

VOL. VII.—1893.

THE JOURNAL  
OF  
LARYNGOLOGY,  
RHINOLOGY, AND OTOTOLOGY;

*AN ANALYTICAL RECORD OF CURRENT LITERATURE RELATING TO  
THE THROAT, NOSE, AND EAR.*

EDITED BY

R. NORRIS WOLFENDEN, M.D. Cantab.,  
JOHN MACINTYRE, M.B. Glasgow,

AND

DUNDAS GRANT, M.A., M.D., F.R.C.S. Eng.,

WITH THE ASSISTANCE OF

Dr. BARCLAY J. BARON (Bristol).      Dr. SANDFORD (Cork).

And with the co-operation of

DR. RICARDO BOTEY (BARCELONA)  
DR. BRYSON DELAVAN (NEW YORK)  
DR. DRAISPUL (ST. PETERSBURG)  
PROF. GUYE (AMSTERDAM)  
DR. MIDDLEMASS HUNT (LIVERPOOL)  
DR. VALERIUS IDELSON (BERNE)  
DR. JOAL (PARIS)  
DR. KARWOWSKI (WARSAW)  
DR. JOHN N. MACKENZIE (BALTIMORE)  
DR. GRAZZI (FLORENCE)  
DR. SANDFORD (CORK)  
DR. LUBET-BARBON (PARIS)

DR. G. W. MAJOR (MONTREAL)  
PROF. MASSEI (NAPLES)  
DR. W. ROBERTSON (NEWCASTLE-ON-TYNE)  
DR. J. MICHAEL (HAMBURG)  
DR. HOLGER MYGIND (COPENHAGEN)  
DR. PORTER (ST. LOUIS)  
DR. SAJOUS (PHILADELPHIA)  
DR. SENDZIAK (WARSAW)  
PROF. RAMON DE LA SOTA (SEVILLE)  
DR. HICGUET (BRUSSELS)  
DR. MILLIGAN (MANCHESTER)  
DR. LICHTWITZ (BORDEAUX)

# THE THROAT AND VOICE.

## CHLORATE OF POTASH "TABLOIDS."

FOR AFFECTIONS OF THE VOICE, THROAT, AND RESPIRATORY SURFACES GENERALLY.

By using the "Tabloids" the drug is effectually brought in contact with the pharyngeal and oral mucous surfaces as a continuous application, and its specific action made certain. In acute sore-throat, Chlorate of Potash "usually relieves the uneasiness in a few hours" (Cohen). "It is used in ulcerated mouth and follicular pharyngitis, and has been employed in croup, diphtheria, and spasm of the larynx" (Brunton).

"Of convenient size, they are beautifully made; and, as they dissolve slowly in the mouth, are well suited for throat affections."—THE LANCET.

"Vastly superior to lozenges." — MR. LENOX & BROWNE.

Supplied to the Medical Profession in beautifully graven white metal boxes, blue silk label, at 4d. and 6d. each. Retail prices, 6d. and 1s. each.

## VOICE "TABLOIDS."

Composed of COCAINE, Chlorate of Potash and Borax.

Impart a clear and silvery tone to the voice.

Easily retained in the mouth while singing or speaking. Now used by the leading singers and public speakers throughout the world. DIRECTIONS.—A single "Tabloid" may be slowly dissolved in the mouth to remove huskiness or hoarseness.

Supplied to the Medical Profession in beautifully graven white metal boxes, blue silk label, at 6d. and 1s. 4d. each. Retail prices, 1s. and 2s. per box.

## NASO-PHARYNGEAL "TABLOIDS,"

CONTAINING SODIUM CHLORIDE, BORAX, BORIC ACID, BENZOIC ACID, MENTHOL, THYMOL, OL. GAULTHERIE, AND COCAINE MURIATE.

*Alkaline and Antiseptic.*

DR. MACNAUGHTON JONES' formula for an antiseptic and detergent mouth lotion, gargle, or irrigation solution for the nares. The difficulty experienced in obtaining solutions for these purposes which will not undergo decomposition upon keeping is well known.

A "Tabloid" makes a perfect solution (Cocaine 1 in 6000) in half a small wineglassful of tepid water, and such solution may be used as a gargle or lotion for the nares, pharynx, or mouth. These "Tabloids" will dissolve immediately without crushing and stirring.

The Naso-Pharyngeal "Tabloids" are supplied in Bottles of 25 and 100 at 1s. and 3s. 2d. each, and are dispensed in any quantity prescribed by all chemists.

## CHLORATE OF POTASH AND BORAX "TABLOIDS."

The "Tabloids" afford an agreeable form in which to administer Chlorate of Potash and Borax.

Supplied to the Medical Profession in beautifully graven white metal boxes, pink silk label, at 4d. and 6d. each. Retail prices, 6d. and 1s. each.

## HAZELINE.

A colourless distilled product, containing the volatile active principles of the fresh green twigs and leaves of the Witch Hazel.

PROPERTIES.—*Hæmostatic Anodyne and Astringent.*

Prescribed in cases of hæmorrhage from the nose, lungs, womb, rectum, &c. Is a valuable agent in the treatment of bruises, sprains, inflammation, peritonitis, piles, fistula, anal fissures, ulcers, varicose veins, eczematous surfaces, tonsillitis, pharyngitis, nasal and post-nasal catarrh, stomatitis, leucorrhœa, nasal polypi, &c.

DIRECTIONS.—In catarrh or cold in the head, may be sniffed up the nostrils with an equal part of tepid water.

Dose for irritated or inflamed throat and lungs, half to one teaspoonful occasionally.

Supplied to the Medical Profession in 4 and 1 lb. bottles, at 1s. 2d. and 3s. 6d. each. Retail prices, 1s. 6d. and 4s. 6d. each.

## VEREKER IMPROVED CHLORIDE OF AMMONIUM INHALER.

"The neutral vapour of Chloride of Ammonium removes unhealthy and offensive secretions, and restores the long diseased or weakened nasal and respiratory mucous membrane to a healthy state, so that in cases of catarrh, where thickening, induration, and irritation exist, a most decided improvement is brought about in a short time." In

"throat-cough," pharyngeal irritation and relaxation and weakness of the throat, it acts as a most effective alterative and tonic to the mucous membrane.

"The best inhaler for the surgeon's study is that of Burroughs, Wellcome, & Co.; it does not require recharging at each time of using, and yields perfectly neutral vapour of Ammonium Chloride."—Diseases of the Ear and Nasopharynx, Dr. MACNAUGHTON JONES (Baillière).

DR. SMYLY, Ex-Pres. Royal College of Surgeons, Ireland, says:—"It is the best Inhaler for Chloride of Ammonium I have met with."

Supplied to the Medical Profession at 5s. each. Retail 7s. each.

**BURROUGHS, WELLCOME & CO., Snow Hill Buildings, London, E.C.,**

*Will be happy to supply trial Specimens of Pharmaceutical Preparations to Medical Men free on request.*
