

# Powder Diffraction International Report

*A word from the editor . . .*

This is the new designation for the "Departments" section of this journal. The new title has been chosen to reflect the international scope of the powder diffraction community and to facilitate the communication of the activities and interests of this community in the forum of this quarterly report.

We will continue, as in the past, to rely on our Regional Correspondents and our readers for entries to the Calendar of Meetings, for Reports of Meetings and Short Courses, letters and book reviews. To our commercial associates, we continue to solicit material for Commercial Announcements.

We hope to continue to bring you news of the activities of the JCPDS-International Centre for Diffraction Data Technical Committee and subcommittees, as well as information about other organizations in the diffraction community.

Any material submitted is welcome. It will be reviewed, and possibly edited, to be sure that it conforms to the journal's requirements for relevance and length.

Helein D. Hitchcock, Editor
