## Leading medical journals...

For well over a hundred years Cambridge University Press has been publishing internationally renowned research periodicals in the field of medicine and health-care which have established themselves at the cutting edge of scientific research.

### Coverage

They have a wide subject area coverage, from the long established and internationally respected *Journal of Physiology* and *Journal of Anatomy* to the newly developing areas of ethics, health economics and technology assessment covered by *Cambridge Quarterly of Healthcare Ethics* and *International Journal of Technology Assessment in Healthcare*.

### Features

• Fast publication times • Extensive book review sections • Occasional special issues and supplements in topical areas • No page charges for authors • Very high quality scientific papers • Peer-review • Highest editorial and production standards • Outstanding indexing services • Abstracted and indexed by leading bodies • colour illustration where required • high impact factors and cited half-lives
