# **Journal of Dairy Research**

## A quarterly journal covering all aspects of dairy research

Established in 1929 as a medium for the publication of the results of original research in dairy science and cognate subjects, Journal of Dairy Research is a leading publication in its field.

Published for the AFRC Food Research Institute and the Hannah Research Institute, Journal of Dairy Research publishes original research on all aspects of dairy science. It is an invaluable journal for all those in dairy science - whether you're in scientific research, manufacturing, government or teaching.

# **Coverage includes:**

• Animal husbandry • The physiology and endocrinology of lactation • Milk production, composition, preservation and processing • Biotechnology and food science • Properties of milk proteins and other components • Relevant studies in bacteriology, enzymology and immunology • Dairy products such as cheese, fermented milks and spreads and the use of milk products in other foods.

# Recent Articles include...

# The Journal of **Agricultural Science**

Published in six parts a year, this leading journal is concerned with the advance of agriculture and the use of land resources throughout the world. It publishes original scientific work related to strategic and applied studies in all aspects of agricultural science, including agronomy and crop physiology, breeding, genetics and pathology; soil science; animal nutrition, physiology and genetics; and the mathematical and statistical methods used in experimentation and data analysis. The journal also publishes book reviews and invited short reviews of scientific topics of current agricultural relevance.
