1. **ANIMAL WELFARE** considers: **Original articles**, ie first reports of the author's own work. **Review articles** based largely on other scientists' work. **Short communications** of less than 2000 words. These may be original, interpretative or review papers; factual accounts or field workers' practical experiences in dealing with welfare problems; constructive critiques of other papers, etc. **Technical contributions** from animal keepers, scientists, students, technicians etc, reporting practical methods of improving animal welfare. **Letters**, on topical issues or material previously published in the journal.

Animal Welfare will not include papers based on work which involves unnecessary pain, distress, suffering or lasting harm.

Four copies should preferably be submitted to the relevant Section Editor or to the Editor-in-Chief. A computer disk of any IBM or Apple Macintosh compatible package should be submitted with the final version of the manuscript. Two, lettered originals (laser printouts) of each figure, accompanied by a separate sheet of legends, must be submitted with the final version. Articles will be scrutinized by a minimum of two referees before being accepted or rejected.
3. **Contents of articles.** The title page should give the full title of the paper, the name(s) and address(es) of the author(s) and a short running head title. The full postal address, telephone and facsimile numbers of the correspondent should be given. Include an e-mail address, if possible.
