The Retreat, York

for Psychiatric Illnesses

Founded in 1792 by the Quaker, William Tuke, who established the tradition of concern for patients as individuals The Retreat is a 200-bedded private registered nursing home surrounded by extensive grounds on the outskirts of the historic City of York. It is easily reached by rail and motorways.

Care and treatment is offered for all types of psychiatric illness on the short or long term in a sympathetic and friendly atmosphere. Patients suffering from neuroses, psychoses, alcoholism and dementia are treated by the full-time consultant psychiatrists in surroundings suitable for their individual needs. Outpatient facilities are available by appointment with the consultant medical staff.

The Nursing Home is a registered charity and is able to offer inclusive care in shared accommodation from £30.00 per day or in single rooms at slightly increased charge. The Nursing Home is recognised by the main private patient schemes.

For further details apply to The Medical Director, The Retreat, York YO1 5BN (Telephone 0904 412551).

PSYCHIATRISTS

Cambridge, Ontario, Canada

Cambridge needs Psychiatrists. Our community of 80,000 is located in the heart of Southern Ontario, Canada, a prosperous and populous area with over 4 million people within a one hour drive. We have several interesting opportunities in hospital-associated ambulatory mental health services.

Whether your interest is in general community psychiatry or psychogeriatrics, Cambridge can offer an attractive guaranteed income through government funded sessional payments. In addition, there are excellent opportunities to supplement this income with a private, fee-for-service practice, funded at no cost to the patient through our government health insurance plan.

Cambridge, Canada is a pleasant, progressive city that provides a very high standard of living including excellent social, recreational, and educational facilities. Assistance and support in the immigration process will be provided to successful candidates.

TWO IMPORTANT REPRINTS

BATTLE FOR THE MIND

WILLIAM SARGANT

*(now in its Eighth Impression,
having sold something in excess of 250,000 copies)*

The object of this remarkable book is firstly to show how beliefs—whether good or bad, false or true—can be forcibly implanted in the human brain. The science of indoctrination; and, secondly to explain how people can be switched to arbitrary beliefs absolutely opposed to those previously held. The science of brain-washing.

In detail, and with the aid of fascinating photographs, the author describes the methods used to achieve these ends by politicians, priests, psychiatrists and police forces the world over.

(Not to be sold in the United States and Canada)

and its sequel

THE MIND POSSESSED

A riveting investigation into possessions—by demons, gods, drugs, sex or religion—which gives an enthralling insight into the human mind.

The author here relates his fascinating experiences as he studied the phenomenon of possession all over the world . . . casting out devils in Ethiopia . . . voodooism in Haiti . . . smoke-induced possession in Zambia . . . religious revival meetings in America.

From these studies, many of which were experienced first-hand, Dr. Sargant raises crucial questions about us and our minds.

(Not to be sold in the United States and Canada)

Price £2.50 each
(including postage and packing)

Obtainable from The Publishers:

HEADLEY BROTHERS LIMITED

The Invicta Press, Ashford, Kent

London office: 109 KINGSWAY, LONDON WC2

What do you look for in a patient support system?

Obviously, your relationship with your patients and the treatment programmes you determine for them are of paramount importance.

But a key element in any treatment programme is a complete and effective system that implements your decisions regarding patient care.

A system tailored within broad parameters to meet individual patient needs, covering a wide range of psychiatric disorders as well as drug addiction and alcoholism.

And it should be carried out by experienced staff – resident medical officers, trained psychiatric nurses, therapists and counsellors – who can design and implement a treatment

programme in your absence or complement your own.

In other words, a support system like ours, based on years of international experience within a caring and supportive environment.

Because after all, a good patient care system is one that helps you help your patients recover.
