

General Notes

UNIVERSITY OF PENNSYLVANIA MEDICAL CENTER

Functional Endoscopic Sinus Surgery

**Dissection Course
July 9 - 11, 1992**

The course will be a full 3-day laboratory course including:

- Formal lectures
- Informal discussion
- Video presentations
- Hands-on laboratory experience

**Fees: Lecture and laboratory series \$1450
Lecture and video only \$500 (Residents \$250)**

The University of Pennsylvania reserves the right to cancel this course.

Course Directors:

David W. Kennedy, M.D.

Donald C. Lanza, M.D.

Heinz Stammberger, M.D.

S. James Zinreich, M.D.

INSTITUTE OF LARYNGOLOGY AND OTOLOGY
UNIVERSITY COLLEGE AND MIDDLESEX SCHOOL OF MEDICINE
ROYAL NATIONAL THROAT, NOSE AND EAR HOSPITAL

MSc IN AUDIOLOGICAL MEDICINE

A one-year full-time taught course commencing on 28th September, 1992 for audiological physicians, otolaryngologists, community physicians, paediatricians and neurologists, leading to an MSc of the University of London.

The course will provide a comprehensive introduction to the scientific, technical and medical aspects of this specialty, and utilizes the facilities and clinical material available at the associated Royal National Throat, Nose and Ear Hospital.

Further details from:

The Course Secretary,
Institute of Laryngology and Otology,
330/332 Gray's Inn Road, London WC1X 8EE.
Tel: 071-837 8855 ext. 4214. Fax: 071-837 9279.

THE ENT SURGEON AND THE MOUTH

UNIVERSITY OF BIRMINGHAM
THE SCHOOL OF DENTISTRY
AND
UNIVERSITY DEPARTMENT OF OTOLARYNGOLOGY—DEPT OF SURGERY

11th, 12th & 13th June 1992

A three day Residential Course for Senior Trainees and Consultants in Otolaryngology. The course is designed to familiarise ENT Surgeons with the normal and diseased mouth and there is a hands-on component which will give course participants practical experience in techniques of tooth extraction, oral mucosal biopsy and radiological diagnosis.

Organization of the course is jointly between oral pathologists, oral and maxillofacial surgeons and ENT surgeons and they will all be specialists in the fields they teach.

Full residential arrangements: £350.00

Non residential: £250.00

Further details may be obtained from:

Mr D W Proops B.D.S., F.R.C.S.,
Consultant ENT Surgeon,
Department of Otolaryngology,
Queen Elizabeth Hospital,
Edgbaston,
Birmingham B15 2TH

COURSE ON VOICE REHABILITATION AFTER TOTAL LARYNGECTOMY

On May 22, 1991

DEPARTMENT OF ENT/HEAD AND NECK SURGERY OF THE NETHERLANDS CANCER INSTITUTE AND
THE ACADEMIC MEDICAL CENTER OF THE UNIVERSITY OF AMSTERDAM

Second International Teaching Course on Indwelling Voice Prostheses for Voice Rehabilitation after Total Laryngectomy.

This course will provide the participants with the theoretical and practical information pertinent to this subject. The course is meant for ENT Surgeons, ENT Residents and Speech Therapists dealing with laryngectomized patients.

Venue: The Netherlands Cancer Institute.

The official language is English.

Course directors: F. J. M. Hilgers, P. F. Schouwenburg, A. J. M. Balm, ENT/Head and Neck Surgeons.

International Faculty: E. D. Blom, Speech Pathologist and R. C. Hamaker, ENT/Head and Neck Surgeon, Indianapolis, USA and Mr A. Batch, Consultant ENT Surgeon, Birmingham, U.K.

Information: Mrs L. van Damme,
Secretary,
Department ENT/Head and Neck Surgery,
The Netherlands Cancer Institute,
Plesmanlaan 121,
1066CX Amsterdam.
Telephone +31-20-512 2550, fax +31-20-617 2625.

FOURTH COURSE ON
ENDOSCOPIC SURGERY OF
THE PARANASAL SINUSES

Universities of Brussels and Cologne

August 26th–29th, 1992

organized by Prof. P. Clement, Brussels,
Prof. E. Stennert and Prof. W. F. Thumfart, Cologne

International Faculty.* Course language English.

Course features intense cadaver dissections (every head high resolution CT-documented), didactic lectures, video tapes and live patient demonstrations. Emphasizes various endonasal sinus surgery techniques by the developers. Held 2 days each in the historique cities of Brussels and Cologne. Ladies programme available. Laboratory enrollment limited. Instruments and endoscopic video-sets provided.

Course fees

(lunches, welcome and farewell dinners included):

lectures, live demonstrations and laboratory	—US\$700,-
lectures and live demonstrations	—US\$500,-
Accompanying person	—US\$150,-

Instructions to Authors

Review Articles. Articles of this type, preferably not exceeding 3,000 words will be considered but the author(s) are expected to be a recognised authority on the topic and have carried out work of their own in the relevant field.

Historical Articles. Articles of this type are generally encouraged, but it is obvious that they have to provide some new information or interpretation, whether it be about a well-known person or for example an instrument associated with him, but those from within a Hospital's own department who have made a hitherto less well-known contribution would be welcome.

Letters to the Editor. This feature has been re-introduced to give those who wish to comment about a paper previously published within the Journal, an opportunity to express their views. Wherever possible, the original author is asked to add his further comment, thereby adding to the value of the contribution. Such letters should be sent as soon as possible after publication of each month's issue of the Journal in the hope of including them early thereafter.

'Mini-papers, such as those which appear in the British Medical Journal, Lancet, or New England Journal of Medicine, will not be acceptable except on the rare occasion that they bring information of immediate interest to the reader.

Pathology. Articles which are of pathological interest with particular emphasis on the way the diagnosis was achieved now appear on a monthly or bi-monthly basis. It is hoped that clinicians will involve their pathologists in these reports, and all illustrations must be of first-class quality. Where a department, particularly those overseas, may not have such specialized facilities, it may be possible, if a block or several unstained sections are provided for our Adviser to produce or supplement the illustration submitted. Only contributions of particular pathological interest will be accepted.

Radiology. Short reports on cases in which the radiology has been crucial in the making of the diagnosis or the management of a particular case now appear on a monthly or bi-monthly basis. This spot is to encourage clinicians and radiologists to produce material of particular interest in the specialty and to encourage co-operation in this field. Only presentations with first-class illustrations can be accepted and these must emphasise a problem of unusual clinical interest.

Short Communications. This feature will be used on an occasional basis. Examples of material suitable for inclusion under this title would be, for example: a piece of work which was of clinical interest but had failed to produce findings which were of statistical significance; where an investigative technique has been applied to an allied field, not warranting a further in-depth description of its earlier application and methodology.

'**Silence in Court**'. Articles on medicolegal topics are welcome but a preliminary letter written beforehand is requested to ensure that the contribution would be appropriate.

Check List for Authors/Secretaries

1. Title page—Titles should be short with names of the authors, higher degrees only and the city/country. Details of the departments in which the authors work should be put lower down.
An address for correspondence should be supplied together with the author who should receive this; this will ultimately appear beneath the list of references. If the paper was presented at a meeting, the details of this must be given and will be inserted at the bottom of the first page of the printed script.
2. Abstract—No paper will be accepted without this and it adds considerably to the Editor's time to have to write and request this if the paper is accepted.
3. Key Words—only those appearing as Medical Subject Headings (MeSH) in the supplement to the Index Medicus may be used; where appropriate word(s) are not listed those dictated by common sense/usage should be supplied.
4. To follow the instructions to Authors with the way in which the paper is set out. It is preferred that each section should start on a fresh page with double spacing and wide margins.
5. References must be in the Harvard system; to submit a paper using the Vancouver system is automatically to have it returned or rejected.
6. Two sets of illustrations must be included, one of half-plate size and the other with the width of 80 mm. Illustrations must be clearly labelled with the author's name on the reverse side and where appropriate with an arrow to give orientation.
7. Authors to check manuscript and references to see that these match up particularly for dates and spelling.
8. Title of Journals must be given in full with the date, volume number and first and last pages.
9. Consent to be obtained from a patient if a photograph of their face is to be reproduced.
10. If the author to whom correspondence is to be directed changes his address, he should let the Editorial Office know as soon as possible.
11. Page proofs will normally be sent out one month in advance and must be returned as soon as possible.
12. Authors should provide a Facsimile number (FAX) whenever possible to speed communication. The FAX number of the Editorial office is 071-224 1645.
13. Manuscripts with tables only may be transmitted by FAX; those with graphic or visual illustrations, e.g. graphs, X-rays, pathology, electrical records (ENG, BSER etc) must continue to be sent by post as the quality of reproduction does not give sufficient accuracy of detail.
