In the original publication of this article (Juarez et al. 2019) the height of mound M13 is inaccurately described on page 214. The correct mound height is 12 m. The sentence should read:

The mapping concentrated in the area located directly southeast of the site's largest construction, a 12 m tall mound (Structure

M13) within Noh K'uh's ceremonial core (Figure 3).
