International Journal of Technology Assessment in Health Care

Official Journal of Health Technology Assessment International

Editor-in-Chief

Wendy Babidge, BApp Sci (Hons), Ph.D., Grad Dip Bus, GAICD

Director of Research, Audit and Academic Surgery Division, Royal Australasian College of Surgeons

Adjunct Associate Professor, University of Adelaide

199 Ward St, North Adelaide South Australia 5006, Australia

Email: wendy.babidge@adam.com.au

Aims and Scope: The *International Journal of Technology Assessment in Health Care* has as its specific scope of interest the generation, evaluation, diffusion, and use of health care technology. It addresses the diverse audience of health care providers within medicine, public health, nursing, and the allied health professions; decision makers in government, industry, and health care organizations; and the scholarly disciplines such as ethics, economics, law, history, sociology, psychology, and engineering. The journal aims to fill the needs of those interested in the complexities of interaction between people and technology; technology as a force in social and organizational change; and technology as it is created, produced, applied, and paid for. It examines descriptively and analytically the effects of technology as perceived from the vantage point of different academic disciplines and policy-making organizations and examines methods necessary to conduct studies and evaluations of technology.

The focus of the journal is the international health care community. The experience of different countries in their encounter with health care technology, viewed comparatively, is invaluable to understanding its effects. Further, it is important to establish ties with the scholars, governments, and private institutions concerned with health care technology so that the experiences and learning of the international community in its parts can benefit the whole. The use of technology in health care has created some of the major dilemmas in society today. The journal serves as a forum for the wide range of professionals interested in the assessment of medical technology, its consequences for patients, and its impact on society.

Publishing, Advertising, and Subscription Offices: Cambridge University Press, One Liberty Plaza, Floor 20, New York, NY 10006, U.S.A. (for U.S.A., Canada, and Mexico); or Cambridge University Press, Journals Fulfillment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK (for U.K. and elsewhere).

2018 Subscription Information: *International Journal of Technology Assessment in Health Care* (ISSN 0266-4623) is

published bimonthly in February, April, June, August, October, and December by Cambridge University Press, One Liberty Plaza, Floor 20, New York, NY 10006; Cambridge University Press, Journals Fulfillment Department, UPH, Shaftesbury Road, Cambridge CB2 8BS, UK. Annual institutional subscription rates for Volume 34 (2018): Institutions online only US \$593.00, and online only UK and elsewhere £341.00. Individuals online only US \$343.00, and online only UK and elsewhere £193.00. Single part: US \$114.00 in the U.S.A., Canada and Mexico; UK £65.00 and elsewhere. Online only for all institutions. Print editions ceased in 2014. Back volume prices are available upon request. *International Journal of Technology Assessment in Health Care* and other Cambridge journals can be found at <http://journals.cambridge.org>

Founding Editors: Egon Jonsson and Stanley J. Reiser

CONTENTS

Perspective

- 131** Perspective: Some conclusions from my life in health technology assessment
H. David Banta

Method

- 134** Successful implementation of Lean as a managerial principle in health care: A conceptual analysis from systematic literature review
Riikka Maijala, Sini Eloranta, Tero Reunanen and Tuija S. Ikonen

Assessments

- 147** Cost-utility analysis of private contracting to reduce public waiting times for joint replacement surgery
Jonathan Karnon, Bahareh Mesgarian Haghighi, Babu Sajjad, Sokunthea Yem, Anuji Gamage and Aaron Thorpe
- 156** Tele-expertise system based on the use of the electronic patient record to support real-time antimicrobial use
David Morquin, Roxana Ologeanu-Taddei, Yatrika Koumar and Jacques Reynes
- 163** Decision-components of NICE's technology appraisals assessment framework
Joost de Folter, Mark Trusheim, Pall Jonsson and Sarah Garner
- 172** Preoperative magnetic resonance imaging diagnostic features of uterine leiomyosarcomas: A systematic review
Helen Kaganov, Alex Ades and David Stuart Fraser
- 180** Direct costs of type 2 diabetes: A brazilian cost-of-illness study
Ricardo Saad Henriques, Laiza Maria Steimbach, Deise Regina Baptista, Luana Lenzi, Fernanda S. Tonin, Roberto Pontarolo and Astrid Wiens
- 189** Ethics evaluation revealing decision-maker motives: A case of neonatal screening
Véronique Raimond, Cléa Sambuc and Leslie Pibouleau

Policies

- 196** Industry's experiences with the scientific advice offered by the Federal Joint Committee within the early benefit assessment of pharmaceuticals in Germany
Charalabos-Markos Dintsios and Sara Schlenkrich
- 205** Toward a contingency model for hospital-based health technology assessment: Evidence from AdHopHTA project
Americo Cicchetti, Valentina Iacopino, Silvia Coretti, Alessandra Fiore, Marco Marchetti, Laura Sampietro-Colom, Kristian Kidholm, Jean-Blaise Wasserfallen, Rabia Kahveci, Esa Halmesmäki, Magdalene Rosenmöller, Claudia Wild and Raul-Allan Kivet
- 212** Untangling, unbundling, and moving forward: Framing health technology reassessment in the changing conceptual landscape
Lesley J.J. Soril, Daniel J. Niven, Rosmin Esmail, Tom W. Noseworthy and Fiona M. Clement
- 218** Exploring medical devices: The use of risk assessment tools and their link with training in hospitals
Petra J. Porte, Lisanne M. Verweij, Martine C. de Bruijne, Cees P.M. van der Vleuten and Cordula Wagner
