

# CLAY MINERALS BULLETIN

Vol. 1 No. 6

NOVEMBER, 1951

*Issued by the Clay Minerals Group  
of the Mineralogical Society*

## CONTENTS

*Page*

165. Editorial.
166. T. W. PARKER, I. H. WARREN and A. J. MORCOM. Estimation of montmorillonite in china clay.
169. H. VAN OLPHEN. A tentative method for the determination of the base exchange capacity of small samples of clay minerals.
171. G. F. WALKER and A. A. MILNE. Undimensional fourier synthesis of vermiculite.
174. R. F. YOUELL. Transformation between micas, montmorillonites and chlorites—a survey.
177. M. B. MCÉWEN. The gelation of montmorillonite.
178. DUNCAN MCCONNELL. The crystal chemistry of montmorillonite—I.
179. DUNCAN MCCONNELL. The crystal chemistry of montmorillonite—II. Calculation of the structural formula.
189. Bulletin of the French Clay Group.
194. The nomenclature of clay minerals.
196. Proceedings of the Clay Minerals Group.
