# WEED SCIENCE

*Published six times a year by the Weed Science Society of America*

William K. Vencill, *Editor*

The Weed Science Society of America publishes original research and scholarship in the form of peer-reviewed articles in three international journals. *Weed Science* is focused on understanding “why” phenomena occur in agricultural crops. As such, it focuses on fundamental research directly related to all aspects of weed science in agricultural systems. *Weed Technology* focuses on understanding “how” weeds are managed. As such, it is focused on more applied aspects concerning the management of weeds in agricultural systems. *Invasive Plant Science and Management* is a broad-based journal that focuses not only on fundamental and applied research on invasive plant biology, ecology, management, and restoration of invaded non-crop areas, but also on the many other aspects relevant to invasive species, including educational activities, policy issues, and case study reports. Topics for *Weed Science* include the biology and ecology of weeds in agricultural, forestry, aquatic, turf, recreational, rights-of-ways, and other settings; genetics of weeds and herbicide resistance; chemistry, biochemistry, physiology and molecular action of herbicides and plant growth regulators used to manage undesirable vegetation, and herbicide resistance; ecology of cropping and non-cropping systems as it relates to weed management; biological and ecological aspects of weed control tools including biological agents, herbicide resistant crops, etc.; effects of weed management on soil, air, and water. Symposia papers and reviews are accepted. Consult the editor for additional information.

## Associate Editors (Assignment Year)

**Muthukumar V Bagavathiannan**, Texas A&M, College Station, TX 77843 (2015)

**Ian Burke**, Washington State University, Pullman, WA 99164 (2019)

**Carlene Chase**, Horticultural Sciences Department, University of Florida, Gainesville, FL 32611 (2016)

**Bhagirath Singh Chauhan**, Queensland Alliance for Agriculture and Food Innovation (QAAFI), The University of Queensland, Queensland, Australia (2014)

**Sharon Clay**, South Dakota State University Plant Science Department, Brookings, SD 57007 (2002)

**Franck E. Dayan**, USDA-ARS-NPURL, National Center for Natural Products Research, University, MS 38677 (2003)

**Timothy Grey**, Department of Crop and Soil Science, University of Georgia, Tifton, GA 31793 (2009)

**Erin Haramoto**, University of Kentucky, Lexington, KY 40506 (2020)

**Marie Jasieniuk**, Department of Plant Sciences, University of California, Davis, CA 95616 (2016)

**Prashant Jha**, Iowa State University, Ames, IA 50011 (2017)

**Mithila Jugulam**, Kansas State University, Manhattan, KS 66506 (2019)

**Vipan Kumar**, Kansas State University, Hays, KS 67601 (2020)

**Ramon Leon**, Department of Crop and Soil Sciences, North Carolina State University, Raleigh, NC 27695 (2016)

**Sara Martin**, Ag Canada, Ottawa, Canada (2018)

**Vijay Nandula**, Mississippi State University, Delta Research & Extension Center, Stoneville, MS 38776 (2008)

**Chris Preston**, Australian Weed Management, University of Adelaide, PMB1, Glen Osmond, SA 5064, Australia (2003)

**Dean Riechers**, Department of Crop Sciences, University of Illinois, Urbana, IL 61801 (2011)

**Hilary Sandler**, University of Massachusetts–Amherst Cranberry Station, East Wareham, MA 02538 (2008)

**Debalin Sarangi**, University of Wyoming, Powell, WY 82435 (2020)

**Steven Seefeldt**, USDA-ARS, University of Alaska, Fairbanks, AK 99775 (2011)

**Patrick J. Tranel**, Department of Crop Sciences, University of Illinois, 360 ERML, Urbana, IL 61801 (2002)

**Te-Ming Paul Tseng**, Mississippi State University, Mississippi State, MS 39762 (2019)

**Martin M. Williams II**, USDA-ARS Global Change and Photosynthesis Research, Urbana, IL 61801 (2008)

**Chenxi Wu**, Crop Science Division, Plant Biotechnology – Research & Development, Bayer U.S., Chesterfield, MO 63017 (2019)

Tracy Candelaria, *Managing Editor*

## Officers of the Weed Science Society of America

<http://wssa.net/society/bod/>

*Weed Science* (ISSN 0043-1745) is an official publication of the Weed Science Society of America, 12011 Tejon Street, Suite 700, Westminster, CO 80234 (720-977-7940). It contains refereed papers describing the results of research that elucidates the nature of phenomena relating to all aspects of weeds and their control. It is published bimonthly, one volume per year, six issues per year beginning in January.

Membership includes online access to *Weed Science*, *Weed Technology*, *Invasive Plant Science and Management*, and the online *WSSA Newsletter*. Dues should be sent to WSSA, 12011 Tejon Street, Suite 700, Westminster, CO 80234 no later than December 1 of each year. Membership in the society is on a calendar-year basis only.

New subscriptions and renewals begin with the first issue of the current volume. Please visit the *Weed Science* subscription page at <https://www.cambridge.org/core/journals/weed-science/subscribe>; Email: [subscriptions\\_newyork@cambridge.org](mailto:subscriptions_newyork@cambridge.org) in USA, [journals@cambridge.org](mailto:journals@cambridge.org) outside USA.

*Weed Science* publishes six times a year in January, March, May, July, September, and November. Annual institutional electronic subscription rates: US \$430.00; UK £299.00.

Please use Editorial Manager to access manuscript submissions (<http://www.editorialmanager.com/ws>). Authors are asked to pay \$65 per page as a portion of the cost of publication, plus an additional processing charge of \$55 per manuscript if none of the authors are WSSA members. The Editor can make exceptions in advance when justified.

The Weed Science Society of America fully subscribes to the belief that progress in science depends upon the sharing of ideas, information, and materials among qualified investigators. Authors of papers published in *Weed Science* are therefore encouraged, whenever practicable and when state and federal laws permit, to share genotypically unique, propagative materials they might possess with other workers in the area who request such materials for the purpose of scientific research.

Journal of the Weed Science Society of America

Volume 68 Number 2 March 2020

## RESEARCH ARTICLES

- Differences in efficacy, resistance mechanism and target protein interaction between two PPO inhibitors in Palmer amaranth (*Amaranthus palmeri*). *Chenxi Wu, Michael-Rock Goldsmith, John Pawlak, Paul Feng, Stacie Smith, Santiago Navarro and Alejandro Perez-Jones* ..... 105
- Cross-resistance to acetyl-CoA carboxylase-inhibiting herbicides conferred by a target-site mutation in perennial ryegrass (*Lolium perenne*) from Argentina. *Marcos Yannicari and Ramón Gigón* ..... 116
- Race structure of cowpea witchweed (*Striga gesnerioides*) in West Africa and its implications for *Striga* resistance breeding of cowpea. *Erik W. Ohlson and Michael P. Timko* ..... 125
- A new race of sunflower broomrape (*Orobanche cumana*) with a wider host range due to changes in seed response to strigolactones. *Evgenia Dor, Dina Plakhine, Daniel M. Joel, Hailey Larose, James H. Westwood, Evgeny Smirnov, Hammam Ziadna and Joseph Hershenhorn* ..... 134
- Germination biology of dimorphic seeds of the annual halophyte common seepweed (*Suaeda glauca*). *Hongfei Wang, Lin Kong, Rui Gao, Buhailiqiemu Abudureheman, Xinyang Li and Qiuli Li* ..... 143
- Seed production and retention at maturity of blackgrass (*Alopecurus myosuroides*) and silky windgrass (*Apera spica-venti*) at wheat harvest. *Zahra Bitarafan and Christian Andreasen* ..... 151
- Germinability and seed biochemical properties of susceptible and non-target site herbicideresistant blackgrass (*Alopecurus myosuroides*) subpopulations exposed to abiotic stresses. *Zahra Ghazali, Eshagh Keshtkar, Majid AghaAlikhani and Per Kudsk* ..... 157
- Rapid endosperm development promotes early maturity in weedy rice (*Oryza sativa* f. *spontanea*). *Can Zhao, Wenrong Xu, Lingchao Meng, Sheng Qiang, Weimin Dai, Zheng Zhang and Xiaoling Song*.... 168
- Modeling the sustainability and economics of stacked herbicide-tolerant traits and early weed management strategy for waterhemp (*Amaranthus tuberculatus*) control. *Chun Liu, Paul Neve, Les Glasgow, R. Joseph Wuerffel, Micheal D. K. Owen and Shiv S. Kaundun*..... 179
- Are cover crop mixtures better at suppressing weeds than cover crop monocultures?. *Richard G. Smith, Nicholas D. Warren and Stéphane Cordeau* ..... 186

## ERRATUM

- Modeling the sustainability and economics of stacked herbicide-tolerant traits and early weed management strategy for waterhemp (*Amaranthus tuberculatus*) control – ERRATUM. *Chun Liu, Paul Neve, Les Glasgow, R. Joseph Wuerffel, Micheal D. K. Owen and Shiv S. Kaundun* ..... 195
