

SLAVE POPULATIONS OF THE BRITISH CARIBBEAN, 1807-1834

B. W. Higman

Bancroft Award-winning historian B. W. Higman examines the complex relationships between physical and economic environments and the demography of slave populations.

Based on meticulous quantitative analysis of the slave registration returns for the period, *SLAVE POPULATIONS OF THE BRITISH CARIBBEAN* provides a fuller account of the material conditions of Caribbean slave life than has ever before been presented. The second part of the volume supplies an extended statistical supplement of previously unavailable data; this supplement will also stand alone as a sourcebook of fundamental importance to all future scholars of Caribbean and comparative slavery.

THE ARTHUR H. COLE GRANTS-IN-AID

For Research in Economic History

- are awarded each year to supplement other sources of research support;
- are biased in favor of young post-doctorates turning dissertations into publishable articles and monographs, but are open to all;
- are awarded by the six-member Committee on Research in Economic History on the basis of an application due on April 1 each year;
- are granted for research in any geographic region in the world and in any time period;
- are described in more detail in a prospectus sent out by the Secretary, Council on Research in Economic History, The Economic History Association, Box 3630, Wilmington, Delaware 19807.

Europe, America, and the Wider World
Essays on the Economic History of Western
Capitalism

Volume 1: Europe and the World Economy'
WILLIAM N. PARKER

This volume brings together a group of essays by a leading economic historian to offer a comprehensive view of post-Renaissance Europe as a developing capitalist economy. The author separates the development into three periods and processes—"Malthusian", "Smithian", and "Schumpeterian"—showing how each was governed by a characteristic dynamic that produced an increase in productivity and influenced the forms of industrial and economic life. He concludes by examining the breakup of the capitalist synthesis and speculating on its transmutation into other forms. Cloth about \$34.50 Paper about \$9.95

Winner of a John D. and Catherine T. MacArthur
Foundation Prize Fellow Award

CHARLES F. SABEL

"... an imaginative and suggestive look at contemporary Western European and U.S. industrialism..."—*The Nation* Cloth \$27.95 Paper \$9.95

Languages of Class
Studies in English Working Class History,
1832–1982
GARETH STEDMAN JONES

A collection of essays by one of Britain's foremost social historians. The volume brings together the author's most important recent work, addressing such central issues in English working class history as the nature of class consciousness and the interrelation of politics and class in English history.

Cloth \$39.50 Paper \$11.95

Agriculture in China's Modern Economic
Development
NICHOLAS R. LARDY

This book explores the relationship between the Chinese peasantry, who are the fundamental base of support for the revolutionary Chinese Communist Party, and the state-led economic system established by the Party after 1949. \$37.50

THE RECONSTRUCTION OF WESTERN EUROPE, 1945–1951

by **ALAN S. MILWARD**

A comprehensive study of the economic and political reconstruction of western Europe since 1945, by one of the foremost historians on the subject. Milward offers strikingly new interpretations within a truly major work of scholarship. \$38.50

THE ECONOMIC RISE OF THE HABSBURG EMPIRE, 1750–1914

by **DAVID F. GOOD**

Despite its importance, little is known about the economic history of the Habsburg Empire. In this stimulating survey of the late stages of its economic development, Good provides overwhelming evidence that the Empire's economy did not fail in its last one hundred years. \$33.50

JOHN LOCKE AND AGRARIAN CAPITALISM

by **NEAL WOOD**

In this challenging treatment, Wood takes issue with prevailing interpretations of Locke's political thought and seeks to remedy some of their deficiencies. "A work of major significance, not only for what it tells us about Locke, but for demonstrating that a historical approach can yield great riches." —Jonathan M. Wiener \$23.00
