

Glasgow Mathematical Journal

CONTENTS

M. J. Crabb , Numerical range estimates for the norms of iterated operators	85
K. H. Hyde , On the order of the Sylow subgroups of the automorphism group of a finite group	88
E. M. Wright , The number of irreducible tournaments	97
David A. Brannan , On univalent polynomials	102
George E. Andrews , Note on a partition theorem	108
Peter Kessler , On a theorem of Iseki	110
Carlton J. Maxson , On the dimension of Veblen-Wedderburn systems	114
J. W. Dettman , The wave, Laplace, and heat equations and related transforms	117
G. O. Okikiolu , On inequalities for integral operators	126
D. B. McAlister and L. O'Carroll , Finitely generated commutative semigroups	134
Nguyen Phuong Các , A note on Köthe spaces	152
C. R. Atherton , Concerning intrinsic topologies on Boolean algebras and certain bicomactly generated lattices	156
K. Chandrasekhara Rao , Matrix transformations of some sequence spaces—II	162
T. E. Hall , On the natural ordering of \mathcal{J} -classes and of idempotents in a regular semigroup	167

GLASGOW MATHEMATICAL JOURNAL

The *Glasgow Mathematical Journal* is a continuation of the *Proceedings of the Glasgow Mathematical Association*, founded in 1952 by the late Professor T. M. MacRobert. It is published with the support of the University Court of the University of Glasgow. The *Glasgow Mathematical Journal* is published in Parts twice yearly, in January and July; two Parts complete a Volume of approximately 160 pages.

The prepaid subscription for each Volume is 50s. (£2.50) in U.K., \$7.00 in U.S.A., post free. Single parts may be supplied at a cost of 25s. (£1.25) in U.K., \$3.50 in U.S.A., net.

Copies may be ordered direct from the publishers or from any bookseller.

Information for Contributors

While the *Glasgow Mathematical Journal* is intended primarily for Pure Mathematics, papers on Applied Mathematics will also be accepted. Manuscripts from all parts of the world will be welcomed and given careful consideration.

Manuscripts, preferably typed, should be prepared so as to conform with the practice in current numbers of the *Journal*, especially with regard to line illustrations, references, tables and summaries. The name of the author and the date of the receipt of the manuscript will be printed under the title. Text figures must be suitable for line block reproduction, lettered in pencil, numbered, and separated from the text but allocated clearly to sections of the text.

References should be placed at the end of the paper, arranged and numbered in alphabetical order. In the text, reference numbers should be enclosed in square brackets and underlined, to distinguish them from formula numbers, which should be quoted in round brackets. The following particulars should be given, in the order indicated:

for references to books—*author, title, edition, place of publication, year of publication, page reference*;

for references to articles in periodicals—*author, title of article, short title of periodical, series no. (if any), volume no., year, pagination*.

A proof is supplied once in galley form, together with an Order Form for offprints. Offprints are supplied free to the number of twenty-five; additional copies, if ordered prior to publication, will be supplied, at cost, at the request of the contributor. Excessive corrections may be charged to the author.

Manuscripts should be sent to:
