## RADIOCARBON

An International Journal of Cosmogenic Isotope Research

*Editor:* AUSTIN LONG

*Consulting Editor:* A. J. T. JULL

*Managing Editor:* RENEE S. KRA

*Assistant Editor:* DAVID R. SEWELL

Published by

Department of Geosciences

The University of Arizona

Published three times a year at The University of Arizona, Tucson, AZ 85712 USA. © 1995 by the Department of Geosciences, The University of Arizona.

Subscription rate (1995): \$115.00 (for institutions), \$85.00 (for individuals), \$42.50 (for students with proper identification). Foreign postage is extra. A complete price list, including Proceedings of International Conferences, special publications and 1995 subscription categories, appears in the back of this issue. Back issues may be obtained by contacting *RADIOCARBON*.

All correspondence and manuscripts should be addressed to the Managing Editor, *RADIOCARBON*, Department of Geosciences, The University of Arizona, 4717 East Ft Lowell Road, Tucson, AZ 85712 USA. Tel: (520) 881-0857; Fax: (520) 881-0554. Please note our e-mail addresses:

INTERNET: c14@packrat.aml.arizona.edu  
or rkra@packrat.aml.arizona.edu

*Offprints.* The minimum offprint order for each article will be 100 copies without covers. No offprints will be furnished free of charge unless page charges are paid (see below). Covers are also available.

*Page charges.* For 1995, each institution sponsoring research reported in a technical paper or a date list will be asked to pay a charge of \$50.00 per printed page. This represents a \$30 reduction in price from 1994. Institutions or authors paying such charges will be entitled to 100 free offprints without covers. No charges will be made if the author indicates that the author's institution is unable to pay, and payment of page charges for an article will, in no case, be a condition for its acceptance.

*Missing issues* will be replaced without charge only if claim is made within three months (six months for India, New Zealand and Australia) after the publication date. Claims for missing issues will not be honored if non-delivery results from failure by the subscriber to notify the Journal of an address change.

*Illustrations* should include explanation of symbols used. Copy that cannot be reproduced cannot be accepted. Whenever possible, reduce figures for direct publication. Line drawings should be in black India ink on white drawing board, tracing cloth, or coordinate paper printed in blue and should be accompanied by clear ozalids or reduced photographs for use by the reviewers. Photographs should be positive prints. We can also print from many computer graphics file formats; please request our guide to graphics files for details. *Figures* (photographs and line drawings) should be numbered consecutively through each article, using Arabic numerals. Tables may be accepted as camera-ready copy.

*Citations.* A number of radiocarbon dates appear in publications without laboratory citation or reference to published date lists. We ask authors of research articles and date lists to include proper citation (laboratory number and date-list citation) in all publications in which radiocarbon dates appear.

*Radiocarbon Measurements: Comprehensive Index, 1950–1965.* This index covers all published  $^{14}\text{C}$  measurements through Volume 7 of *RADIOCARBON*, and incorporates revisions made by all laboratories. It is available at \$25.00 per copy.

*List of laboratories.* Our comprehensive list of laboratories is available upon request. We are expanding the list to include additional laboratories and scientific agencies with whom we have established contacts. The editors welcome information on these or other scientific organizations. We ask all laboratory directors to provide their laboratory code designation, as well as current telephone and fax numbers, and e-mail addresses. Changes in names or addresses, additions or deletions should be reported to the Managing Editor. Conventional and AMS laboratories are now arranged in alphabetical order by country and we include laboratories listed by code designation.
