

TRANSACTIONS

OF THE

ROYAL SOCIETY OF EDINBURGH.

VOLUME LVII, PART III.—SESSION 1932–33.

(Last part of Volume LVII.)

CONTENTS.

	PAGE
XXII. <i>Studies on the Scottish Marine Fauna: The Natural Faunistic Divisions of the North Sea as shown by the Quantitative Distribution of the Molluscs.</i> By A. C. STEPHEN, B.Sc., Royal Scottish Museum. (With Seven Text-figures) (Issued May 19, 1933.)	601
XXIII. <i>The Diurnal Incidence of Disturbance in the Terrestrial Magnetic Field.</i> By A. CRICHTON MITCHELL, D.Sc. (With One Text-figure) (Issued May 18, 1933.)	617
XXIV. <i>The Late-Glacial Readvance Moraines of the Highland Border West of the River Tay.</i> By J. B. SIMPSON, B.Sc.(Agr.), D.Sc., (With Three Plates and Two Text-figures) (Issued May 30, 1933.)	633
XXV. <i>The Early Stages in the Development of Cavia.</i> By NORMAN H. W. MACLAREN, Ph.D., F.L.S., Lecturer in Embryology, University of Glasgow, and THOMAS H. BRYCE, M.D., F.R.S., Professor of Anatomy, University of Glasgow. (With Five Plates and Two Text-figures) (Issued June 22, 1933.)	647
XXVI. <i>Notes on the Kidston Collection of Fossil Plant Slides. No. II. The Anatomy of the Axis of Bothrodendron mundum Williamson sp.</i> By MARY G. CALDER, B.Sc. Communicated by S. WILLIAMS, M.Sc., Ph.D. (With One Plate and Two Text-figures) (Issued July 24, 1933.)	665
XXVII. <i>Stratigraphical Observations in the Stor Fjord Region of Spitsbergen.</i> By G. W. TYRRELL, A.R.C.Sc., D.Sc., F.G.S., Lecturer in Geology, University of Glasgow. With an Appendix on the Mesozoic Fossils from Spitsbergen collected by Dr G. W. Tyrrell. By J. WEIR, Ph.D., D.Sc., F.G.S. (With One Plate and Five Text-figures) (Issued September 6, 1933.)	675
XXVIII. <i>The Structure of the Foot in certain Mosses and in Anthoceros lævis.</i> By NELLIE M. BLAIKLEY, M.Sc. (Department of Botany, University of Reading). Communicated by Professor J. R. MATTHEWS. (With Ten Text-figures) (Issued September 11, 1933.)	699
XXIX. <i>A Contribution to the Experimental Morphology of Lycopodium Selago, with special reference to the Development of Adventitious Shoots.</i> By S. WILLIAMS, M.Sc., Ph.D., Lecturer in Plant Morphology in the University of Glasgow. (With Three Plates and Twelve Text-figures) (Issued October 2, 1933.)	711
XXX. <i>On the Feeding Mechanism of Certain Marine Ostracods.</i> By H. GRAHAM CANNON, Sc.D., Beyer Professor of Zoology in the Victoria University of Manchester. (With Eleven Text-figures) (Issued October 4, 1933.)	739
XXXI. <i>Studies on the Reproductive System in the Guinea-Pig: Post-partum Repair of the Uterus, and the Associated Appearances in the Ovaries.</i> By THOMAS NICOL, M.B., Ch.B., F.R.C.S.E., Senior Lecturer in Anatomy, University of Glasgow. (With Two Plates) (Issued November 30, 1933.)	765
XXXII. <i>Studies on the Scottish Marine Fauna: Quantitative Distribution of the Echinoderms and the Natural Faunistic Divisions of the North Sea.</i> By A. C. STEPHEN, B.Sc., Royal Scottish Museum, Edinburgh. (With Four Text-figures) (Issued February 6, 1934.)	777
XXXIII. <i>The Sequence of Floras in the Upper Carboniferous, with special reference to South Wales.</i> By EMILY DIX, D.Sc., F.G.S., Bedford College for Women, London. Communicated by Dr JOHN PRINGLE. (With Four Text-figures) (Issued March 7, 1934.)	789
XXXIV. <i>Geology of the Outer Hebrides. Part V.—North Harris and Lewis.</i> By Professor T. J. JEHU, M.A., M.D., F.G.S., and R. M. CRAIG, M.A., D.Sc., F.G.S. (With Five Plates and One Text-figure) (Issued March 30, 1934.)	839
INDEX	875

EDINBURGH:

PUBLISHED BY ROBERT GRANT & SON, 126 PRINCES STREET,
AND WILLIAMS & NORGATE, LTD., 28 LITTLE RUSSELL STREET, LONDON, W.C. 1.

MCMXXXIV.

CONTENTS.

PART I. (1931–32).

NUMBER		PAGE
*I.	<i>An Analysis of the Vegetative Organs of Selaginella grandis Moore, together with some Observations on Abnormalities and Experimental Results.</i> By S. WILLIAMS, M.Sc., Ph.D., Lecturer in Plant Morphology in the University of Glasgow. (With Two Plates and Nine Text-figures),	1
II.	<i>A Contribution to the Molluscan Fauna of the Laki and Basal Khirthar Groups of the Indian Eocene.</i> By L. R. COX, M.A., F.G.S. Communicated by Lt.-Col. L. M. DAVIES, R.A., F.G.S. Published by permission of the Trustees of the British Museum. (With Two Tables and Four Plates),	25
*III.	<i>The Life-history and Cytology of Didymium nigripes Fr.</i> By ELSIE J. CADMAN, M.A., B.Sc., Ph.D., Assistant Lecturer in Botany, Edinburgh and East of Scotland College of Agriculture. Communicated by Dr MALCOLM WILSON. (With Five Plates),	93
IV.	<i>The Electric Field in Terrestrial Magnetic Storms.</i> By A. H. R. GOLDIE, M.A. (With Eighteen Text-figures and Two Diagrams),	143
*V.	<i>Abnormalities in the Blood Vascular System of the Anura.</i> By CHARLES H. O'DONOGHUE, D.Sc. (Department of Zoology, University of Edinburgh). (With Twenty-four Text-figures),	179
VI.	<i>The Primitive Conducting Mechanisms of the Vertebrate Heart. An Introduction to the Study of their Appearance and Development in Lepidosiren paradoxa.</i> By TUDOR JONES, M.B., Ch.B. (Anatomy Department, University of Liverpool). (With Four Plates and Six Text-figures),	225
VII.	<i>Differentiation in the Sills of Northern Trotternish (Skye).</i> By FREDERICK WALKER, M.A., D.Sc., University of St Andrews. (With One Text-figure),	241
*VIII.	<i>The Development of the Sorus in Some Species of Nephrolepis, together with Some Observations on Points of Anatomical Interest.</i> By ISOBEL M. CASE, M.A., B.Sc., Ph.D., Assistant in Botany, University of Glasgow. Communicated by Dr S. WILLIAMS. (With Ten Text-figures),	259
*IX.	<i>Notes on Lower Old Red Sandstone Plants from Callander, Perthshire.</i> By S. M. K. HENDERSON, B.Sc., Demonstrator in Geology, University of Glasgow. Communicated by Professor E. B. BAILEY, M.C., F.R.S. (With One Plate and One Text-figure),	277

NUMBER	PAGE
X. <i>On the Structure and Function of the Alimentary Canal of the Limpet.</i> By ALASTAIR GRAHAM, M.A., B.Sc.(Edin.), Lecturer in Zoology in the University of Sheffield. <i>Communicated by Professor J. H. ASHWORTH, F.R.S.</i> (With Ten Text-figures),	287
<hr style="width: 20%; margin: 0 auto;"/> <p>PART II. (1932-33).</p>	
XI. <i>Studies in the Physiology of the Virus Diseases of the Potato : a Comparison of the Carbohydrate Metabolism of Normal with that of Leaf-roll Potatoes.</i> By EUSTACE BARTON-WRIGHT, M.Sc., and ALAN M'BAIN, B.Sc. (From the Scottish Society for Research in Plant Breeding, Corstorphine, Edinburgh.) (With Sixteen Text-figures),	309
XII. <i>Scottish Carboniferous Ostracoda.</i> By MARY H. LATHAM, M.A., Carnegie Teaching Fellow, University of Glasgow. <i>Communicated by Professor E. B. BAILEY, M.C., F.R.S.</i> (With Twenty-five Text-figures),	351
XIII. <i>The Genera Dictyoconoides Nuttall, Lockhartia nov., and Rotalia Lamarck : Their Type Species, Generic Differences, and Fundamental Distinction from the Dictyoconus Group of Forms.</i> By Lieut.-Colonel L. M. DAVIES, R.A., F.R.A.I., F.G.S. (With Four Plates and Ten Text-figures),	397
*XIV. <i>Submarine Faulting in Kimmeridgian Times : East Sutherland.</i> By Professor E. B. BAILEY, M.C., M.A., F.R.S., and J. WEIR, D.Sc., Geology Department, University of Glasgow. (With Three Plates and Seventeen Text-figures),	429
XV. <i>Development and Probable Evolution of the Suctorial Disc in the Tadpoles of Rana afghana Günther.</i> By SUNDER LAL HORA, D.Sc., Zoological Survey of India. (With One Plate),	469
*XVI. <i>The Innervation of the Uterus.</i> By AMY M. FLEMING, B.Sc., M.D., M.C.O.G. (From the Department of Physiology, University of Glasgow, and the Laboratory of the Royal Samaritan Hospital for Women, Glasgow.) <i>Communicated by Professor E. P. CATHCART, F.R.S.</i> (With Four Plates),	473
XVII. <i>Contributions to the Study of the Old Red Sandstone Flora of Scotland. VIII. On Arthrostigma, Psilophyton, and some associated Plant-remains from the Strathmore Beds of the Caledonian Lower Old Red Sandstone.</i> By W. H. LANG, LL.D., D.Sc., F.R.S., Barker Professor of Cryptogamic Botany in the University of Manchester. (With Four Plates and One Text-figure),	491
XVIII. <i>A Study of the Foliar Endodermis in the Plantaginaceæ.</i> By GEORGE TRAPP, M.A., B.Sc., Botany Department, University of Glasgow. <i>Communicated by Professor J. WALTON, M.A., D.Sc.</i> (With Two Text-figures),	523

NUMBER	PAGE
*XIX. <i>Notes on the Kidston Collection of Fossil Plant Slides. No. I. The Anatomy of the Axis of Lepidodendron Brownii Unger sp., with special reference to the Relationship between this Stem and Lepidostrobis Brownii Unger sp.</i> By MARY G. CALDER, B.Sc. Communicated by Dr S. WILLIAMS. (With Three Plates and One Text-figure),	547
XX. <i>The Metamorphism of the Deeside Limestone, Aberdeenshire.</i> By ARTHUR G. HUTCHISON, Ph.D. Communicated by Professor H. H. READ. (With Nine Text-figures),	557
*XXI. <i>The Restoration and Regeneration of the Epithelium and Endometrium of the Uterus of Cavia Post Partum in Non-pregnant Animals.</i> By WILLIAM J. HAMILTON, M.Sc., M.B., B.Ch. Communicated by Professor T. H. BRYCE, F.R.S. (With One Plate and One Text-figure),	593

PART III. (1932-33).

*XXII. <i>Studies on the Scottish Marine Fauna: The Natural Faunistic Divisions of the North Sea as shown by the Quantitative Distribution of the Molluscs.</i> By A. C. STEPHEN, B.Sc., Royal Scottish Museum. (With Seven Text-figures),	601
XXIII. <i>The Diurnal Incidence of Disturbance in the Terrestrial Magnetic Field.</i> By A. CRICHTON MITCHELL, D.Sc. (With One Text-figure),	617
*XXIV. <i>The Late-Glacial Readvance Moraines of the Highland Border West of the River Tay.</i> By J. B. SIMPSON, B.Sc.(Agr.), D.Sc. (With Three Plates and Two Text-figures),	633
*XXV. <i>The Early Stages in the Development of Cavia.</i> By NORMAN H. W. MACLAREN, Ph.D., F.L.S., Lecturer in Embryology, University of Glasgow, and THOMAS H. BRYCE, M.D., F.R.S., Professor of Anatomy, University of Glasgow. (With Five Plates and Two Text-figures),	647
*XXVI. <i>Notes on the Kidston Collection of Fossil Plant Slides. No. II. The Anatomy of the Axis of Bothrodendron mundum Williamson sp.</i> By MARY G. CALDER, B.Sc. Communicated by S. WILLIAMS, M.Sc., Ph.D. (With One Plate and Two Text-figures),	665
*XXVII. <i>Stratigraphical Observations in the Stor Fjord Region of Spitsbergen.</i> By G. W. TYRRELL, A.R.C.Sc., D.Sc., F.G.S., Lecturer in Geology, University of Glasgow. With an Appendix on the <i>Mesozoic Fossils from Spitsbergen collected by Dr G. W. Tyrrell.</i> By J. WEIR, Ph.D., D.Sc., F.G.S. (With One Plate and Five Text-figures),	675

NUMBER		PAGE
XXVIII.	<i>The Structure of the Foot in certain Mosses and in Anthoceros lævis.</i> By NELLIE M. BLAIKLEY, M.Sc. (Department of Botany, University of Reading). Communicated by Professor J. R. MATTHEWS. (With Ten Text-figures),	699
*XXIX.	<i>A Contribution to the Experimental Morphology of Lycopodium Selago, with special reference to the Development of Adventitious Shoots.</i> By S. WILLIAMS, M.Sc., Ph.D., Lecturer in Plant Morphology in the University of Glasgow. (With Three Plates and Twelve Text-figures),	711
XXX.	<i>On the Feeding Mechanism of Certain Marine Ostracods.</i> By H. GRAHAM CANNON, Sc.D., Beyer Professor of Zoology in the Victoria University of Manchester. (With Eleven Text-figures),	739
*XXXI.	<i>Studies on the Reproductive System in the Guinea-Pig: Post-partum Repair of the Uterus, and the Associated Appearances in the Ovaries.</i> By THOMAS NICOL, M.B., Ch.B., F.R.C.S.E., Senior Lecturer in Anatomy, University of Glasgow. (With Two Plates),	765
XXXII.	<i>Studies on the Scottish Marine Fauna: Quantitative Distribution of the Echinoderms and the Natural Faunistic Divisions of the North Sea.</i> By A. C. STEPHEN, B.Sc., Royal Scottish Museum, Edinburgh. (With Four Text-figures),	777
XXXIII.	<i>The Sequence of Floras in the Upper Carboniferous, with special reference to South Wales.</i> By EMILY DIX, D.Sc., F.G.S., Bedford College for Women, London. Communicated by Dr JOHN PRINGLE. (With Four Text-figures),	789
*XXXIV.	<i>Geology of the Outer Hebrides. Part V.—North Harris and Lewis.</i> By Professor T. J. JEHU, M.A., M.D., F.G.S., and R. M. CRAIG, M.A., D.Sc., F.G.S. (With Five Plates and One Text-figure),	839
INDEX,	875

* The thanks of the Society are due to the Carnegie Trust for the Universities of Scotland for grants towards the cost of the illustrations of these papers.
