OBSERVATIONS ON THE STRUCTURE OF THE
SHIPWORMS, *NAUSITORA HEDLEYI*, *TEREDO FURCIFERA*
AND *TEREDORA PRINCESAE* (BIVALVIA: TEREDINIDAE)

BY

M. SARASWATHY and N. BALAKRISHNAN NAIR

PUBLISHED BY THE ROYAL SOCIETY OF EDINBURGH
22 GEORGE STREET, EDINBURGH, 2 Price: £1.50 \$5.25

1971

CONTENTS

NUMBER	PAGE
*I. Further Observations on the Scottish Carboniferous Eurypterids. By CHARLES D. WATERSTON, Department of Geology, Royal Scottish Museum, Edinburgh. (With Three Plates, One Text-figure and One Table)	1
*II. On the Heteromyarian Condition in the Bivalvia with Special Reference to <i>Dreissena polymorpha</i> and Certain Mytilacea. By C. M. YONGE and J. I. CAMPBELL, Department of Zoology, University of Glasgow. (With Seventeen Text-figures)	21
III. Some Specimens of <i>Cladoxylon</i> from the Calciferous Sandstone Series of Berwickshire. By ALBERT G. LONG, Hancock Museum, Newcastle upon Tyne. (With Two Plates and Six Text-figures)	45
*IV. <i>Cyrtoctenus</i> gen. nov., A Large Late Palaeozoic Arthropod with Pectinate Appendages. By LEIF STØRMER, University of Oslo and CHARLES D. WATERSTON, Royal Scottish Museum, Edinburgh. (With Six Plates and Fourteen Text-figures)	63
V. The Petrology of Byne Hill, Ayrshire. By T. W. BLOXAM, Department of Geology, University College, Swansea. <i>Communicated by</i> Professor B. C. KING. (With One Plate, Four Text-figures and Two Tables)	105
*VI. Features of Placoderm Diversification and the Evolution of the Arthrodire Feeding Mechanism. By ROGER S. MILES, Department of Geology, Royal Scottish Museum, Edinburgh. <i>Communicated by</i> Dr C. D. WATERSTON. (With Fourteen Text-figures)	123
VII. <i>Eurystoma trigona</i> sp. nov., A Pteridosperm Ovule Borne on a Frond of <i>Alcicornopteris</i> Kidston. By ALBERT G. LONG, Hancock Museum, Newcastle upon Tyne. (With Four Plates and Three Text-figures)	171
*VIII. On the Schizochroal Eyes of Three Species of <i>Reedops</i> (Trilobita: Phacopidae) from the Lower Devonian of Bohemia. By EUAN N. K. CLARKSON, Grant Institute of Geology, University of Edinburgh. <i>Communicated by</i> Professor G. Y. CRAIG. (With Three Plates and Six Text-figures)	183

NUMBER	PAGE
*IX. The Postcranial Skeleton of <i>Eusthenopteron foordi</i> Whiteaves. By S. MAHALA ANDREWS, Royal Scottish Museum, Edinburgh and T. STANLEY WESTOLL, Department of Geology, University of Newcastle upon Tyne. (With Five Plates and Thirty-two Text-figures)	207
X. On Two New Gorilla Foetuses. By W. C. O. HILL, Yerkes Regional Primate Research Center, Emory University, Atlanta, Georgia and W. B. SPATZ, Max-Planck Institut für Hirnforschung, Neuroanatomische Abteilung, Frankfurt-a-Main. (With Four Plates, Eleven Text-figures and Six Tables)	331
XI. The Evolution of the Scottish Caledonides in Relation to their Isotopic Age Pattern. By J. F. DEWEY, Department of Geology, University of Cambridge and R. J. PANKHURST, Department of Geology and Mineralogy, University of Oxford. <i>Communicated by Professor F. H. STEWART, F.R.S.</i> (With Ten Text-figures)	361
*XII. The Postcranial Skeleton of Rhipidistian Fishes Excluding <i>Eusthenopteron</i> . By S. MAHALA ANDREWS, Royal Scottish Museum, Edinburgh and T. STANLEY WESTOLL, Department of Geology, University of Newcastle upon Tyne. (With Fifteen Plates and Twenty-three Text-figures)	391
XIII. A New Interpretation of <i>Lepidodendron calamopsoides</i> Long and <i>Oxroadia gracilis</i> Alvin. By ALBERT G. LONG, Hancock Museum, Newcastle upon Tyne. (With Two Plates and Five Text-figures)	491
XIV. Observations on the Structure of the Shipworms, <i>Nausitora hedleyi</i> , <i>Teredo furcifera</i> and <i>Teredora princesae</i> (<i>Bivalvia: Teredinidae</i>). By M. SARASWATHY, National Institute of Oceanography, Cochin, India and N. BALAKRISHNAN NAIR, Marine Biological Laboratory, Trivandrum, India. <i>Communicated by Sir MAURICE YONGE, C.B.E., F.R.S.</i> (With Sixty-nine Text-figures and Three Tables)	507

* The cordial thanks of the Society are due to the Carnegie Trust for the Universities of Scotland for grants towards the cost of the illustrations and tables in these papers.
