

INDEX TO VOL. LXXXVI.

The General Index covers original articles, reviews and the epitome, and includes subjects dealt with as well as the titles of articles.

Names of authors of original articles are printed in SMALL CAPITALS. Names of authorities referred to in the text are in ordinary type.

(E.) indicates the *Epitome* section; the title of the abstract is followed by the author's name, thus: "Age and human ability. Miles, W. R. (E.)"

- ABSE, D. W., the psychology of convulsion therapy, 95
 " Abstraction," interpretations of a painting. Pickford (E.), 139
 Acetylcholine as chemical transmission agent in nerve. Kuhn *et al.* (E.), 178
 Acetylcholine and cholesterol. Zinnitz (E.), 183
 " action on perfused liver, Chakravarti and Tripod (E.), 745
 " axon reflex responses to, in skin. Rothman and Cook (E.), 1061
 " biological synthesis of. Stedman and Stedman (E.), 178
 " complex in brain and various organs, existence of. Gautrelet (E.), 333
 " development of, in chick embryo. Kuo (E.), 151
 " effect of, on adrenaline output. Tanesti (E.), 1146
 " in brain, formation of, in vitro. Corteggiani (E.), 183
 " liberation from brain tissue by snake venom, etc. Gautrelet and Corteggiani (E.), 183
 " " of, from nerve trunks during stimulation. Chang *et al.*, 179
 " of, from perfused cat's brain. Chute *et al.* (E.), 1146
 " " of potassium by, in central nervous system. Dulière and Loewi (E.), 333
 " like substance in afferent nerve stems, formation of. Yachimovich (E.), 1146
 " metabolism in central nervous system. Mann, Tennenbaum and Quastel (E.), 740
 " " " " effects of potassium. Mann, Tennenbaum and Quastel (E.), 178
 " pharmacology of. Vasilieva (E.), 340
 " pilomotor response to. Coon and Rothman (E.), 1061
 " sensitization to, by denervation. Lee (E.), 1146
 " synthesis in a sympathetic ganglion. Kahlson and MacIntosh (E.), 332
 " " of, by brain tissue. Trethewie (E.), 177
 Acoustic stimuli, effects of, on waking human brain. Davies (E.), 151
 Action potentials of muscles in "spastic" conditions. Hoefler, P. F. A., and Putnam, T. J. (E.), 548
 Adaptiveness and equilibrium, by W. R. Ashby, 478
 Adrenal cortex in Morgagni's syndrome, 363
 " extracts, effect on tissue respiration. Tipton (E.), 584
 Adrenaline, effect of, on convulsions. Gellhorn, Darrow and Yesinick (E.), 134
 " effects of, on reflex excitability of autonomic nervous system. Darrow and Gellhorn (E.), 334
 Age of insane patients, statistical study of. Rene (E.), 725
 Aggression, symposium on. Fairbairn, Wolters, and Stephen (E.), 138
 Alcohol and sedatives. Peter (E.), 590
 " effects on cerebral cortex and hypothalamus. Massermann and Jacobson (E.), 554
 " in the cerebro-spinal fluid. Riklin (E.), 186
 Alcoholic deterioration, contribution to the problem of. Dorey, Hamburger and Sampliner (E.), 160
 " insanity, investigations on 100 patients in Paris. Dublineau and Duchêne (E.), 714
 " patients, sugar tolerance of. Bowman *et al.* (E.), 584

- Alcoholics, negro, specific motility psychosis in. Parker, Schilder and Wortis (E.), 147
- Alzheimer-Baroncini disease. van Bogaert and Dewulf (E.), 306
- Alzheimer's disease. McMenemey (E.), 1119
- Amaurotic idiocy, lipoidosis in. Klenk (E.), 739
- „ „ tuberos sclerosi and related conditions, cell minerals in. Alexander and Myerson (E.), 130
- Amytal, sodium, as prognostic aid in insulin and cardiazol therapy. Harris, Horwitz and Milch (E.), 299
- Anaesthesia by nitrous oxide, brain after. Van der Horst, L. (E.), 335
- „ cyclopropane, brain potential changes during. Rubin and Freeman (E.), 318
- „ effect of, on blood supply to hypothalamus. Laidlaw and Kennard (E.), 1152
- „ ocular rotation in Spiegel and Collins (E.), 318
- „ spinal, disturbances of lumbo-sacral innervation due to. Gastaldi (E.), 1137
- Anaesthetics, local, detoxication of. Wastl (E.), 1151
- Analeptics, action of, on hibernation. Pfeiffer, Foster and Slight (E.), 588
- „ comparison of different (E.), 337
- „ *see also under* Benzedrine, Cardiazol, etc.
- Anencephalic blood picture. Sato and Kuribayasi (E.), 186
- Anoxaemia and foetal nervous system. Windle, W. F., and Becker, R. F. (E.), 551
- Anticholinesterases, central action of. Schweitzer, Stedman and Wright (E.), 333
- Anxiety and depression, types of, 633
- „ relationship to hysteria, 990
- Arginine in individual brain areas. Lakhno (E.), 171
- Arsenic, passage of, into brain substance. Tomita and Hozyô (E.), 337
- Arsenical encephalopathy. Tzanck and Lewi (E.), 738, 1053
- „ content of brain in encephalitis, inflammatory occlusion of aqueduct and acrodynia. Ecker (E.), 177
- Arterio-sclerotic changes in posterior cerebral artery causing compensatory enlargement of the posterior communicating artery, by R. Klein, 1087
- Ascorbic acid, *see under* Vitamin C
- ASHLEY, W. R., adaptiveness and equilibrium, 478
- Asphyxia, action of, on nervous excitability. Richard (E.), 184
- Atropine, action of toxic doses of, on central nervous system. Koppányi (E.), 183
- Attention, disturbances of, and forced grasping, by B. Schlesinger, 827
- „ morbid, a factor in nervous disorder, by Ian Mackenzie and Ivy Mackenzie, 839
- Babcock deterioration test, evaluation of. Yacorzyński (E.), 1131
- BAIN, A. J., influence of cardiazol on chronic schizophrenia, 502
- Barbiturate-picotoxin antagonism. Miller and Spiegel (E.), 183
- Barbiturate sedatives, side effects of. Shelton (E.), 1152
- Barbiturates, cerebral changes in fatal cases. Hassin (E.), 133
- „ colorimetric identification of. Mancini and Pecciarini (E.), 182
- „ detoxication of, and influence of method of administration. Kohn-Richards and Grimes. (E.), 183
- „ distribution of, in brain, in case of acute poisoning. Zwickler and Steenhauer (E.) 1057
- „ effect of, on digestive secretion. Coffey, Koppányi and Linegar (E.), 1058
- „ effects of, on mental processes. Curran (E.), 1125
- „ effect of, on oxygen uptake. Zorn *et al.* (E.), 182
- „ „ on response of vaso-active substances. Kohn-Richards and Grimes (E.), 744
- „ estimation of, in blood. Levvy (E.), 1058
- „ pharmacology of sigmodal. Hazleton, Koppányi and Linegar (E.), 1057
- „ *see also under* Amytal, evipan
- Barbituric acids, two new derivatives. Hendrik (E.), 744
- BATT, J. C., mirror-writing in normal adults, 680
- BENNET, E. A., methodology in psychological medicine, 230
- Benzedrine, action of, on metabolism. Delaunois and Marri (E.), 589
- „ analogues (cephalotropic amines), studies on effects of. Jacobsen and Wollstein (E.), 337
- „ and brain metabolism. Mann and Quastel (E.), 739, 1148
- „ and barbiturates, reciprocal pharmacological effects of. Myerson (E.), 1063
- „ and duration of resistance to anoxaemia. Binet and Strumza (E.), 1063

- Benzedrine** and other sympathomimetic amines, analeptic potency of. Tainter, Whitsell and Dille (E.), 337
- „ and paredrine, effect of, on sodium amytal narcosis. Myerson, A., *et al.* (E.), 1063
- „ changes in affect and attitude following ingestion of. Turner and Carl (E.), 157
- „ „ in spleen size and blood count due to. Pinkston and Pinkston (E.), 188
- „ detoxication and excretion of. Beyer and Skinner (E.), 1063
- „ effect of, on learning. Minkowsky (E.), 314
- „ „ on metabolism and cardiovascular system. Beyer (E.), 189
- „ „ on syllogistic reasoning. Andrews (E.), 1113
- „ „ on mental processes. Bloomberg (E.), 1125
- „ (isomyn) and methylisomyn, a comparison between some of the effects of, by Golla, F. L., Blackburn, J. M., and Graham, S., 48
- „ toxicity of, in various animals. Ehrlich, Lewy and Krumbhaar (E.), 1148
- „ *see also under* Sympathetic amines and Pervitin
- Benzopyrene**, action of, on central nervous system. Bertrand and Cruner (E.), 185
- Beri-beric neuromyeloses**. Sprague (E.), 1041
- BERKENAU, P.**, relationship between disturbance of liver function and mental disease, 514
- „ vitamin C in senile psychoses, 675
- BIERER, J.**, an attempt to induce patients suffering from catatonia to active and voluntary movements, 287
- „ psychotherapy in mental hospital practice, 928
- Bile salts and cholesterol**, action of, on central nervous system. Köllensperger (E.), 335
- Bismuth**, effect of, on reactions of vegetative nervous system. Storozhev (E.), 187
- BLACKBURN, J. M.**, a review of gestalt psychology, 1
- „ *see* Golla, F. L.
- BLAIR, DONALD**, prognosis in schizophrenia, 378
- „ the modern treatment of epilepsy: a critical survey, with special reference to sodium diphenylhydantoinate, 888
- Blood minerals**. Looney, Jelinek and Dyer (E.), 181
- „ serum protein and lipoids in schizophrenic and manic-depressive psychoses. Gildea, Mar and Biach (E.), 1028
- „ vessels, chemical changes in, occurring with age. Burger (E.), 739
- Brachial palsy** due to antitetanic serum. Bennatti and Cassinoni (E.), 701
- Brain**, antibodies to, and their relation to demyelination. Kolb and Bolton (E.), 718
- „ creatine during embryonic development. Palladin and Rashba (E.), 171
- „ dry-substance content of various parts of. Strobel (E.), 330
- „ micro- and ultra-elements in. Borovik and Kovalsky (E.), 719
- „ swelling, chemical study of. Riebeling (E.), 327
- „ trauma, cerebral lesions due to vasomotor disturbances following. Helfand (E.), 147
- „ *see also under* Cerebral
- BRODY, M. B.**, prolonged narcosis with paraldehyde and dial, 526
- „ note on the use of the 1937 revision of the Stanford-Binet vocabulary test in mental hospital patients, 532
- Bromide and caffeine**, mixture of, in mental diseases. Poznansky (E.), 322
- „ intoxication. Preu (E.), 1151
- „ „ cortical hormone in treatment of. Campbell (E.), 1151
- „ „ iodide and thiocyanate, passage into cerebro-spinal fluid. Wallace *et al.* (E.), 745
- Bromides**, effects of, on mental processes. Curran (E.), 1125.
- Bromine**, distribution of, in organism after administration of bromides. Ephstein (E.), 745
- Bulbocapnine** and other extrapyramidal poisons, effect of, on glutathione content of liver. Asakawa (E.), 334
- Caffeine and cholinergic nerves**. Fredericq and Bacq (E.), 187
- „ influence of, on autonomic nervous system. Barry (E.), 1152
- Calcium and phosphorus** content of blood in normal and mentally diseased men. Satterfield *et al.* (E.), 1056
- „ effect of changes in dietary, on neuro-muscular transmission. Brown and Harvey (E.), 739
- „ local anticonvulsive action of. Beutner (E.), 590
- CAMERON, D. E.**, *see* Remp
- Capillary stasis** in mental disorders, 758
- Carbon monoxide poisoning**. Bakhtiyarov (E.), 586
- Carbohydrate disulphide poisoning** of central nervous system. Baumann (E.), 336
- „ metabolism, disturbances of, of cerebral origin. Lups (E.), 330
- Cardiac changes** during convulsion treatment, 262

- Cardiazol, action of, on reflexes in frog. Kollensperger (E.), 1149
 „ and sodium amytal, antagonism of. Cohen (E.), 182
 „ as respiratory stimulant in alcoholic depression. McCrea and Taylor (E.), 743
 „ camphor and coramine, heart action of. Kahlson (E.), 181
 „ detoxicating action of, on evipan. Kuschel (E.), 1062
 „ effect of, on cerebral vessels. Forbes and Nason (E.), 1149
 „ effect of, on recent learning. Ziskind *et al.*
 „ elimination of. Hinsberg (E.), 1062
 „ histopathological changes in the brain from. Liebert and Weil (E.), 133
 „ in treatment of acute alcoholism. Orenstein, L. L., *et al.* (E.), 545
 „ micro-identification of. Stewart (E.), 181
 „ modifications in blood sugar by. Robuschi and Simmons (E.), 1150
 „ picrotoxin and coramine, comparative study of. Werner and Atum (E.), 181
 „ tetracor and methyltetracor, effect of, on central nervous system. Issektuz (E.), 338
 „ veritol and synephrine-azoman in hypnotic poisoning. Hildebrandt and Bruns (E.),
 182.
 „ *see also under* Convulsion treatment, Analeptics, etc.
 Cardio-vascular accidents, duration of life after. Newbill (E.), 584
 Carotid sinus reflexes, palaeocerebellar inhibition of. Moruzzi (E.), 317
 Cataplexy. Verger and Lafoy (E.), 140
 Catatonia, an attempt to induce patients suffering from, to active and voluntary movements,
 by J. Bierer, 287
 „ nitrogen metabolism in. Leschsinsky (E.), 322
 „ relationship to liver function, 520
 Central nervous system, potassium-calcium ratio and. Shtern (E.), 585
 Cerebellum and carbohydrate metabolism. Kaplan (E.), 1145
 „ palaeocerebellar inhibition of vasomotor and respiratory carotid sinus reflexes.
 Moruzzi (E.), 317
 „ tumours of, convulsions associated with. Webster and Weinberger (E.), 1032
 Cerebral abscess, histopathogenesis of. Carmichael and Kernohan (E.), 304
 „ calcification with parathyroid inefficiency. Eaton (E.), 177
 „ circulation, influence of the endocrines on, by Max Reiss and Yolande Golla, 281
 „ compression. Lister Reid (E.), 1120
 „ cortex; activity of isocortex and hippocampus; electrical studies with micro-electrodes.
 Runshaw, Forbes and Morison (E.), 319
 „ „ analysis of frontal lobe function in monkeys. Finan (E.), 1135
 „ „ area of, producing reflective phenomena. Brickner (E.), 565
 „ „ bilateral frontal lobectomy. Nichols and McVicker Hunt (E.), 698
 „ „ effect of decortication on sympathetic. Williams and Scott (E.), 155
 „ „ effect of various lesions of, on placing and hopping reactions in rats. Brooks
 and Peck (E.), 319
 „ „ extensive bilateral removal from frontal lobes, human behaviour after. Hebb
 and Penfield (E.), 1107
 „ „ in reptiles and birds, physiological analysis of. Bremer, Dow and Moruzzi
 (E.), 150
 „ „ levels of autonomic function with particular reference to. Fulton (E.), 1126
 „ „ lipid pigments in, at various ages. Keller (E.), 330
 „ „ occipital lobe, ocular movements from. Walker and Weaver (E.), 1118
 „ „ orbital surface of frontal lobe, effect of stimulation of. Bailey and Sweet (E.),
 1044
 „ „ partial ablations of, motor performance after. Kennard and Kessler (E.),
 1043
 „ „ phasic response to stimulation. Smith, Mettler and Cutler (E.), 568
 „ „ primary centres for movements of limbs in. Scarff (E.), 1105
 „ „ processes in, originated by visual stimuli, localization of. Chichinadze (E.), 155
 „ „ right temporal lobectomy, intellectual defects following. Hebb (E.), 145
 „ „ role of neocortex in regulating postural reactions of opossum. Bromley and
 Brooks (E.), 1117
 „ „ spread of epileptic discharge in. Penfield and Boldrey (E.), 298.
 „ „ temporal lobes, preliminary analysis of functions of, in monkeys. Klüver and
 Bucy (E.), 304
 „ „ visual zone, effect of darkness and illumination on oxidation. Safarov (E.),
 170
 „ „ metabolism. Noyons and van Goor (E.), 327

- Cerebral metabolism, adenylypyrophosphoric acid in brain at various stages of development.
 Khaikina and Epelbaum (E.), 333
 " " age variations in reduction capacity. Ivanov (E.), 171
 " " brain respiration and glycolysis in cardiazol convulsions, by McLeod, L. D.,
 276
 " " during fever. Himwich, Bowman, Goldfarb and Fazekas (E.), 583
 " " in relation to cerebral disease. Dixon (E.), 1033
 " " nature of reducing substances. Baudouin and Lewin (E.), 171
 " " nitrogen. Rubel (E.), 1145
 " " perfused cat's brain. Chute and Smyth (E.), 740
 " " phosphates in brain tissue in various animals. Kotkova (E.), 329
 " " pyruvate oxidation. Banga *et al.* (E.), 172
 " " " " Long and Peters (E.), 172
 " " " " and active form of vitamin B. Banga *et al.* (E.),
 328
 " " pyruvic exchange in brain. Simola and Alapeuso (E.), 172
 " " respiration in the central nervous system. Quastel (E.), 330
 " " labile phosphorus compounds of brain. Epshtein (E.), 175
 " metabolites, effects of. Govorovitch *et al.* (E.), 585
 " oedema and "brain swelling". Richeling (E.), 327
 " palsy, five years' work with. Sirkin (E.), 727
 " tissue and changes in cerebral oedema, biochemical study of. Stewart-Wallace (E.),
 307
 " " metabolism of. Noyons and van Goor (E.), 170
 " trauma and dementia. Bergonzi (E.), 1137
 " tumour at base of brain, simulating aneurysm of internal carotid. Grimberg and
 and Arbuse (E.), 147
 " tumours, lipide composition of. Lowell (E.), 1142
 " " relation of, to symptomatic epilepsy. Penfield, Erickson and Tarlov (E.),
 1105
- Cerebro-spinal fluid, acetone in, in meningitis. Fournier and Feissolle (E.), 177
 " " alcohol in. Riklin (E.), 186
 " " alkaline phosphatase in. Fleischhacker (E.), 174
 " " Lange test in, influence of particle size, etc., on. Glasol and Sorum (E.),
 741
 " " at various ages. Riebeling (E.), 742
 " " bisulphite-binding substances in. Wortis *et al.* (E.), 1054
 " " cause of reduction of sugar content in meningitis. Hendry (E.), 1053
 " " changes in, in circulatory disturbances (E.), 332
 " " chlorides of. Dos Reis and Schmidt (E.), 1102
 " " chlorides in meningitis. Barnes (E.), 741
 " " cholesterol in, new notes on. Germain (E.), 331
 " " colloid reaction in diagnosis of. Herrmann (E.), 1054
 " " condition of, during procaine block. Rasskazovskii (E.), 1151
 " " during cardiazol convulsion. Niketic and Susic (E.), 182
 " " during encephalography. Levinson *et al.* (E.), 742
 " " effect of insulin treatment on. Spiegel-Adolf and Freed (E.), 181
 " " " of sulphanilamide on viability of meningococci Neter (E.), 186
 " " effects of sorbitol and sucrose on pressure. Schwartz and Elman (E.),
 176
 " " enzymes in normal and pathological, study of. Kaplan, Cohn, Levinson
 and Stern (E.), 331
 " " estimation of vitamin B in. Sinclair (E.), 1055
 " " in alkalosis. Agar and Macpherson (E.), 1142
 " " in general paralysis, after treatment with tryparsamide and bismuth (E.),
 305
 " " in morphinism. Mei *et al.* (E.), 1152
 " " in shock and traumatism. Shtern (E.), 168
 " " in the bovine. Carmichael and Jones (E.), 742
 " " in typhus. D'Ignazio *et al.* (E.), 1054
 " " iodine content of. Klassen *et al.* (E.), 741
 " " Lehmann-Facius test in. Roeder (E.), 332
 " " mastic reaction of, modification of. Acél (E.), 1054
 " " organic phosphorus in. Germain and Morand (E.), 331

- Cerebro-spinal fluid, passage of bromide, iodide and thiocyanate into and out of. Wallace *et al.* (E.), 745
- „ „ phosphatide metabolism in. Roeder (E.), 332
- „ „ post-mortem examination of. Pupo and dos Reis (E.), 557
- „ „ procaine concentration of, after injection. Koster, Shapiro and Warshaw (E.), 187
- „ „ re-establishment of normal composition after artificial derangement. Kassie (E.), 331
- „ „ source of enzymes of. Kaplan *et al.* (E.), 741
- „ „ sugar and chloride content in meningitis. Hendry (E.), 176
- „ „ sulphanilamide concentration in. Neter *et al.* (E.), 184
- „ „ surface tension of, in nervous and mental pathology. Bandettini Di Poggio (E.), 325
- „ „ tryptophane in, Mitto and Gammo (E.), 175
- „ „ „ estimation of. Kraus and Mezey (E.), 175
- „ „ urea content of, in insufficient blood circulation. Aviosor (E.), 175
- „ „ „ in. (E.), 731
- „ „ vitamin B₁ in. Villela (E.), 173, 174
- „ „ „ „ in. Saker (E.), 1143
- „ „ „ C content of, in young infants. Bezssonoff *et al.* (E.), 1056
- „ „ „ „ content of. Camerer (E.), 174
- „ „ „ „ in, determination of. Fridman (E.), 174
- „ „ „ „ content of. Kasahara and Gammo (E.), 742
- „ „ „ „ in, in nursing infants. (E.), 332
- „ „ „ „ in, in experimental rabies. (E.), 186
- „ „ „ xanthoprotein test in. Brus (E.), 742
- “Cerebro-stimulin” of Pope. Ganfani (E.), 1050
- Children, hyperkinetic, follow-up study of by E. Guttmann and Mildred Creak, 624
- Child, spoilt, affective dynamics of. Ramos (E.), 573
- Cholesterololysis in mental patients. Schube *et al.* (E.), 585
- Choline esterase content of human brains. Pighini (E.), 1138
- „ „ „ of nervous tissue. Hellauer (E.), 333
- „ „ „ in brain and cord in tetanized animals. Pighini (E.), 177
- „ „ „ method for comparative determination of. Pighini (E.), 177
- „ „ „ variations of. Pighini (E.), 1138
- Chorea, follow-up of cases of, 628
- Chronaxie. Ando (E.), 1142
- „ „ during exercise. Popov (E.), 722
- „ „ measurement of, and sleep inhibition. Kisselev and Mayorov (E.), 721
- „ „ modification of, in insulin coma. Donini (E.), 1137
- „ „ refractory phase of muscle. Inofimov (E.), 155
- Chronaxies of antagonists, equalization during sleep; alterations of chronaxie during sleep. Kisselev and Mayorov. (E.), 721
- Chronaximetric analysis of vasoconstrictor effects of splanchnic nerve. Chauchard (E.), 1052
- Circulation in central nervous system, temporary arrest of. Weinberger and Gibbon (E.), 707
- „ „ to central nervous system, temporary arrest of. Weinberger, Gibbon and Gibbon (E.), 1029
- Climacteric, female and male, treatment of mental disorders of. 782
- Cobra venom and other analgesics, effect of, on mental efficiency. Macht and Macht (E.), 1150
- COHEN, J. I., physical types and their relation to psychotic types, 602
- COLQUHOUN, D. B., *see* Ford-Robertson, W. M.
- Concussion, physiology of. Scott (E.), 553
- Conditioned cortical bonds established by morphine. Sboroskaya (E.), 720
- „ „ defensive motor reflexes in dogs. Novikova and Khanutina (E.), 156
- „ „ dyspnoea of toxic origin. Sboroskaya and Dolin (E.), 719
- Conditioning of afferent impulses. Toennies (E.), 152
- CONSTANTINE, N. D., *see* Minski, L.
- Contraceptive manoeuvres, neurosis and adultery. Peres (E.), 574
- Contracture, reflex and ischaemic, 863, 873, 878, 881
- Convulsant action of leucine and hydrastine, strengthening by cyanide of. Bergstermann and Krauskopf (E.), 338
- Convulsants, comparison of picrotoxin, cardiazol and coriamyrtin as. Bleckwenn, Hodgson and Herwick (E.), 1149

- Convulsion treatment, blood sugar changes following, by J. E. O. N. Gillespie, 688
- " " by cardiazol. Delmas-Marsalet *et al.* (E.), 557
- " " by ammonium chloride, by E. Cunningham Dax, 660
