

THE JOURNAL OF ANIMAL ECOLOGY

Edited for the British Ecological Society

By CHARLES ELTON & A. D. MIDDLETON

(University Museum, Oxford.)

A NEW JOURNAL which is intended to act as the organ of research on Animal Ecology in the British Isles. This journal will publish primarily papers dealing exclusively with animals (such as population and migration studies and allied problems), and with methods of ecological research having reference primarily to animals. Two numbers will be published each year. The first number is now ready. Subscription for members of the British Ecological Society is 25/- per annum, and for non-members of the society, or libraries and institutions, 30/- per annum. The price of single parts will be 22/6 net.

A Text-Book of Agricultural Entomology

By KENNETH M. SMITH, D.Sc.

WITH A FRONTISPIECE AND 79 TEXT-FIGURES. DEMY 8VO. 12s. 6d. NET

The need for an up-to-date text-book on this subject has long been felt, for the few modern books dealing with insect pests of farm crops in Great Britain are elementary in character. This book is designed for the use of the agriculturist as well as of the agricultural entomologist.
