

2014 REVIEWER OF THE YEAR – Gregory S. Day

We are pleased to present the 2014 CJNS Distinguished Reviewer of the Year Award to Dr. Gregory Day, who was also the winner of the 2014 Andre Barbeau Memorial Prize of the Canadian Neurological Society. Dr. Day has provided excellent and timely reviews of many articles. The Journal and our authors have greatly benefited from Dr. Day's expertise. We will count on him for stellar future contributions. –Robert Chen, Editor-in-Chief, CJNS

Gregory S. Day, MD, MSc, FRCPC

Eugene M Johnson, Jr. Weston Brain Institute Postdoctoral Fellow
Knight Alzheimer Disease Research Center, Washington University
in St. Louis

Dr. Gregory Day is a postdoctoral clinical-research fellow interested in the clinical diagnosis and characterization of patients with neurodegenerative- and autoimmune-mediated causes of cognitive impairment. A recent graduate (2014) of the University of Toronto Adult Neurology residency training program, Dr. Day's research interests have developed in parallel with his clinical training, and continue to benefit from interactions with mentors and collaborators, and through service as a reviewer for the Canadian Journal of Neurological Sciences. As the Eugene M Johnson, Jr. Weston Brain Institute Postdoctoral Fellow at the Knight Alzheimer Disease Research Center, he is working towards his goal of establishing a productive career in clinical research, and to broadening the scope and application of techniques used to study patients with dementia.
