ADVANCES IN APPLIED PROBABILITY

This is a companion publication to the *Journal of Applied Probability* published by the Applied Probability Trust. It contains review and expository papers in applied probability, as well as mathematical and scientific papers of interest to probabilists, and letters to the editor. An annual volume of approximately 800 pages is published in four issues appearing in March, June, September and December.

EDITORIAL COMMITTEE

Editor-in-Chief	J. GANI (University of Kentucky)
Coordinating Editors	C. C. HEYDE (University of Melbourne)
	M. F. NEUTS (University of Delaware)
	G. E. H. REUTER (Imperial College, London)
Executive Editor	MAVIS HITCHCOCK (University of Sheffield)

EDITORS

P. J. BROCKWELL (Colorado State University)
V. R. CANE (University of Cambridge)
J. W. COHEN (University of Utrecht)
E. J. HANNAN (Australian National University)
J. KEILSON (University of Rochester)
D. G. KENDALL (University of Cambridge)
J. F. C. KINGMAN (University of Oxford)
K. KRICKEBERG (Université René Descartes, Paris)
R. M. LOYNES (University of Sheffield)
K. R. PARTHASARATHY (Indian Statistical Institute, New Delhi)
C. A. B. SMITH (University College, London)
R. L. TWEEDIE (Siromath, Sydney)

TECHNICAL EDITOR KATHLEEN M. LYLE (University of Sheffield)

ADDRESS FOR CORRESPONDENCE

All correspondence relating to the submission of papers should be sent to:

The Executive Editor,
Applied Probability,
Department of Probability and Statistics,
The University,
Sheffield S3 7RH, England.

Subscription rates and notes for contributors are to be found on the inside back cover.

Volume 16 Number 3

449 M. S. BARTLETT. Recent investigations involving stochastic population models

471 IAN W. SAUNDERS, SIMON TAVARÉ AND G. A. WATTERSON. On the genealogy of nested subsamples from a haploid population

492 E. J. HANNAN AND L. KAVALIERIS. Multivariate linear time series models

562 ENZO ORSINGHER. Damped vibrations excited by white noise

585 SHIGERU MASE. Locally asymptotic normality of Gibbs models on a lattice

603 MICHAEL STEIN. System parameters governed by jump processes: a model for removal of air pollutants

618 LAJOS TAKÁCS. Random flights on regular graphs

638 P. H. ROBERTS AND D. E. WINCH. On random rotations

656 BERNARD YCART. L'application des représentations au calcul explicite sur certaines chaînes de Markov finies

667 J. G. SHANTHIKUMAR. Processes with new better than used first-passage times

Letters to the editor

687 J. GANI AND PYKE TIN. Immigration in the two-sex population process

690 J. VAN DEN BERG. Disproof of the conjectured subexponentiality of certain functions in percolation theory

692 Y. S. SATHE. A comment on star-ordering and tail-ordering

693 D. J. SAUNDERS. Dispersive ordering of distributions

695 G. I. FALIN. Quasi-input process in the $M/G/1/\infty$ queue
