BULLETIN Volume 9 (1973)

of the Australian Mathematical Society

Number 1

J. B. Diaz and John G. Leschen	*A remark on a mean value theorem of Alexander Weinstein in Generalized Axially Symmetric Potential Theory*	1
John H. Cozzens	*Twisted group rings and a problem of Faith*	11
D. G. Green	*Extensions of a semilattice by an inverse semigroup*	21
J. A. Graves and J. J. Malone	*Embedding near domains*	33
Ian N. Stewart	*Finiteness conditions in soluble groups and Lie algebras*	43
B. B. Phadke	*Conditions for a plane projective metric to be a norm*	49
Michael D. Alder	*Remark on a theorem of E. H. Brown*	55
R. A. R. Monzo	*On categorical semigroups*	61
Edward Formanek	*The zero divisor question for supersolvable groups*	69
U. B. Tewari and A. K. Gupta	*The algebra of functions with Fourier transforms in a given function space*	73
Sidney A. Morris and H. B. Thompson	*Invariant metrics on free topological groups*	83
Panayotis Th. Lambrinos	*Quasi proximal continuity*	89
O. F. Hughes	*A useful relationship in the conformal mapping of quadrilaterals*	99
C. E. Aull	*A generalization of a theorem of Aquaro*	105
Marvin W. Grossman	*Uniqueness of invariant means on certain introverted spaces*	109
Chin-Hung Ching	*Uniqueness and representation of a function in terms of its translated averages*	121
Yeo Kok Chye	*Minimal generating sets for some wreath products of groups*	127
Isidore Fleischer	*A final remark on extending to strict total orders in modules*	137
P. J. McCarthy	*Matchings in graphs*	141
Abstracts of Australasian PhD theses		
A. R. Gifkins	*An algebraic approach to Runge-Kutta methods*	145
Harold Bevan Thompson	*Some existence problems in differential equations approached through functional analysis*	147
Geoffrey J. McLachlan	*The errors of allocation and their estimators in the two-population discrimination problem*	149
Stephen K. McKee	*Orthogonal expansions and transforms of vector-valued measures and functions*	151
Joseph Mendel Steiner	*Thermal convection in a non-newtonian fluid*	153
Peter M. Robinson	*The estimation of continuous-time systems using discrete data*	155
Margaret Anne Dow	*Maximum principles for some quasilinear degenerate elliptic-parabolic operators*	157

Bull. Austral. Math. Soc. Vol. 9 (1973) No. 1, pp. 1-159

THE UNIVERSITY OF QUEENSLAND PRESS
ST LUCIA, QUEENSLAND 4067

Registered at Australia for transmission by post as a periodical.

THE AUSTRALIAN MATHEMATICAL SOCIETY

President:	G. Szekeres	University of New South Wales
Secretary:	W. Pye	Melbourne College of Education, Grattan and Swanston Streets, Carlton, Victoria 3053, Australia
Treasurer:	V. G. Hart	Department of Mathematics, University of Queensland St Lucia, Queensland 4067, Australia.

(These officers serve until May 1974)

Membership and correspondence

Applications for membership, notices of change of address or title or position, and other correspondence, except as noted below, should be sent to the Secretary (address above). Subscriptions and correspondence related to accounts should be sent to the Treasurer (address above). Correspondence about the distribution of the Society's JOURNAL and BULLETIN, and orders for back numbers, should be sent to the Business Manager, whose address is the same as the Treasurer's (above).

Publications

The JOURNAL of the Australian Mathematical Society began publication in 1959, and now appears in two volumes, each of four parts, annually. Manuscripts for publication should be sent to the Editor:

Professor B. Mond,
Department of Mathematics,
La Trobe University,
Bundoora, Victoria 3083, Australia,

or to one of the Associate Editors listed in a recent part of the JOURNAL.

The BULLETIN of the Australian Mathematical Society began publication in 1969. Two volumes of three numbers each are published annually. Manuscripts for publication should be sent to the Editor:

Professor B. H. Neumann,
Department of Mathematics,
Institute of Advanced Studies,
Australian National University,
POB4, Canberra, ACT 2600, Australia,

or to the Associate Editor, Dr L. G. Kovács, at the same address.

Authors receive 50 free offprints of their papers and may order more at cost. Offprint orders and correspondence about proofs should be sent to one of the Assistant Editors:

Associate Professor A. McMullen, or
Department of Mathematics,
Royal Military College,
Duntroon, ACT 2600, Australia.

Dr. S. Yamamuro,
Department of Mathematics,
Institute of Advanced Studies,
Australian National University,
POB4, Canberra, ACT 2600, Australia.
