THE STATE AND ECONOMIC ENTERPRISE IN JAPAN

No. 2, "Studies in the Modernization of Japan."

EDITED BY W. W. LOCKWOOD

Dealing with the extraordinary economic modernization that has been taking place in Japan since 1868, this is a study of Japan's historical opportunities and how men used them. The first half of the book concentrates on the Meiji Era, 1868–1911, when the foundations of modern industrial society and the modern state were being created. The second half focuses on Japan since World War II. The sixteen authors who have contributed to this volume represent much of the best informed scholarship on the economic factors of Japanese modernization. This study, like Volume I of the Series, *Changing Japanese Attitudes Toward Modernization*, edited by Marius B. Jansen (1965), was prepared under the auspices of the Association for Asian Studies.
