- 5 Contributors may use *either* British or American conventions for spelling and punctuation, but should ensure that conventions are used consistently throughout the paper.
- 6 Arabic script should be used only when essential. In general Arabic should be transliterated using the following system:

ء	'	ج	ġ	ر	r	ض	ḍ	ف	f	ن	n
ب	b	ح	ḥ	ز	z	ط	ṭ	ق	q	ه	h
ت	t	خ	ḫ	س	s	ظ	ẓ	ك	k	ا	ā

However, when a submission has been accepted for publication, authors are responsible for providing camera-ready versions. Figures (which may include photographs) and tables should each be numbered consecutively in arabic numerals. A separate, double-spaced list of figure captions should be provided.
- 8 Contributors should keep one copy of the typescript for correcting proofs. First proofs may be read by contributors provided that they can give the editors an address through which they can be reached without delay and can guarantee to return the corrected proofs to the designated editor, by airmail where necessary, within three days of receiving them. Corrections should normally be restricted to printer's errors.
- 9 Contributors of articles published in the journal assign copyright to Cambridge University Press (with certain rights reserved) and you will receive a copyright assignment form for signature on acceptance of your paper.
