## We challenge anyone to find a more user-friendly arts journal index!

## Sample entry:

Long recognised as the principal source on current trends in design and the applied arts worldwide, design and applied arts index is now also available on CD-ROM, making it an indispensable resource not only for students, historians and librarians, but also for working designers and craftspeople.

daai on CD-ROM contains over 100,000 annotated references from more than 400 design and craft journals published between 1973-1997, making it the largest database of its kind in the world. It also includes data on nearly 40,000 designers, craftspeople, studios, workshops, firms etc.

At least 10,000-12,000 new references are added annually.

## Special Features of daai on CD-ROM

daai on CD-ROM has a number of unique special features. These include:
