ISNAR Agricultural Research Indicator Series

A Global Database on National Agricultural Research Systems PHILLIP G. PARDEY and JOHANNES ROSEBOOM

The Indicator Series contains fully-sourced and extensively documented countryspecific files on the basic resources committed to national agricultural research systems (NARS), including annual observations from 1960 - 1986 on agricultural research expenditure for 154 developing and developed countries. £35.00 net HB 0 521 37368 9 550 pp. 1989

Herbicides and Plant Metabolism

Edited by A. D. DODGE

This volume provides an up-to-date review of the most important areas of the biochemistry of herbicide action, including the discovery and metabolism of herbicides, herbicidal inhibition, mechanisms of resistance and the possibility of transferring this resistance to susceptible plants.

£32.50 net HB 0 521 34422 0 277 pp. 1989 Society for Experimental Biology Seminar Series 38

The Use of Plant Genetic Resources

Edited by A. H. D. BROWN et al

Many of the beneficial characteristics found in wild plants - such as disease and drought resistance - can be used to improve existing crops, this book discusses plant genetic resources and the impact of new technology.

£27.50 net HB 0 521 34584 7 392 pp. 1989 £9.95 net PB 0 521 36886 3

The Ecology of Intercropping JOHN VANDERMEER

The practice of intercropping is widespread throughout the tropics and is becomingly increasingly practised in temperate agriculture. The benefits of nutrient exchange, reduced weed competition and pest and pathogen control can generate substantial improvements in growth and yield. The author, a leading worker on the subject, shows how classical ecological principles, can be applied to intercropping. £30.00 net HB 0 521 34592 8 248 pp. 1989

Biological Control of Microbial Plant Pathogens R. E. CAMPBELL

This advanced textbook describes the biological ways in which diseases of plants, caused by pathogenic microbes, can be controlled without the use of chemical pesticides. The basis of biocontrol is described and many examples of control measures in commercial use or development are given. £27.50 net HB 0 521 34088 8 228 pp. 1989 £9.95 net PB 0 521 349001

Now in paperback

Farming and Birds RAYMOND J. O'CONNOR and MICHAEL SHRUBB

Farming and Birds examines modern farmland as a bird habitat, explaining the changes, both in structure and in resources, provided by the modern farmer working within a production orientated economic regime.

£9.95 net PB 0 521 38973 9 304 pp. 1989
