When your healthcare team treats Tuberculosis patients, normal protective measures are full of holes. You need to take extra precautions. And one of the best precautions you can take is the ClestraClean™ Air Purification System 525.

Using a patented process, the APS 525 achieves maximum efficiency in the capture and destruction of airborne TB microbes. The specially curved HEPA filter allows high-intensity, germicidal UV light to bathe the entire filtering surface—continuously

killing TB microbes.

And with 99.99% effective filtration, the APS 525 meets guidelines for Airborne Pathogen Removal set by the Centers for Disease Control and Prevention.

So when you're dealing with Tuberculosis, take the extra precaution—the ClestraClean™ Air Purification System 525.

For more information on the APS 525, call 1-800-825-3268 today.

You'll be breathing easier tomorrow.
