTRIBUTIONS will be welcomed from scientists of all nationalities, but must be written in English, with an English summary. An additional summary in French, German, Russian or Italian will be accepted. Papers should be sent to the Executive Editor, Dr. E. C. R. Reeve, Institute of Animal Genetics, West Mains Road, Edinburgh 9.

GENERAL. Submission of a paper will be taken to imply that it is unpublished and is not being considered for publication elsewhere. Papers published in *Genetical Research* may not be reprinted or published in translation without permission from the Editorial Board. Papers should be as concise as clarity permits, and illustrations kept as few as possible.

SHORT PAPERS. This category is designed for concisely written reports of work for which rapid publication is considered desirable. Such papers will normally be published within three months of receipt in acceptable form. They should not exceed 6 pages of print in length.

TYPESCRIPTS. A top copy and one carbon copy should be submitted. They should be typed with double-spacing, on one side of the paper, leaving margins of about 1½ inches at the left-hand side and head of each sheet. Quarto is preferred to foolscap paper. Heavily corrected typescripts may have to be returned to the author for retyping. Papers should state the name and address of the author (or his proxy) to whom proofs are to be sent. The address of the laboratory at which the work was carried out will be printed with the authors' names at the head of the paper, and changes of address and sources of financial support may be added in footnotes.

A short title should be supplied for running headlines; this must not exceed 50 characters, counting each letter and space as one character.

(continued inside back of cover)

JOURNAL OF REPRODUCTION AND FERTILITY

The Journal publishes original papers, abstracts of Proceedings, and occasionally reviews and bibliographies, dealing with the morphology, physiology, biochemistry and pathology of reproduction in man and animals, and with the biological, medical and veterinary problems of fertility and lactation. Numbers are issued bimonthly to give two volumes a year.

Papers published in Vol. 14, 2, October 1967, include

- R. F. HNAT. The practical importance of the single artery umbilical cord.
- R. N. MURDOCH and I. G. WHITE. The metabolism of labelled glucose by rabbit spermatozoa after incubation *in utero*
- A. T. GREGOIRE, H. RAMSEY and A. ADAMS. The effect of various doses of oestradiol 17- β on glycogen deposition in the rat uterus, cervix and vagina
- J. M. PETERS, C. J. KRIJNEN and E. M. BOYD. Role of concepta in the production of hypertrophy and hydration of maternal body organs in the third week of pregnancy in albino rats
- R. DEANESLY. The role of the fertilized egg: reactions in the guinea-pig uterus at ovo-implantation and after thread traumatization
- D. A. JAMES. Some effects of immunological factors on gestation in mice.
- R. V. SHORT and K. YOSHINAGA. Hormonal influences on tumour growth in the uterus of the rat.
- G. I. M. SWYER. Fertility control: achievements and prospects
- K. J. COOPER and N. B. HAYNES. Modification of the oestrous cycle of the under-fed rat associated with the presence of the male.
- E. PARR. Histamine content of the rat uterus containing an IUCD
- K. YOSHINAGA and C. E. ADAMS. Reciprocal transfer of blastocysts between the rat and rabbit.
- R. B. HEAP and R. DEANESLY. The increase in plasma progesterone levels in the pregnant guinea-pig and its possible significance

Editorial correspondence should be sent to the Executive Editor, Journal of Reproduction and Fertility, 8 Jesus Lane, Cambridge, England, and business correspondence to the publishers.

The subscription rate for 1967 is £6 per volume or £12 per year (two volumes). U.S.A. and Canada \$20.00 per volume or \$40.00 per year.

**BLACKWELL SCIENTIFIC PUBLICATIONS
5 ALFRED STREET, OXFORD**

SYMPOSIA GENETICA et BIOLOGICA ITALICA

A Journal of genetics and general biology mainly devoted to the scientific contributions of the "Istituto di Zoologia Lazzaro Spallanzani" of the University of Pavia.
Some volumes are devoted to the "Proceedings" of international meetings organized by the Istituto L. Spallanzani.

Vol. 1 (1950), Vol. 2 (1951), Vol. 3 (1952), Vol. 4 (1956), Vol. 5 (1957), Vol. 6 (1958-59), Vol. 7 (1960-61)
Vol. 8 (1961), Vol. 9 (1962), Vols. 10, 11, 12 (1963), Vol. 13 (1966).
Vol. 8 and Vol. 9: PROCEEDINGS OF THE INTERNATIONAL SYMPOSIUM OF
EXPERIMENTAL BIOLOGY IN MEMORY OF SPALLANZANI.
Vols. 10, 11, 12: PROCEEDINGS OF THE IV CONGRESS UIEIS (UNION INTERNATIONALE
ETUDE INSECTES SOCIAUX), Pavia, 1961.
Vol. 10: Symp. 1°: Endocrinology; Symp. 2°: Cast differentiation; Symp. 4°: Gregarism and subso-
cality.
Vol. 11: Sect. 4°: Applications; Sect. 1°: Termites.
Vol. 12: Sect. 2°: Ants; Sect. 3°: Bees and wasps; Symp. 3°: Symbiosis.
Vol. 13: Carlo Jucci Memorial Volume.

Orders may be sent to the Managing Editor or placed through booksellers.
Managing Editor: The Director, Istituto di Zoologia, P. Botta, PAVIA (Italy).

Single vol. L. it. 6500 or \$10.5

GENETICA AGRARIA

A Journal of "Genetics applied to Agriculture" edited by the Istituto di Zoologia of the University of Pavia.

The Journal is issued four times a year. Price per volume of about 400 pages: from Vol. IX°, Lit. 5,000 or \$8.5; from Vol. XV°, Lit. 6,500 or \$10.5.

Miscellaneous papers, proceedings of special meetings and the Proceedings of the Annual Meeting of the Società Italiana di Genetica Agraria (SIGA) are published:

Vol. XVI°; 1963, n. 1-4: Proceedings of the VIII° Meeting of the SIGA (continued) and miscellaneous contributions.

Vol. XVII°; 1963, n. 1-4: Proceedings of the FAO Meeting on:
"Plant exploration and introduction", Rome 1961, edited by R. O. Whyte and G. Julén.

Vol. XVIII°; 1964, n. 1-2; 3: Proceedings of the IX° Meeting of the SIGA (Palermo 1963) n. 4: miscellaneous papers.

Vol. XIX°; 1965: Proceedings of the X° Meeting of the SIGA (Rieti 1964) and miscellaneous papers.

Vol. XX°; 1966: Proceedings of the XI° Meeting of the SIGA (Perugia 1966).

Orders may be sent to the Managing Editor or placed through booksellers.

Managing Editor: The Director, Istituto di Zoologia, P. Botta,
PAVIA (Italy).

THE THEORY OF ISLAND BIOGEOGRAPHY

Monographs in Population Biology, 1

BY ROBERT H. MacARTHUR AND EDWARD O. WILSON

Biogeography has long remained in a natural history phase, but the authors believe it is in a position to enter an experimental and theoretical phase—that it can now be discussed in terms of the first principles of population ecology and genetics.

Using mathematical and graphical models, they provide a first theoretical framework for faunal patterns on islands. Particular attention is paid to problems of island colonization, to the balance between immigration and extinction, and to the evolution of colonists following successful establishment. Wherever possible, empirical evidence is assembled and compared with the theoretical predictions.

216 pages, 60 illus. cloth, \$8.00

paper, \$3.95

Princeton University Press

JOURNAL OF MOLECULAR BIOLOGY

Editor-in-Chief J. C. Kendrew

Published fortnightly, 600 pp., per volume, 140s.
1966, Volumes 23-30 inclusive £56.0.0.

The **Journal of Molecular Biology** is concerned with the nature, production and replication of biological structure at the molecular level, and its relation to function. The Journal will have a wide appeal among scientists working on the following subjects: sub-cellular organization, molecular genetics, structure and replication of viruses; molecular structure of muscle, nerve and other tissues; structure of proteins, nucleic acids, carbohydrates, lipids, etc., and their synthetic analogues as investigated by X-rays, light absorption and other methods; problems of inter- and intra-molecular energy transfer.

The Journal of General Microbiology

Edited by B. C. J. G. KNIGHT and A. F. B. STANFEST

Volume 48, Part 3. September 1967

45s. net (\$7.50). Annual Subscription £20 (\$70.00) for twelve issues.

- J. R. MENCHER & J. A. ALFORD. Purification and characterization of the lipase of *Pseudomonas fragi*.
- J. M. HIRST, O. J. STEDMAN & W. H. HOGG. Long-distance spore transport: Methods of measurement, vertical spore profiles and the detection of immigrant spores.
- J. M. HIRST, O. J. STEDMAN & G. W. HURST. Long-distance spore transport: Vertical sections of spore clouds over the sea.
- B. R. GRANT. The action of light on nitrate and nitrite assimilation by the marine chlorophyte, *Dunaliella tertiolecta* (Butcher).
- J. G. VOSS. Effects of organic cations on the Gram-negative cell wall and their bactericidal activity with ethylenediamine tetra-acetate and surface active agents.
- R. C. LAWRENCE, T. F. FRYER & B. REITER. The production and characterization of lipases from a *Micrococcus* and a *Pseudomonad*.
- D. O. HALL & J. W. GREENAWALT. The preparation and biochemical properties of mitochondria from *Neurospora crassa*.
- ELLEN I. GARVIE. *Leuconostoc oenos* sp. nov.
- ELLEN I. GARVIE. The growth factor and amino acid requirements of species of the genus *Leuconostoc*, including *Leuconostoc paramesenteroides* (sp. nov.) and *Leuconostoc oenos*.
- CYNTHIA H. O'CALLAGHAN & P. W. MUGGLETON. The action of cephaloridine with cloxacillin or Methicillin against β -lactamase-producing Gram-negative bacteria.
