A Distant Prospect of Wessex: Archaeology and the Past in the Life and Works of Thomas Hardy

by
Martin J. P. Davies

In this study, Martin Davies examines the role which Thomas Hardy's involvement with the past plays in his life and literary work. Hardy's life encompasses the transformation of archaeology out of mere antiquarianism into a fully scientific discipline. Hardy – once described as 'a born archaeologist' – observed this process at first hand, and its impact on his aesthetic and philosophical scheme was profound. Dr Davies' study offers a different route to a fuller understanding of Hardy's novels, poems, and short stories.
