Continuing professional development in psychiatry

Call for Article Proposals

BJPsych Advances, RCPsych's peer-reviewed CPD journal for consultant psychiatrists, invites clinical experts to submit proposals for articles on current ideas, techniques and developments in psychiatry. Articles typically discuss comprehensive, practical approaches to clinical problems and explain the full range of therapeutic options, with useful features like MCQs, summary boxes, and associated commentaries.

To submit a proposal
to the journal, please

In this issue (pp 101 – 109), authors Cyrus Ho et al discuss the role of psychiatrists in anti-terrorism efforts and the controversies surrounding potential associations between mental illness and terrorism. They review the literature, discuss clinical implications and propose a simplified framework that may be incorporated into clinical practice to screen for potential terrorist tendencies.
