SOLUSEPTASINE

TRADE MARK

THROAT SPRAY

... for topical application

contains ten per cent. of the active substance together with glycerine for use as an application in infections of the ears, nose and throat. The preparation is employed in acute hæmolytic streptococcal throat infections, acute rhinitis, acute streptococcal otitis media, etc. Its possible efficacy in the treatment of chronic carriers of infection in the pharyngeal region might be investigated.

There is clinical evidence that three or four drops of the solution instilled into the nostrils at four-hourly intervals is of value in the treatment of common colds.

Supplied in containers of
2 ozs. 10 per cent. solution, 3s. 6d.

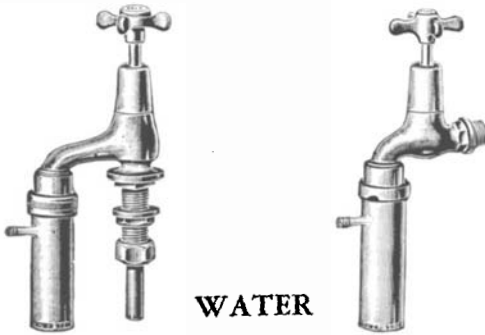

Subject to the usual discount.

EXEMPT FROM PURCHASE TAX.

PRESCRIBE THE EASY EFFECTIVE METHOD

When spraying, the patient can hold his head in a natural position, yet the solution spreads throughout the nasal cavity, assuring thorough treatment. Effective dropper-application, on the other hand, requires a complicated posture technique which patients are apt to neglect in home treatment.

**DeVilbiss
ATOMIZERS**

DROPPER ?

ATOMIZER ?

These illustrations, which are based on X-ray research, clearly demonstrate the advantages of the atomizer as compared with the dropper

Diseases of the Nose, Throat and Ear

A HANDBOOK FOR
STUDENTS AND PRACTITIONERS

BY

I. SIMSON HALL

M.B. Ch.B., F.R.C.P.E., F.R.C.S.E.

Surgeon to the Royal Infirmary, Edinburgh (Department for Diseases
of Nose, Throat and Ear), Lecturer in Diseases of Nose,
Throat and Ear, University of Edinburgh

WITH FOUR COLOURED PLATES

REVIEWS OF THE FIRST EDITION

THE author of this excellent book has had experience both as a general practitioner and as a member of the staff of the Royal Infirmary, Edinburgh. Consequently, he is particularly well qualified to write a book which he states is 'designed to meet the needs of the busy practitioner and the student'. The book comes as a relief to one who has spent some time searching for a book on nose, throat and ear surgery of a reasonable size for the average student. Not only is its size reasonable, but its contents are well arranged and the author's style is pleasingly direct and easy to follow.—*St. Mary's Hospital Gazette*.

"This book is intended for senior students and general practitioners. It deals in a very practical manner with the commoner diseases of the nose, throat and ear likely to be met with in general practice. It is compact, and easily read.

The author has succeeded in his task, and his work can be confidently recommended to all students and practitioners."—*Ulster Medical Journal*.

"The teaching is clear and definite, and the advice given is so sound that the work should have an established place among the smaller textbooks on its subject."—*The Lancet*.

"The author reveals a breadth of outlook which is very refreshing in an oto-rhino-laryngologist. All the commoner conditions are well described, and minor procedures are clearly outlined in such a way as to be of definite help in practice. In fact, for the general practitioner it is the best book we have seen on the subject. The student will also find it illuminating for purposes of systematic study. Its distinctive features are up-to-dateness, breadth of view, and single authorship."—*New Zealand Medical Journal*.

The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

WALTER HOWARTH

ASSISTED BY

W. M. MOLLISON

1. Original Articles are accepted on the condition that they have not been published elsewhere.
2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.
3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter added.
4. Orders for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.
5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.
6. Editorial Communications may be addressed to THE EDITOR, *Journal of Laryngology*, c/o HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.
7. The Annual Subscription commencing with the January issue is Two Pounds sterling, post free, and is payable in advance.
8. Single copies, both of the present and the previous series, are on sale at Four Shillings each.
9. All Subscriptions, advertising and business communications should be sent to the Publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.

United States of America

Orders for this Journal may be sent either through a local bookseller, or to Messrs. G. E. STECHERT & CO., 31-33 East 10th Street, New York, or may be sent direct to the Publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2, England.
