CONTENTS

PAGE

Afriat, S. N. Analytic functions of finite dimensional linear transformations . . . 51

Bassali, W. A. Bending of a thin circular plate under hydrostatic pressure over a concentric ellipse 110

Bassali, W. A. The analysis of singularly loaded and rigidly clamped thin elastic slabs with curvilinear boundaries. I. 121

Bassali, W. A. and **Nassif, M.** A thin circular plate normally and uniformly loaded over a concentric elliptic patch 101

Bastin, E. W. and **Kilmister, C. W.** The concept of order. IV. Quantum mechanics . 66

Baumslag, Gilbert. Wreath products and p-groups 224

Beardwood, Jillian, Halton, J. H. and **Hammersley, J. M.** The shortest path through many points 299

Birch, B. J. On $3N$ points in a plane 289

Birch, B. J. Note on a problem of Erdős. (*Research note*) 370

Borwein, D. On methods of summability based on integral functions 23

Burgess, D. C. J. Generalized intervals in partially ordered groups 165

Cassels, J. W. S. Note on quadratic forms over the rational field. (*Research note*) . 267

Collins, W. D. Note on the electrified spherical cap. (*Research note*) 377

Flett, T. M. Some theorems on fractional integrals 31

Friedlander, F. G. Sound pulses in a conducting medium 341

Ganea, Tudor and **Hilton, Peter, J.** On the decomposition of spaces in Cartesian products and unions 248

Halton, J. H. (Joint author). The shortest path through many points 299

Hammersley, J. M. (Joint author). The shortest path through many points . . 299

Hayman, W. K. On the coefficients of univalent functions. (*Research note*) . . 373

Hilton, P. J. (Joint author). On the decomposition of spaces in Cartesian products and unions 248

Hilton, P. J. and **Ledermann, W.** Homology and ringoids. II 149

Howell, K. M. (Joint author). New (Regge) symmetry relations for the Wigner $6j$-symbol 338

Jack, Henry and **Macbeath, A. M.** The volume of a certain set of matrices . . . 213

Jahn, H. A. and **Howell, K. M.** New (Regge) symmetry relations for the Wigner $6j$-symbol 338

James, I. M. On Lie groups and their homotopy groups 244

James, I. M. Some embeddings of projective spaces 294

Kelly, G. M. Single-space axioms for homology theory 10

Kiefer, J. A functional equation technique for obtaining Wiener process probabilities associated with theorems of Kolmogorov–Smirnov type 328

Kilmister, C. W. (Joint Author). The concept of order. IV. Quantum mechanics . . 66

Kilmister, C. W. (Joint Author). A new expression for Einstein's law of gravitation. (*Research note*) 139

Krishna Iyer, P. V. and **Shakuntala, N. S.** Cumulants of some distributions arising from a two-state Markoff chain. (*Research note*) 273

Learner, A. Hilbert's function in a semi-lattice 239

Ledermann, W. (Joint author). Homology and ringoids. II 149

https://doi.org/10.1017/S0305004100034046 Published online by Cambridge University Press

PAGE

Longuet-Higgins, M. S. The distribution of the sizes of images reflected in a random surface 91

Ludford, G. S. S. On initial conditions in hydromagnetics. (*Research note*) . . . 141

McAndrew, M. H. Note on a problem of Erdős. (*Research note*) 210

Macbeath, A. M. (Joint author). The volume of a certain set of matrices . . . 213

Marder, L. Two bodies at rest in general relativity 82

Nash-Williams, C. St J. A. Random walk and electric currents in networks . . 181

Nash-Williams, C. St J. A. Abelian groups, graphs, and generalized knights . . 232

Nassif, M. (Joint author). A thin circular plate normally and uniformly loaded over a concentric elliptic patch 101

Newman, D. J. and **Kilmister, C. W.** A new expression for Einstein's law of gravitation. (*Research note*) 139

Northcott, D. G. Dilatation properties of regular local rings 1

Northcott, D. G. A generalization of a theorem on the content of polynomials . . 282

Papert, S. Which distributive lattices are lattices of closed sets? 172

Penrose, R. The apparent shape of a relativistically moving sphere. (*Research note*) . 137

Petersen, G. M. Summability and bounded sequences 257

Power, E. A. and **Shail, R.** The interaction of light with neutral systems . . . 87

Rao, V. V. L. N. Some self-reciprocal functions and kernels 62

Rose, Alan. A note on the representation of general recursive functions and the μ quantifier. 145

Ruben, H. A theorem on the cumulative product of independent random variables . 333

Sack, R. A. Equivalence of two absorption problems with Markovian transitions and continuous or discrete time parameters 177

Shail, R. (Joint author). The interaction of light with neutral systems . . . 87

Shakuntala, N. S. (Joint author). Cumulants of some distributions arising from a two-state Markoff chain. (*Research note*) 273

Shukla, H. S. A note on the sums of certain bilateral hypergeometric series . . 262

Smithies, F. Extensions of ideals in associative algebras 277

Stephenson, G. Generally covariant non-linear Lagrangians. (*Research note*) . . 375

Watson, G. L. Cubic forms representing arithmetic progressions. (*Research note*) . 270

Watson, G. L. The inhomogeneous minimum of an indefinite quadratic form. (*Research note*). 368

Williams, W. E. Diffraction by an imperfectly conducting right-angled wedge . . 195

Proceedings 380

Statements of Accounts 384

The following papers have been accepted for publication and will appear shortly:

Mackie, A. G. and Weir, D. G. The propagation of shock waves of constant strength.

Hilton, P. J. and Ledermann, W. Homology and ringoids. III.

Ridley, E. Cicely. Self-consistent fields without exchange for Pr^{3+} and Tm^{3+}.

Jaeger, J. C. Diffusion in branching regions.

Tweedie, M. C. K. Generalizations of Wald's fundamental identity of sequential analysis to Markov chains.

Longuet-Higgins, M. S. The focusing of radiation by a random surface when the source is at a finite distance.

Harris, T. E. A lower bound for the critical probability in a certain percolation process.

Bassili, W. A. and Gorgui, M. A. Flexural problems of circular ring plates and sectorial plates. I.

CONTENTS OF BIOLOGICAL REVIEWS

Vol. 34, No. 4. November 1959

David D. Davies. Organic acid metabolism in plants.

Ann Bishop. Drug resistance in protozoa.

F. A. L. Clowes. Apical meristems of roots.
