

CAMBRIDGE UNIVERSITY PRESS

Cattle and the future of Beef-production in England

By K. J. J. MACKENZIE, M.A. Preface and chapter by F. H. A. MARSHALL, Sc.D.
Demy 8vo. 8s 6d net.

British Grasses and their employment in Agriculture

By S. F. ARMSTRONG. Second edition. Demy 8vo. 175 illustrations. 10s 6d net.

Manuring for Higher Crop Production

By Sir E. J. RUSSELL. Second edition. Demy 8vo. 17 text-figures. 3s 6d net.

Insect Pests and Fungus Diseases of Fruit and Hops

By P. J. FRYER. Crown 8vo. 24 coloured plates, 305 photographs and diagrams. 45s net.

Physiology of Farm Animals

By F. H. A. MARSHALL and E. T. HALNAN. Demy 8vo. With 118 text-figures.
15s net.

A Course of Practical Physiology for Agricultural Students

By J. HAMMOND, M.A., and E. T. HALNAN, M.A. Demy 8vo. INTERLEAVED.
4s 6d net.

The Physiology of Reproduction in the Cow

By JOHN HAMMOND, M.A. Royal 8vo. 33 plates. 21s net.

A Course of Practical Chemistry for Agricultural Students

By H. A. D. NEVILLE, M.A., F.I.C., and L. F. NEWMAN, M.A., F.I.C. Demy 8vo.
Vol. I. 10s 6d net. Vol. II, Part 1. 5s net.

A Course of Practical Work in Agricultural Chemistry for Senior Students

By T. B. WOOD, C.B.E., F.R.S. New Edition. Revised by H. H. NICHOLSON.
Demy 8vo. 2s 6d net.

Microscopic Analysis of Cattle Foods

By T. N. MORRIS, B.A. Large crown 8vo. 54 text-figures. 3s net.

Potato Varieties

By R. N. SALAMAN, M.D. Royal 8vo. 10 plates (3 in colour). 25s net.

CONTENTS

	PAGE
1. ELPEICK, B. L. and MCMAHON, P. R. Note on the estimation of dry matter in mangels	1
2. SREENIVASAN, A. and SUBRAHMANYAN, V. Biochemistry of water-logged soils. Part IV. Carbon and nitrogen transformations. (With six text-figures)	6
3. DUNLOP, GEORGE. The calcium, phosphorus and vitamin D requirements of swine. (With one text-figure)	22
4. WOODMAN, H. E. and EDEN, A. Nutritive value of lucerne. III. The composition, digestibility and nutritive value of lucerne hay, lucerne meal (English and American) and lucerne leaf meal (American)	50
5. GOOCH, MARJORIE. An analysis of the time change in milk production in individual lactations. (With five text-figures)	71
6. MARSTON, HEDLEY R. Studies on the relationship between nutrition and wool production of Merino sheep. I. The technique employed for determining the utilisation of foodstuffs and for estimating the wool produced over short periods by Merino sheep. (With three text-figures)	103
7. MARSTON, HEDLEY R. Studies on the relationship between nutrition and wool production of Merino sheep. II. The effect of the administration of cystine, cystein, sulphur and methionine on the growth of wool of a Merino ewe on a protein-poor ration	113
8. RICHARDSON, H. L. and CROWTHER, E. M. Studies on calcium cyanamide. V. The utilisation of calcium cyanamide in pot culture experiments. (With three text-figures)	132
9. DUNLOP, GEORGE. The control of variation in gain in animal nutrition experiments. (With one text-figure)	151

The Journal of Agricultural Science is issued in quarterly parts of about 150 pages, with plates and figures, four parts constituting a volume.

Volumes XVI-XX (1926-1930) are out of print. Quotations can be given for other back volumes and parts.

Quotations can also be given for buckram binding cases and for binding subscribers' sets.

Papers for publication should be typewritten or written in a very legible hand, and may be sent to Professor Sir R. H. BIFFEN, M.A., F.R.S., School of Agriculture, Cambridge, or to the associate Editors. Other communications should be addressed to the University Press, Cambridge.

References to literature should be collected at the end of the paper in alphabetical or numbered order. Abbreviations for titles of Journals given in the *World List of Scientific Periodicals* should be used.

Contributors will receive twenty-five copies of their papers free. A limited number of additional copies may be purchased if ordered when final proof is returned.

The subscription price for each volume, payable in advance, is 30s. net per volume (post free); single numbers 10s. net. Subscriptions may be sent to any Bookseller, or to The Cambridge University Press, Fetter Lane, London, E.C. 4.

The Cambridge University Press has appointed the University of Chicago Press agents for the sale of *The Journal of Agricultural Science* in the United States of America and Canada.
