

*Announcement***Biological Applications of Inorganic Mass Spectrometry
Conference**

Venue: Institute of Food Research, Norwich Laboratory, Norwich, UK

Date: 8 - 9 November 1995

This conference will cover a number of representative applications of inorganic mass spectrometric techniques and will be of interest to biochemists, biologists, nutritionists, clinical scientists and mass spectrometrists. It is also intended to discuss the feasibility of setting up an Inorganic Mass Spectrometry "Special Interest Group" of the British Mass Spectrometry Society.

*Announcement***Trace Elements in Medicine and Biology: Therapeutic Uses of
Trace Elements - Second Announcement****Fifth International Conference**

Venue: Méribel, France

Date: 4 - 7 February 1996

Organized by: The French Society for Study and Research on Essential Trace Elements

Scientific Programme: Divided into seven sessions: Essential role and therapeutic forms of trace elements; Trace element supplementation at different periods of age; Trace elements in relation with inflammatory conditions, infections and in digestive diseases; Trace elements in endocrinology; Pharmacological applications of trace elements; Trace elements, bone physiology and bone diseases; Epidemiology of trace elements and intervention studies.
Satellite symposium: Genetic disorders of copper metabolism.
