	PAGE
<b>ALLARDICE, R. E.</b>	
Note on a Formula in Quaternions, - - -	8
On the Expression of a Symmetric Function in terms of the Elementary Symmetric Functions, - -	41
<b>AUBERT, PAUL.</b>	
Sur une propriété projective des sections coniques, -	61
<b>BUTTERS, J. WATT.</b>	
On the Solution of the Equation $x^p - 1 = 0$ ( $p$ being a prime number), - - - - -	10
<b>CHREE, CHARLES.</b>	
On Vortex Motion in a Rotating Fluid, - -	29
<b>CHRYSTAL, Professor.</b>	
An Elementary Discussion of the Closeness of the Approximation in Stirling's Theorem, - -	26
<b>FRASER, A. Y.</b>	
On Laboratory Work in Electricity in large Classes, [Title] - - - - -	42
<b>FRASER, NORMAN.</b>	
On the Number of Elements in Space, [Title] - -	10
Kötter's Synthetic Geometry of Algebraic Curves, -	46
<b>GIBSON, GEORGE A.</b>	
A Short Notice of the Additions to the Mathematical Theory of Heat since the Transmission of Fourier's Memoir of 1811 to the French Academy, - -	5
<b>MACKAY, J. S.</b>	
Solutions of two Geometrical Problems, - - -	42

	PAGE
MILLAR, W. J.	
On the most Economical Speed to drive 'a Steamer in Relation to the Cargo carried and Coals consumed,	27
MORRISON, J. T.	
On Laboratory Work in Electricity in large Classes, [Title] - - - - -	42
MUNN, DAVID.	
On the General Equation of the Second Degree repre- sented a Pair of Straight Lines, [Title] - - -	8
NIVEN, Professor.	
On a Proposition in Statics, - - - - -	23
OFFICE-BEARERS, - - - - -	1
STEGGALL, Professor.	
The Value of $\cos 2\pi/17$ expressed in Quadratic Radicals,	4
Amsler's Planimeter, - - - - -	25
Note on the Regular Solids, - - - - -	66
A certain Cubic connected with the Triangle, - - -	66
TAIT, Professor.	
On the Relations between Systems of Curves which, together, cut their Plane into Squares, - - -	2
WALLACE, W.	
On Laboratory Work in Electricity in large Classes, [Title] - - - - -	42
