

CLAY MINERALS

VOLUME 21, NUMBER 5, DECEMBER 1986

CONTENTS

H. VALI and H. M. KÖSTER. Expanding behaviour, structural disorder, regular and random irregular interstratification of 2:1 layer-silicates studied by high-resolution images of transmission electron microscopy	827
A. DECARREAU and D. BONNIN. Synthesis and crystallogenesi s at low temperature of Fe(III)-smectites by evolution of coprecipitated gels: experiments in partially reducing conditions	861
M. A. WILSON, S. A. MCCARTHY and P. M. FREDERICKS. Structure of poorly-ordered aluminosilicates	879
P. CHASSIN, C. JOUANY and H. QUIQUAMPOIX. Measurement of the surface free energy of calcium-montmorillonite	899
D. C. KAMINENI, K. V. TICKNOR and T. T. VANDERGRAAF. Occurrence, composition and radionuclide sorption characteristics of illite from a fractured granite pluton, Southeastern Manitoba, Canada	909
S. YARIV. Infrared evidence for the occurrence of SiO groups with double-bond character in antigorite, sepiolite and palygorskite	925
C. K. WHITTLE. Comparison of sedimentary chlorite compositions by X-ray diffraction and analytical TEM	937
E. PATERSON, J. L. BUNCH and D. R. CLARK. Cation exchange in synthetic manganates: I. Alkylammonium exchange in a synthetic phylломanganate	949
E. PATERSON, D. R. CLARK, J. D. RUSSELL and R. SWAFFIELD. Cation exchange in synthetic manganates: II. The structure of an alkylammonium-saturated phylломanganate	957
Notes	
F. BERGAYA, J. P. STROIAZZO, N. TRAUTH et H. VAN DAMME. Characterisation de la fraction fine de trois argiles de gisements exploites comme substance utile en France, Tunisie et Arabie	965
R. T. TETTENHORST and C. E. CORBATO. Properties of a sized and ground kaolinite	971
Book Review	977
