# Integration, Development and Equity: Economic Integration in West Africa

Peter Robson, *St. Andrews University*

An authoritative study that brings out the diversity of approaches to economic integration that coexist in West Africa, and discusses the obstacles that remain to be resolved if integration is to be made more effective. A large amount of statistical and other information is presented on different West African groupings that is not readily obtainable elsewhere. The book thus makes an important contribution to the literature on Third World development.
