

## ERRATUM

ANIMAL PRODUCTION, Volume 21, part 3, pp. 199-207

### EVALUATION OF FEMALE REPRODUCTIVE PERFORMANCE OF 28 ONE-WAY CROSSES PRODUCED FROM EIGHT BREEDS OF SWINE

W. B. HOLTSMANN, M. H. FAHMY, T. M. MACINTYRE AND J. E. MOXLEY

1. In the footnotes to Tables 2, 4 and 5 the probability levels should read  $P \geq 0.05$
2. In Table 4 the number of litters of the Tamworth (♂) × Landrace (♀) cross on which litter weight at birth is based should be 17 (not 7 as shown)
3. In Table 4 the litter weight at birth of the Duroc (♂) × Lacombe (♀) should be 14.5 (not 11.5 as shown)
