USA

## **Special sales and supplements**

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Sarah Maddox at Cambridge University Press for further details (email: smaddox@cambridge.org).

## **Subscription information**

*Public Health Nutrition* is an international journal published 18 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at journals.cambridge.org/PHN, with free table of contents alert (upon registration).

## **Annual subscription rates**

Volume 24, 2021 (18 issues):  
Internet/print package: £1390/\$2666 Americas only/€2227 EU only  
Internet only: £1006/\$1909 Americas only/€1599 EU only

**Any supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

**Advertising:** The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and which are not, and will not be obliged to give reasons to prospective

advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

**Back volumes** will be available in due course. Please contact Cambridge University Press for further information.

**US POSTMASTERS:** Please send address corrections to Cambridge University Press  
1 Liberty Plaza  
Floor 20, New York  
NY 10006  
USA

**Notes for Authors** are available from the publisher at the given address and can be found inside the back cover.

**Offprints:** The author (or main author) of an accepted paper will receive a free PDF of their paper. Additional offprints are available for a fee and must be ordered at proof stage. **No page charges are levied by this journal.**

**Copyright:** As of 1 January 2001 the copyright of all articles submitted to *Public Health Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Editorial Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London, W6 7NJ, UK.

**Disclaimer:** The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk. This journal issue has been printed on FSC-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see [www.fsc.org](http://www.fsc.org) for information. Typeset by Macmillan India Limited, Bangalore, India and Printed in Europe by Bell and Bain, Glasgow.

*Public Health Nutrition* is covered in Science Citation Index Expanded (Web of Science), Current Contents, Agriculture, Biology & Environmental Sciences, Current Contents, Clinical Medicine, CAB ABSTRACTS<sup>®</sup>, Global Health, Index Medicus<sup>®</sup> (MEDLINE<sup>®</sup>), EMBASE, Excerpta Medica, BIOSIS<sup>®</sup> Database and CINAHL<sup>®</sup> Database  
*Public Health Nutrition* participates in the following initiatives: HINARI by WHO and AGORA by FAO.

*Public Health Nutrition (PHN)* provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

## Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, not including the abstract, references, tables, figures and acknowledgements.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

**Submission:** PHN operates an online submission and reviewing system. All manuscripts should be submitted to <http://mc.manuscriptcentral.com/phnutr>. Please contact the Editorial Office on [phn.edoffice@cambridge.org](mailto:phn.edoffice@cambridge.org) regarding any other types of submission.

**Refereeing:** Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

**Copyright:** At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

**Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

## Disclosure of financial support and any competing interests.

The submission must include a statement within an Acknowledgements section reporting any competing interests (financial and non-financial), all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

## Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so. All submissions must include a statement that the research was conducted in accordance with guidelines laid down by the Declaration of Helsinki and approved by an ethics review committee.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

**Proofs:** Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

**Offprints:** The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

**Monitoring and surveillance**

- Trends in the national food supply of absorbable zinc in Ethiopia: 1990–2017  
*Samson Gebremedhin* 577
- Identifying implementation gaps and priorities for the Singapore government to improve food environment policies: perspectives from a local expert panel  
*Zoey Tay, Clare Whitton, Rob M van Dam, Kee Seng Chia, Boyd Swinburn, Stefanie Vandevijvere and Salome A Rebello* 585

**Assessment and methodology**

- Association between dietary intake and serum biomarkers of long-chain PUFA in Japanese preschool children  
*Emiko Ando, Naho Morisaki, Keiko Asakura, Kohei Ogawa, Satoshi Sasaki, Reiko Horikawa and Takeo Fujiwara* 593
- Estimating 24-h urinary sodium excretion from casual spot urine specimen among hypertensive patients in Northwest China: the Salt Substitute and Stroke Study  
*Yi Zhao, Wanlu Liu, Sha Liu, Xiaoxia Li, Ting Yin, Xiuying Liu, Faxuan Wang, Xiaoyu Chang, Tianjing Zhang, Maoyi Tian and Yuhong Zhang* 604

**Nutritional status and body composition**

- Cut-off points of anthropometric markers associated with hypertension and diabetes in Peru: Demographic and Health Survey 2018  
*Akram Hernández-Vásquez, Diego Azañedo, Rodrigo Vargas-Fernández, Juan Pablo Aparco, Raul Martín Chaparro and Marilina Santero* 611
- An observational study on Ca supplementation and dietary intake during pregnancy on low birth weight and small for gestational age  
*Wei Dai, Xiaohui Deng, Lanlan Li, Jie Qiu, Baohong Mao, Yawen Shao, Sijuan Xu, Tao Yang, Xiaochun He, Hongmei Cui, Xiaojuan Lin, Ling Lv, Zhongfeng Tang and Qing Liu* 622

**Nutrition communication**

- Analysis of health claims regarding creatine monohydrate present in commercial communications for a sample of European sports foods supplements  
*Lucía Molina Juan, Isabel Sospedra, Alejandro Perales, Cristina González-Díaz, Angel Gil-Izquierdo and José Miguel Martínez-Sanz* 632
- Are the recommendations of paediatricians about complementary feeding aligned with current guidelines in Uruguay?  
*Leticia Vidal, Isabel Bove, Gerónimo Brunet, Alejandra Girona, Florencia Alcaire, Lucía Antúnez and Gastón Ares* 641

**Behavioural nutrition**

- Assessment of an adolescent-girl-focused nutritional educational intervention within a girls' empowerment programme: a cluster randomised evaluation in Zambia  
*Paul C Hewett, Amanda L Willig, Jean Digitale, Erica Soler-Hampejsek, Jere R Behrman and Karen Austrian* 651
- Food purchasing behaviour of shoppers from different South African socio-economic communities: results from grocery receipts, intercept surveys and in-supermarkets audits  
*Feyisayo A Odunitan-Wayas, Kufre J Okop, Robert VH Dover, Olufunke A Alaba, Lisa K Micklefield, Thandi Puaane, Naomi S Levitt, Jane Battersby, Shelly T Meltzer and Estelle V Lambert* 665

**Nutritional epidemiology**

- Folate, alcohol, ADH1B and ALDH2 and colorectal cancer risk  
*Ju Eun Seol, Jeongseon Kim, Bong-Hwa Lee, Dae-Yong Hwang, Jinyoung Jeong, Hun-Jae Lee, Yoon-Ok Ahn, Jung Eun Lee and Dong-Hyun Kim* 677
- A new measure of health motivation influencing food choices and its association with food intakes and nutritional biomarkers in European adolescents  
*Thanise Sabrina Souza Santos, Cristina Julián, Silvana Ligia Vincenzi, Dalton Francisco de Andrade, Betzabeth Slater, Maria Alice Altenburg de Assis, Anthony Kafatos, Stefaan de Henaau, Frédéric Gottrand, Odysseas Androutsos, Mathilde Kersting, Michael Sjöström, Maria Forsner and Luis A Moreno on behalf of the HELENA Study Group* 685

**Economics and environment**

- Secondary school canteens in Australia: analysis of canteen menus from a repeated cross-sectional national survey  
*Ashleigh Haynes, Belinda Morley, Helen Dixon, Maree Scully, Alison McAleese, Claudia Gascoyne, Rachelle Busbridge, Mia Cigognini, Ilona Regev and Melanie Wakefield* 696
- Extent and nutritional quality of foods and beverages to which children are exposed in Colombian TV food advertising  
*Alcides Velasquez, Mercedes Mora-Plazas, Luis Fernando Gómez, Lindsey S Taillie and Francesca R Dillman Carpentier* 706

**Community nutrition**

- The relationship between adolescents' nutrition literacy and food habits, and affecting factors  
*Bennur Koca and Gulcihan Arkan* 717

Perceived neighbourhood food environment and overweight and obesity among Supplemental Nutrition Assistance Program-Education (SNAP-Ed) participants in the Midwest US  
*Bhagyashree Katare, Krystal Lynch and Dennis Savaiano* 729

**Interventions**

- Examining taste testing and point-of-purchase prompting as strategies to promote healthier food selection from food trucks  
*Jacob Bleasdale, Jessica S Kruger, April Gamp, Kelsey Kurtz and Stephanie Anzman-Frasca* 738
- Does labelling of healthy foods on menus using symbols promote better choices at the point-of-purchase?  
*Rajshri Roy and Deema Alassadi* 746

**Public policies**

- Have we compromised too much? A critical analysis of nutrition policy in Australia 2007–2018  
*Brandon I, Phillip Baker and Mark Lawrence* 755
- Arguments used by trade associations during the early development of a new front-of-pack nutrition labelling system in Brazil  
*Melissa Mialon, Neha Khandpur, Laís Amaral Mais and Ana Paula Bortoletto Martins* 766

**Corrigendum**

- Arguments used by trade associations during the early development of a new front-of-pack nutrition labelling system in Brazil – CORRIGENDUM  
*Melissa Mialon, Neha Khandpur, Laís Amaral Mais and Ana Paula Bortoletto Martins* 775
