

## FINANCIAL SUPPORT FOR MEMOIR SERIES

Publication of the Memoirs of The Paleontological Society is supported from resources outside the regular publication budget of the Society for the *Journal of Paleontology*. Authors and institutions desiring to use the opportunity of publishing major paleontological works as part of the Memoir Series of the Society are expected to raise sufficient resources to cover the actual costs of reproduction. Individuals wishing to support the Memoir Series generally may contribute to an appropriate fund of the Society for that purpose through the current Treasurer of the Society whose address is listed on the first pages of every issue of the *Journal*. Acceptability of manuscripts for the Memoir Series is judged on the customary basis of the review process used for articles in the *Journal*.

The Editor

### NOTICE TO LIBRARIANS

It is suggested that the memoir series of The Paleontological Society be catalogued and bound as a separate publication series independent of the *Journal of Paleontology*. In future years memoirs may be issued separately from the *Journal*.

#### *Memoir 1*

Amsden, T. W., 1968, Articulate Brachiopods of the St. Clair Limestone (Silurian), Arkansas, and the Clarita Formation (Silurian), Oklahoma: Paleont. Soc., Mem. 1 (*Journal of Paleontology*, vol. 42, no. 3, supp.), 117 p.

#### *Memoir 2*

Macurda, D. B., Jr. (editor), 1968, Paleobiological aspects of growth and development, a symposium: Paleont. Soc., Mem. 2 (*Journal of Paleontology*, vol. 42, no. 5, supp.), 119 p.

#### *Reference to a paper in Memoir 2*

Bonner, J. T., 1968, Size change in development and evolution, in Paleobiological aspects of growth and development, a symposium: Paleont. Soc., Mem. 2 (*Journal of Paleontology*, vol. 42, no. 5, supp.), p. 1–15.

#### *Memoir 3*

Waller, T. R., 1969, The evolution of the *Argopecten gibbus* stock (Mollusca: Bivalvia), with emphasis on the Tertiary and Quaternary species of Eastern North America: Paleont. Soc., Mem. 3 (*Journal of Paleontology*, vol. 43, no. 5, supp.), 125 p.

#### *Memoir 4*

Longacre, S. A., 1970, Trilobites of the Upper Cambrian Ptychaspid Biome, Wilberns Formation, Central Texas: Paleont. Soc., Mem. 4 (*Journal of Paleontology*, vol. 44, no. 1, supp.), 70 p.

#### *Memoir 5*

Kier, P. M., 1974, Evolutionary trends and their functional significance in the post-Paleozoic Echinoids: Paleont. Soc., Mem. 5 (*Journal of Paleontology*, vol. 48, no. 3, supp.), 96 p.

#### *Memoir 6*

Shaw, F. C., 1974, Simpson Group (Middle Ordovician) Trilobites of Oklahoma: Paleont. Soc., Mem. 6 (*Journal of Paleontology*, vol. 48, no. 5, supp.), 54 p.

#### *Memoir 7*

Kolata, D. R., 1975, Middle Ordovician Echinoderms from Northern Illinois and Southern Wisconsin: Paleont. Soc., Mem. 7 (*Journal of Paleontology*, vol. 49, no. 3, supp.), 74 p.

#### *Memoir 8*

Petersen, Morris S., 1975, Upper Devonian (Famennian) Ammonoids from the Canning Basin, Western Australia: Paleont. Soc., Mem. 8 (*Journal of Paleontology*, vol. 49, no. 5, supp.), 55 p.

#### *Memoir 9*

Grant, Richard E., 1976, Permian Brachiopods from Southern Thailand: Paleont. Soc., Mem. 9 (*Journal of Paleontology*, vol. 50, no. 3, supp.), 269 p.

#### *Memoir 10*

Manger, Walter L., and W. Bruce Saunders, 1980, Lower Pennsylvanian (Morrowan) Ammonoids from the North American Midcontinent: Paleont. Soc., Mem. 10 (*Journal of Paleontology*, vol. 54, no. 3, supp.), 56 p.

#### *Memoir 11*

Frest, T. J., Brian F. Glenister, and W. M. Furnish, 1981, Pennsylvanian-Permian Cheiloceratacean Ammonoid families Maximitidae and Pseudohaloritidae: Paleont. Soc., Mem. 11 (*Journal of Paleontology*, vol. 55, no. 3, supp.), 46 p.

#### *Memoir 12*

Blackwelder, Blake W., 1981, Late Cenozoic Stages and Molluscan Zones of the U.S. Middle Atlantic Coastal Plain: Paleont. Soc., Mem. 12 (*Journal of Paleontology*, vol. 55, no. 5, supp.), 34 p.

#### *Memoir 13*

Fisher, Daniel C., and Matthew H. Nitecki, 1982, Standardization of the Anatomical Orientation of Receptaculitids: Paleont. Soc., Mem. 13 (*Journal of Paleontology*, vol. 56, no. 1, supp.), 40 p.

#### *Memoir 14*

Karklins, Olgerts L., 1983, Ptilodictyoid Cryptostomata Bryozoa from the Middle and Upper Ordovician rocks of Central Kentucky: Paleont. Soc., Mem. 14 (*Journal of Paleontology*, vol. 57, no. 1, supp.), 31 p.

#### *Memoir 15*

Karklins, Olgerts L., 1985, Bryozoans from the Murfreesboro and Pierce Limestones (Early Black Riveran, Middle Ordovician), Stones River Group, of Central Tennessee: Paleont. Soc. Mem. 15 (*Journal of Paleontology*, vol. 59, no. 3, supp.), 42 p.

#### *Memoir 16*

Elias, Robert J., 1985, Solitary rugose corals of the Upper Ordovician Montoya Group, southern New Mexico and westernmost Texas: Paleont. Soc. Mem. 16 (*Journal of Paleontology*, vol. 59, no. 5, supp.), 58 p.

#### *Memoir 17*

Karklins, Olgerts L., 1986, Chesterian (Late Mississippian) bryozoans from the upper Chainman Shale and lowermost Ely Limestone of western Utah: Paleont. Soc. Mem. 17 (*Journal of Paleontology*, vol. 60, no. 1, supp.), 48 p.

#### *Memoir 18*

Macellari, Carlos E., 1986, Late Campanian–Maastrichtian ammonite fauna from Seymour Island (Antarctic Peninsula): Paleont. Soc. Mem. 18 (*Journal of Paleontology*, vol. 60, no. 2, supp.), 55 p.

#### *Memoir 19*

Gordon, Mackenzie, Jr., 1986, Late Kinderhookian (Early Mississippian) ammonoids of the western United States: Paleont. Soc. Mem. 19 (*Journal of Paleontology*, vol. 60, no. 3, supp.), 36 p.

#### *Memoir 20*

Rigby, J. Keith, and A. W. Potter, 1986, Ordovician Sphinctozoan Sponges from the Eastern Klamath Mountains, Northern California: Paleont. Soc. Mem. 20 (*Journal of Paleontology*, vol. 60, no. 4, supp.), 47 p.

#### *Memoir 21*

Cronin, Thomas M., 1987, Evolution, biogeography, and systematics of *Puriana*: evolution and speciation in Ostracoda, III: Paleont. Soc. Mem. 21 (*Journal of Paleontology*, v. 61, no. 3, supp.), 71 p.

*Memoir 22*

Newton, C. R., M. T. Whalen, J. B. Thompson, N. Prins, and D. Delalla, 1987, Systematics and paleoecology of Norian (Late Triassic) bivalves from a tropical island arc: Wallowa Terrane, Oregon: *Paleont. Soc. Mem. 22* (*Journal of Paleontology*, v. 61, no. 4, supp.), 83 p.

*Memoir 23*

Bown, Thomas M., and Kenneth D. Rose, 1987, Patterns of dental evolution in early Eocene anaptomorphine primates (Omomyidae) from the Bighorn Basin, Wyoming: *Paleont. Soc. Mem. 23* (*Journal of Paleontology*, v. 61, no. 5, supp.), 162 p.

*Memoir 24*

Pojeta, John, Jr., and Norman F. Sohl, 1987, *Ascaulocardium armatum* (Morton, 1933), new genus (Late Cretaceous): the ultimate variation on the bivalve paradigm: *Paleont. Soc. Mem. 24* (*Journal of Paleontology*, v. 61, no. 6, supp.), 77 p.

*Memoir 25*

Maples, Christopher G., and Rex Buchanan, 1989, Raymond Cecil Moore (1892–1974): Memorial and bibliography (in celebration of the 100th anniversary of the Kansas Geological Survey): *Paleont. Soc. Mem. 25* (*Journal of Paleontology*, v. 63, no. 6, supp.), 29 p.

*Memoir 26*

Elder, William P., and Stephen E. Box, 1992, Late Cretaceous inoceramid bivalves of the Kuskokwim Basin, southwestern Alaska, and their implications for basin evolution: *Paleont. Soc. Mem. 26* (*Journal of Paleontology*, v. 66, no. 2, supp.), 39 p.

*Memoir 42*

Lespérance, P. J., and S. Desbiens, 1995, Selected Ordovician trilobites from the Lake St. John District of Quebec and their bearing on Systematics: *Paleont. Soc. Mem. 42* (*Journal of Paleontology*, vol. 69, no. 4, supp.), 19 p.

*Memoir 43*

Feldmann, Rodney M., Silvio Casadío, Luis Chirino-Galvez, and María Aguirre-Urreta, 1995, Fossil decapod crustaceans from the Jagüel and Roca Formations (Maastrichtian–Danian) of the Neuquén Basin, Argentina: *Paleont. Soc. Mem. 43* (*Journal of Paleontology*, vol. 69, no. 5, supp.), 22 p.

*Memoir 44*

Cobban, W. A., and W. J. Kennedy, 1995, Maastrichtian ammonites chiefly from the Prairie Bluff Chalk in Alabama and Mississippi: *Paleont. Soc. Mem. 44* (*Journal of Paleontology*, vol. 69, no. 5, supp.), 40 p.

*Memoir 45*

Palmer, A. R., and A. J. Rowell, 1995, Early Cambrian trilobites from the Shackleton Limestone of the Central Transantarctic Mountains: *Paleont. Soc. Mem. 45* (*Journal of Paleontology*, vol. 69, no. 6, supp.), 28 p.

*Memoir 46*

Sutherland, P. K., 1996, *Ardmosteges orchamus* new genus, new species, in the Early Pennsylvanian of Oklahoma—possible ancestor to the richthofenoid brachiopods: *Paleont. Soc. Mem. 46* (*Journal of Paleontology*, vol. 70, no. 2, supp.), 25 p.

*Memoir 47*

Lane, N. Gary, Johnny A. Waters, and Christopher G. Maples, Echinoderm faunas of the Hongguleng Formation, Late Devonian (Famennian), Xinjiang Uygur Autonomous Region, People's Republic of China: *Paleont. Soc. Mem. 47* (*Journal of Paleontology*, vol. 71, no. 2, supp.), 43 p.

## JOURNAL POLICY

The *Journal of Paleontology* publishes original articles on taxonomic paleontology and the implications of taxonomic paleontology to all aspects of paleobiology and stratigraphic paleontology. Comments on article and replies are considered for publication. Manuscripts should be submitted to the office of the Managing Editor, which handles the review process. The Technical Editors work with authors to produce final copy, and they return manuscripts to the Managing Editor for final processing. Manuscripts submitted elsewhere should not be submitted to the *Journal*.

Contributors should read the "Preparation of Manuscripts," below; more detailed "Instructions for Authors" were published in the January, 1995 issue (69:182–186). Manuscripts not adhering to format will be returned to authors for correction before entering the editorial process. Cost of *Journal* publication is taken entirely from membership dues in The Paleontological Society and voluntary page contributions. By action of the Council of the Society (*Journal of Paleontology*, 1985, 59:789), all publication costs for members will be covered by membership funds, although members are asked for voluntary contributions to defray costs. At least one author of a manuscript must be a member; nonmembers are required to pay full page costs. Editors use their judgement in setting aside the membership rule for individuals who can neither join the Society nor pay page charges. For new members (i.e., Society membership up to three months), the Society will provide eight published pages, but requires full page costs for papers in excess of eight pages in length. Authors are charged for changes they make in proof and for their original mistakes that must be corrected in proof. A limit of 25 published pages is placed on all papers within the *Journal*; limited excess pages might be accepted but their cost will be charged to the author. Longer manuscripts must be submitted to the memoir series; all publication costs for memoirs must be paid by authors.

## PREPARATION OF MANUSCRIPTS

### GENERAL

Important references for format preparation are: 1) The *Journal of Paleontology* Instructions for Authors (Volume 69, pages 182–186); 2) *Suggestions to Authors of the Reports of the United States Geological Survey* (seventh edition) 1991; and 3) *The Chicago Manual of Style* (fourteenth edition) 1993. Where there is conflict, current *Journal* style prevails; any recent issue provides a useful guide, but note changes with the 69:182–186 "Instructions for Authors."

All copy must be submitted on either 21.5 × 28.0 cm (8½ × 11 in.) or A4 standard-weight paper. Submit three copies. Manuscripts must be laser printed or letter-quality typed; dot-matrix printing is not acceptable. Avoid small font sizes; 12-point Times or 10-point Helvetica are appropriate. Double-space throughout, including references and table and figure descriptions; provide ample margins. Submitted copies need not include original illustrations, but they should be of very high quality; originals may be requested if submitted figures are not of adequate quality. Use metric measurements. A 7.5–10.0 cm heading is left on the first page above the title. First-page format should follow published examples.

### TEXT

**ABSTRACT**—An abstract of 250 or fewer words is required for articles; abstracts do not accompany notes or other comments. The heading for the abstract is not indented; it is capitalized throughout, and it is followed by two hyphens but no period.

**Headings**.—Two grades of headings are almost always sufficient. Primary headings are centered and typed in all capital letters. Secondary headings are indented, underlined, and followed by a period and two hyphens. The first two words of the introduction are capitalized and abut the left margin. Do not end manuscript lines with hyphens.

**Systematics**.—Format for arrangement of systematic paleontology can be found in current issues of the *Journal*. All descriptions of new taxa must be accompanied by a diagnosis, an indication of type specimens and repository, stratigraphic and geographic data, and specific reference to illustrations of the taxon. Particularly note the format, punctuation, and capitalization conventions used in the synonymy.

### REFERENCES

Particular care should be given to reference format. The "Instructions for Authors" provides many examples, but note that certain minor stylistic changes were initiated with the 69(1) issue.

### ILLUSTRATIONS

**Figures**.—All illustrations, including maps, geologic sections, and halftone illustrations, must be numbered in the sequence of their first appearance in the text. "Figure" is used rather than "Plate," and therefore line drawing and photographic figures are numbered in sequence. All illustrations, including review copies, must be submitted at publication size. These sizes are: full page, 18.3 × 23.3 cm; double-column, 18.3 cm; single column, 9.0 cm. Halftone illustrations must be original photographs mounted on black or white cardboard. Photographic subjects must be illuminated from the upper left, or evenly illuminated. A photograph of a montage is not acceptable. Each illustration must be identified by a numeral, but typewritten numbering is not acceptable. Press-on lettering is acceptable, but it readily breaks from the original and therefore much care must be used. Line drawings may be either an original or a glossy print mounted on white cardboard. Allow 1.5 cm at top of figure for a printer's label. Color photocopies of photographs provide superior reproduction and should be used for review.

## PALEONTOLOGICAL SOCIETY SPECIAL PUBLICATIONS

The Paleontological Society publishes two series of topical publications. Short Course Notes are published each year in association with the Society's annual short course, held with the Annual Meeting of the Geological Society of America. The Special Publications series includes the proceedings of symposia and other events sponsored by the Society.

### Short Courses Notes:

- Echinoderms—edited by T.W. Broadhead and J.A. Waters (1980), 235 p., \$12.  
Lophophorates—organized by J.T. Dutro, Jr., and R.S. Boardman (1981), 253 p., \$12.  
Foraminifera—organized by M.A. Buzas and B.K. Sen Gupta (1982), 219 p., \$12.  
Sponges and Spongiomorphs—organized by J.K. Rigby and C.W. Stearn (1983), 220 p., \$12.  
Mammals—organized by P.D. Gingerich and C.E. Badgley (1984), 234 p., \$12.  
Mollusks—organized by D.J. Bottjer, C.S. Hickman, and P.D. Ward (1985), 308 p., \$12.  
Land Plants—organized by R.A. Gastaldo (1986), 226 p., \$12.  
Fossil Prokaryotes and Protists—organized by J.H. Lipps (1987), 303 p., \$12.  
Molecular Evolution and the Fossil Record—organized by Bruce Runnegar and J.W. Schopf (1988), 167 p., \$12.  
The Age of Dinosaurs—organized by Kevin Padian and Daniel J. Chure (1989), 210 p., \$15.  
Arthropod Paleobiology—organized by D.L. Mikulic (1990), 312 p., \$15.  
Analytical Paleobiology—organized and edited by N.L. Gilinsky and P.W. Signor (1991), 216 p., \$15.  
Trace Fossils—organized and edited by C. G. Maples and R. R. West (1992), 236 p., \$15.  
Taphonomic Approaches to Time Resolution in Fossil Assemblages—organized and edited by S.M. Kidwell and A.K. Behrensmeyer (1993), 302 p., \$15.  
Major Features of Vertebrate Evolution—organized and edited by D. R. Prothero and R. M. Schoch (1994), 270 p., \$15.

### Special Publications:

- Volume 1: The Evolution–Creation Controversy: Perspectives on Religion, Science, and Education—A Handbook. Organized by R.A. Gastaldo and W.F. Tanner (1984), 154 p., \$6.50.  
Volume 2: Paleocology and Taphonomy of Pleistocene to Recent Intertidal Deposits, Gulf of California. K.W. Flessa (ed.) (1987), 240 p., \$12.50.  
Volume 3: Methods and Applications of Plant Paleocology. W.A. DiMichele and S.L. Wing (eds.) (1988), 171 p., \$12.50.  
Volume 4: Paleotechniques. R.M. Feldmann, R.E. Chapman, and J.T. Hannibal (eds.) (1989), 358 p., \$20.00.  
Volume 5: Paleocommunity Temporal Dynamics: The Long-term Development of Multispecies Assemblies. W. Miller, III (ed.) (1990), 421 p., \$20.00.  
Volume 6: Fifth North American Paleontological Convention—Abstracts and Program. S. Lidgard and P.R. Crane (eds.) (1992), 329 p., \$20.00.  
Volume 7: Dino Fest. G. D. Rosenberg and D. L. Wolberg (eds.) (1994), 503 p., \$30.00.

All publications are available by mail order from:

Ms Barbara Pitman  
Paleontological Society Special Pubs.  
Carnegie Museum of Natural History  
4400 Forbes Ave.  
Pittsburgh, PA 15213-4080

A check or institutional purchase order must accompany the order. Payment is to be made in \$US to The Paleontological Society. Orders will be shipped 4th class mail; overseas orders should add \$1.50 US for surface mail.

(NOTE: Communications about the JOURNAL should be addressed to: JOURNAL OF PALEONTOLOGY Subscriptions Office, P.O. Box 1897, 810 East 10th St., Lawrence, KS 66044-8897.)
