More to Write Than Just Science?

If you belong to the group of SHEA members (or ICHE readers) who not only writes scientific articles but also enjoys writing fiction or nonfiction, please get

in contact with Bob Sherertz at sherertz@wfbmc.edu. Bob has been talking with several people about the possibility of having a special dinner at next year's

SHEA meeting. If there is sufficient interest, he will arrange the dinner. Also, the editor would be happy to publish parts of people's writings in the *SHEA Newsletter*.

Healthcare Quality Special Interest Group

The SHEA Board has authorized formation of a new Healthcare Quality Special Interest Group and is exploring areas of common interest with the Health Care Division of the American Society for Quality. An inaugural meeting of this special interest group took place during the 4th Decennial International Conference in Atlanta, Georgia, and an e-mail discussion list is proposed. If you have an interest in application of healthcare epidemiology beyond infection control, please consider joining the group. For more information, contact David Birnbaum at birnbaum@interchange.ubc.ca.
