

Articles for publication in the JOURNAL should be sent to *Carl G. Jockusch, Department of Mathematics, University of Illinois, Urbana, Illinois 61801* or to *Burton S. Dreben, Department of Philosophy, Emerson Hall, Harvard University, Cambridge, Massachusetts 02138* or to *Anil Nerode, Department of Mathematics, Cornell University, Ithaca, N.Y. 14850* or to *C. E. M. Yates, Department of Mathematics, University of Manchester, Manchester, England* or to *Dagfinn Føllesdal, Department of Philosophy, University of Oslo, Blindern, Oslo 3, Norway*.

Authors and publishers are requested to send copies of books for review to *Alonzo Church, The Journal of Symbolic Logic, U.C.L.A., Los Angeles, California 90024*.

Notices and announcements for publication in the JOURNAL should be sent to the Secretary of the Association, *Charles D. Parsons, Department of Philosophy, Columbia University, New York, N.Y. 10027*.

All manuscripts for publication should be typewritten with wide margin and wide spacing between the lines, and the author should keep a complete copy; footnotes should be numbered consecutively and should also be typed with wide margin and wide spacing (preferably on a separate sheet). If an article is of more than thirty-two (printed) pages in length, the editors reserve the right to divide it between two or more, not necessarily consecutive, numbers. Authors receive fifty reprints of each article, with covers, and additional reprints may be purchased if desired.

The Association assesses page charges at the rate of \$30.00 per page for all papers (excluding reviews) that appear in the JOURNAL. All bills for page charges will be submitted to the author's host institution or employing company, if any. Authors are not liable for the payment of page charges, nor for their acceptance and payment by employing organizations.

Attention is called to the fact that the JOURNAL invites submission of (1) original technical papers in the field of symbolic logic, (2) expository papers in this field, (3) philosophical papers which bear upon this field or make use of its methods, and (4) studies in the history of logic in which modern technical developments are taken into account.

## TABLE OF CONTENTS

Relative consistency of an extension of Ackermann's set theory. By JOHN LAKE . . . . .	465
The inconsistency of $\mathcal{F}_{21}^*$ . By M. W. BUNDER . . . . .	467
Effective coloration. By DWIGHT R. BEAN . . . . .	469
Adding a closed unbounded set. By J. E. BAUMGARTNER, L. A. HARRINGTON and E. M. KLEINBERG . . . . .	481
$\alpha$ -decompositions of $\alpha$ -spaces. By NORTHRUP FOWLER III . . . . .	483
Order types of ordinals in models of set theory. By JOHN E. HUTCHINSON . . . . .	489
Gödel's second incompleteness theorem for $Q$ . By A. BEZBORUAH and J. C. SHEPHERDSON . . . . .	503
The infinite injury priority method. By ROBERT I. SOARE . . . . .	513
An introduction to recursively saturated and resplendent models. By JON BARWISE and JOHN SCHLIPF . . . . .	531
Model theoretic algebra. By G. L. CHERLIN . . . . .	537
Reviews . . . . .	546
Meeting of the Association for Symbolic Logic, Chicago 1975. By JOHN BALDWIN, D. A. MARTIN, ROBERT I. SOARE and W. W. TAIT . . . . .	551
Abstracts of papers . . . . .	551
