*Andante*  
TRAVELS

## **Archaeology: Theories, Methods and Practice**

*Fourth Edition*

**Colin Renfrew and Paul Bahn**

*'The most complete, wide-ranging and usable archaeology textbook in the world'*

Nicholas Saunders, *The Times Higher Education Supplement*

The most thorough and lucid overview available of what archaeologists do and how they do it, *Archaeology* has been entirely revised and updated in the light of new views, discoveries and data. Developments in the technology and scope of archaeology are reflected in an increased emphasis on aspects ranging from GIS and Internet information to gender archaeology and the latest thinking on post-processualism and cognitive archaeology. Crisp prose, lively illustrations and photographs, and special boxed inserts make this text indispensable to all students of archaeology.

With over 600 illustrations 22.9 x 18.7cm 656pp ISBN 0 500 284415 **£24.95** pb

## **Panorama of the Classical World**

**Nigel Spivey and Michael Squire**

Fresh, all-encompassing and authoritative, this is a vividly modern examination of the ideas and values that lay beneath the worlds of Classical antiquity: ideas of gender, erotica, war and pacificism, imperialism and dissent, politics, cultural identity and economy. Every aspect of the story is given a striking visual context in nearly 600 illustrations that go far beyond the familiar masterpieces, and range widely through time, genres and geographical areas. The book as a whole brings Greeks, Romans and Etruscans to vivid life for the general reader, and will significantly expand the knowledge of the professional scholar.

590 illustrations, 400 in colour 368pp 28.0 x 21.9cm ISBN 0500 511853 **£29.95** hb

## **The Olmecs**

*America's First Civilization*

**Richard A. Diehl**

*'The first truly complete and authoritative account of this 3,000-year-old culture'*

Michael D. Coe

*The Olmecs* presents the first modern overview of information gleaned from recent archaeological field projects and studies of Olmec art. In addition to detailed considerations of Olmec life, culture and art, it examines the Olmec presence in the surrounding areas of Mexico and central Mexico and their role in the formation of pre-Columbian Mesoamerican culture. This profusely illustrated and engagingly written survey, new in the renowned *Ancient Peoples and Places* series, is set to become the standard work on a hitherto enigmatic culture.

152 illustrations, 20 in colour 24.1 x 15.8cm 208pp ISBN 0 500 021198 **£27.50** hb
