

# THE MARINE BIOLOGICAL ASSOCIATION OF THE UNITED KINGDOM

## TERMS OF MEMBERSHIP FOR 2015

MBA MEMBERSHIP (prices per annum)	Price from 1st March 2015
Young Marine Biologist (YMB)	£12.50
Student Member	£25.00
Associate Member	£40.00 (direct debit discount £5)
Professional Member, Mem.MBA	£45.00 (direct debit discount £5)
MBA Fellow, FMBA	£120.00 (direct debit discount £5)
Institutional Member	£340.00

JOURNAL SUBSCRIPTION (MBA price added to the above membership fees, with the exception of YMB as no Journal option for this category)	
Online Journal	£20.00
Print Journal	£60.00
Print & Online Journal	£80.00

The Association is a learned society founded in 1884 and incorporated by Royal Charter in 2013. The Marine Biological Association (MBA) provides a unified, clear, independent voice on behalf of the marine biological community. In 1888, the MBA opened the Plymouth laboratory at Citadel Hill.

The MBA is also a registered charity with its key aims being to promote scientific research into all aspects of life in the sea, including the environment on which it depends, and to disseminate to the public the knowledge gained. The Patron of the Association is His Royal Highness the Duke of Edinburgh, who is also an Honorary Fellow. The other Honorary Fellows are His Serene Highness Prince Albert of Monaco, Dr Sylvia Earle, Sir Tim Hunt and Professor James Lovelock.

The work of the Association is controlled by the Council elected annually by its subscribing members.

The Marine Biological Association, under the direction of its Council, has undertaken research in all branches of marine science and many of the results have been published in this Journal. An account of the history of the first hundred years of the Association and Journal may be found in Volume 67 (pp. 463 and 465).

Since its foundation the Association has been supported by grants from Research Councils and by subscriptions and donations from private members, universities, learned societies, the Fishmongers' Company and other public bodies.

The Plymouth Laboratory was opened in June 1888 and, since that date, considerable additions have been made to the buildings,

including a library, resource centre, extensive laboratory accommodation and seawater facilities.

The Association and the research programme are based entirely at the Citadel Hill Laboratory. The building is shared with SAHFOS (Sir Alister Hardy Foundation for Ocean Science).

The Marine Biological Association retains the lease of the building on Citadel Hill and continues as a very active scientific learned society with a large international membership. The MBA manages a research programme carried out by research fellows together with scientific visitors, publishes an International Journal, Annual Report, Newsletters and organizes scientific meetings.

Subscriptions can be paid by cash/cheque, direct debit from a UK bank account or credit card. \*Subscriptions are reduced by £5 per annum if paying by direct debit.

Members of the Association have a wide range of rights and privileges including the use of post-nominals (FMBA for MBA Fellows, Mem.MBA for Professional Members) and being entitled to receive the Marine Biologist Magazine. The Commissioners of Inland Revenue have approved the Association for the purposes of Section 16, Finance Act, 1958, and that the whole of the annual subscriptions paid by a member who qualifies for relief under the section will be allowable as a deduction from his emoluments assessable to income tax.

All correspondence should be addressed to: The Membership Secretary, Marine Biological Association, The Laboratory, Citadel Hill, Plymouth, PL1 2PB, UK (Tel. +44 (0) 1752 633207; Fax. +44 (0) 1752 633102; e-mail: membership@mba.ac.uk).

## CONTENTS

Khedhri, I., Djabou, H. & Afli, A. Trophic and functional organization of the benthic macrofauna in the lagoon of Boughrara — Tunisia (SW Mediterranean Sea)	647
Chen, H., Guan, W., Zeng, G., Li, P. & Chen, S. Alleviation of solar ultraviolet radiation (UVR)-induced photoinhibition in diatom <i>Chaetoceros curvisetus</i> by ocean acidification	661
Yesson, C., Bush, L.E., Davies, A.J., Maggs, C.A. & Brodie, J. The distribution and environmental requirements of large brown seaweeds in the British Isles	669
Wang, Q. & Xu, H. Colonization dynamics in trophic-functional patterns of biofilm-dwelling ciliates using two methods in coastal waters	681
Feehan, K.A. & Waller, R.G. Notes on reproduction of eight species of Eastern Pacific cold-water octocorals	691
Gibson, P.H. Augmented descriptions and nomenclature of the cirratulid polychaetes <i>Dodecaceria fimbriata</i> and <i>D. concharum</i>	697
Martin, D., Gil, J., Abgarian, C., Evans, E., Turner Jr, E.M. & Nygren, A. <i>Proceraea janetae</i> sp. nov. (Annelida, Syllidae, Autolytinae), a scleractinian coral feeder from Grand Cayman Island	703
Salvo, F., Hamoutene, D. & Dufour, S.C. Trophic analyses of opportunistic polychaetes ( <i>Ophryotrocha cyclops</i> ) at salmonid aquaculture sites	713
Souto, J., Reverter-Gil, O. & de Blauwe, H. New and little known species of <i>Celleporina</i> Gray, 1848 (Bryozoa, Cheilostomata) from the Atlantic–Mediterranean region	723
Botter-Carvalho, M.L., Costa, L.B., Gomes, L.L., Clemente, C.C.C. & C. Carvalho, P.V.V. Reproductive biology and population structure of <i>Axianassa australis</i> (Crustacea, Axianassidae) on a sand-mud flat in north-eastern Brazil	735
Ltaief, T.B., Drira, Z., Hannachi, I., Hassen, M.B., Hamza, A., Pagano, M. & Ayadi, H. What are the factors leading to the success of small planktonic copepods in the Gulf of Gabes, Tunisia?	747
Safaie, M., Shokri, M.R., Kiabi, B.H. & Pazooki, J. Biomass, CPUE and size frequency distribution of blue swimming crab <i>Portunus segnis</i> (Forsk., 1775) in coastal waters of the northern Persian Gulf, Iran	763
Simões, E., Vieira, R.C., Schramm, M.A., Mello, D.F., de Almeida Pontinha, V., da Silva, P.M. & Barracco, M.A. Impact of harmful algal blooms ( <i>Dinophysis acuminata</i> ) on the immune system of oysters and mussels from Santa Catarina, Brazil	773
Appelqvist, C., Havenhand, J.N. & Toth, G.B. Distribution and abundance of teredinid recruits along the Swedish coast — are shipworms invading the Baltic Sea?	783
Fernandes, M.R., Garofalo, R. & Pimenta, A.D. New species and records of Newtoniellinae (Caenogastropoda, Newtoniellidae) from Brazil	791
Mecho, A., Fernandez-arcaya, U., Ramirez-Llodra, E., Aguzzi, J. & Company, J.B. Reproductive biology of the seastar <i>Ceramaster grenadensis</i> from the deep north-western Mediterranean Sea	805
Chakraborty, K. & Joseph, D. Inter-annual and seasonal dynamics of amino acid, mineral and vitamin composition of silver belly <i>Leiognathus splendens</i>	817
Soykan, O., İlkyaz, A.T., Metin, G. & Kinacigil, H.T. Age, growth and reproduction of European hake ( <i>Merluccius merluccius</i> (Linn., 1758)) in the Central Aegean Sea, Turkey	829
Cardoso, J.F.M.F., Freitas, V., Quilez, I., Jouta, J., Witte, J.I.J. & van der Veer, H.W. The European sea bass <i>Dicentrarchus labrax</i> in the Dutch Wadden Sea: from visitor to resident species	839
Domènech, F., Badillo, F.J., Tomás, J., Raga, J.A. & Aznar, F.J. Epibiont communities of loggerhead marine turtles ( <i>Caretta caretta</i> ) in the western Mediterranean: influence of geographic and ecological factors	851
