

# General Notes

## THE THIRTEENTH EUROPEAN INSTRUCTIONAL COURSE ON "TINNITUS AND ITS MANAGEMENT"

**to be held at Nottingham University on Sunday  
4th April to Thursday 8th April 1993**

In association with the Nottingham School of Audiology, the thirteenth annual course of lectures with case discussions, video films, and practical session will be held on the causes, scientific background, investigation and management of tinnitus. The course fee of £355 includes accommodation for four nights, lunches, two dinners and the formal course dinner. Numbers will be strictly limited to a maximum of 48. The course is suitable for otologists, audiological physicians, scientists, technicians and hearing therapists.

The course faculty comprises Mr David Baguley (Addenbrooke's Hospital, Cambridge), Jean Baskill (Nottingham Tinnitus Clinic), Terry Buffin (Nether Edge Hospital, Sheffield), Ross Coles (Nottingham Tinnitus Clinic and MRC Institute of Hearing Research), Mark Lutman and Pauline Smith (MRC Institute of Hearing Research, Nottingham), Jonathan Hazell (Middlesex Hospital and RNID, London), Laurence McKenna (Royal National Throat, Nose and Ear Hospital, London), Jacqueline Sheldrake (32 Devonshire Place, London W1), Dai Stephens (Welsh Hearing Institute, Cardiff).

For persons who have previously attended one of the "Tinnitus and its Management" courses a 1-day refresher course is also held in May of each year in London. This alternates between a "Tinnitus Update Lecture Course" and a "Colloquium on Practical Problems in Tinnitus".

Details of these annual courses can be obtained from:

Mrs Jean Willoughby  
Course Administrator  
c/o Institute of Hearing Research  
University of Nottingham  
University Park  
NOTTINGHAM NG7 2RD  
England.

## 11th INTERNATIONAL WINTER COURSE

on

Ear Surgery, Cosmetic Surgery of the Nose and Face, Endoscopic Sinus Surgery, The Cochlear Implant  
(An intensive one-week Workshop with morning Seminars and afternoon invited Lectures)

Selva Gardena, Dolomites, Italy

January 16–23, 1993

Course Directors

G. Babighian and G. Sulsenti

Prospective Faculty

E. Arslan (Italy), G. Babighian (Italy), B. Frayssé (France), B. Hose (Switzerland), C. S. Kim (Korea), J. Magnan (France), D. Mecklenburg Allum (Switzerland), U. Mercke (Sweden), R. Meyer (Switzerland), R. Pujol (France), G. Rettinger (Germany), J. Sadé (Israel), S. D. Schaefer (USA), L. D. Schoenrock (USA), G. Sulsenti (Italy), M. Tos (Denmark)

## TEMPORAL BONE SURGICAL DISSECTION COURSE

OFFERED BY

THE DEPARTMENT OF OTOLARYNGOLOGY

THE UNIVERSITY OF MICHIGAN MEDICAL SCHOOL, ANN ARBOR, MICHIGAN

COURSE DIRECTOR: STEVEN TELIAN, M.D.

**1992:** 26-30 October, 16-20 November**1993:** 3-7 May, 24-28 May, 18-22 October, 8-12 November

Intensive one-week courses emphasize the surgical and anatomical approaches to the temporal bone, and are presented in a manner relevant for the otologic surgeon, utilizing lectures, videotapes, and dissection.

Mornings and afternoons are spent in the dissection laboratory, giving extensive drilling experience in temporal bone anatomy and surgical techniques. All instruments and high-speed handpieces will be provided.

Course fee: Physicians \$1,000; Residents \$750.

For further information write:

Steven Telian, M.D.,  
Taubman Medical Center,  
1500 E. Medical Center Drive,  
Ann Arbor,  
Michigan 48109-0312, U.S.A.  
Tel: (313) 936-7633.

TWJ FOUNDATION

---

THE TRUSTEES OF THE TWJ FOUNDATION INVITE APPLICATIONS

for

AN OTOLOGICAL CLINICAL AND RESEARCH FELLOWSHIP

tenable at

THE DEPARTMENT OF OTOLARYNGOLOGY, ANN ARBOR  
IN THE UNIVERSITY OF MICHIGAN

for

SIX MONTHS DURING 1993

The Fellow will participate in Otolological Research in the Kresge Laboratory and receive clinical instruction with special reference to neuro-otology and skull base surgery in the Department of Otolaryngology.

Further details concerning applications should be obtained **now** from:

The Trustees of the TWJ Foundation  
Courtlands, 61 Kingswood Firs  
Grayshott, Hindhead  
Surrey GU26 6ER

The closing date for formal applications will be

Saturday, 21st November 1992

# Instructions to Authors

**Review Articles.** Articles of this type, preferably not exceeding 3,000 words will be considered but the author(s) are expected to be a recognised authority on the topic and have carried out work of their own in the relevant field.

**Historical Articles.** Articles of this type are generally encouraged, but it is obvious that they have to provide some new information or interpretation, whether it be about a well-known person or for example an instrument associated with him, but those from within a Hospital's own department who have made a hitherto less well-known contribution would be welcome.

**Letters to the Editor.** This feature has been re-introduced to give those who wish to comment about a paper previously published within the Journal, an opportunity to express their views. Wherever possible, the original author is asked to add his further comment, thereby adding to the value of the contribution. Such letters should be sent as soon as possible after publication of each month's issue of the Journal in the hope of including them early thereafter.

'Mini-papers, such as those which appear in the British Medical Journal, Lancet, or New England Journal of Medicine, will not be acceptable except on the rare occasion that they bring information of immediate interest to the reader.

**Pathology.** Articles which are of pathological interest with particular emphasis on the way the diagnosis was achieved now appear on a monthly or bi-monthly basis. It is hoped that clinicians will involve their pathologists in these reports, and all illustrations must be of first-class quality. Where a department, particularly those overseas, may not have such specialized facilities, it may be possible, if a block or several unstained sections are provided for our Adviser to produce or supplement the illustration submitted. Only contributions of particular pathological interest will be accepted.

**Radiology.** Short reports on cases in which the radiology has been crucial in the making of the diagnosis or the management of a particular case now appear on a monthly or bi-monthly basis. This spot is to encourage clinicians and radiologists to produce material of particular interest in the specialty and to encourage co-operation in this field. Only presentations with first-class illustrations can be accepted and these must emphasise a problem of unusual clinical interest.

**Short Communications.** This feature will be used on an occasional basis. Examples of material suitable for inclusion under this title would be, for example: a piece of work which was of clinical interest but had failed to produce findings which were of statistical significance; where an investigative technique has been applied to an allied field, not warranting a further in-depth description of its earlier application and methodology.

'**Silence in Court**'. Articles on medicolegal topics are welcome but a preliminary letter written beforehand is requested to ensure that the contribution would be appropriate.

## Check List for Authors/Secretaries

1. Title page—Titles should be short with names of the authors, higher degrees only and the city/country. Details of the departments in which the authors work should be put lower down.  
An address for correspondence should be supplied together with the author who should receive this; this will ultimately appear beneath the list of references. If the paper was presented at a meeting, the details of this must be given and will be inserted at the bottom of the first page of the printed script.
2. Abstract—No paper will be accepted without this and it adds considerably to the Editor's time to have to write and request this if the paper is accepted.
3. Key Words—only those appearing as Medical Subject Headings (MeSH) in the supplement to the Index Medicus may be used; where appropriate word(s) are not listed those dictated by common sense/usage should be supplied.
4. To follow the instructions to Authors with the way in which the paper is set out. It is preferred that each section should start on a fresh page with double spacing and wide margins.
5. References must be in the Harvard system; to submit a paper using the Vancouver system is automatically to have it returned or rejected.
6. Two sets of illustrations must be included, one of half-plate size and the other with the width of 80 mm. Illustrations must be clearly labelled with the author's name on the reverse side and where appropriate with an arrow to give orientation.
7. Authors to check manuscript and references to see that these match up particularly for dates and spelling.
8. Title of Journals must be given in full with the date, volume number and first and *last* pages.
9. Consent to be obtained from a patient if a photograph of their face is to be reproduced.
10. If the author to whom correspondence is to be directed changes his address, he should let the Editorial Office know as soon as possible.
11. Page proofs will normally be sent out one month in advance and must be returned as soon as possible.
12. Authors should provide a Facsimile number (FAX) whenever possible to speed communication. The FAX number of the Editorial office is 0483 306380.
13. Manuscripts with tables only may be retransmitted by FAX; those with graphic or visual illustrations, e.g. graphs, X-rays, pathology, electrical records (ENG, BSER etc) must continue to be sent by post as the quality of reproduction does not give sufficient accuracy of detail.
