The Journal of Laryngology and Otology

(Founded in 1887 by MORELL MACKENZIE and NORRIS WOLFENDEN)

EDITED BY

WALTER HOWARTH

ASSISTED BY

W. M. MOLLISON

1. Original Articles are accepted on the condition that they have not been published elsewhere.

2. Manuscripts should be typewritten, on one side only of the paper, and well spaced.

3. Galley proofs and engraver's proofs of illustrations are sent to the author. Corrections, which should be kept to a minimum, must be clearly marked and no additional matter added.

4. Orders for reprints should be sent when returning galley proofs, and for this purpose special forms are supplied, on which the price of the reprints is stated.

5. Authors of Original Communications on Oto-Laryngology in other Journals are invited to send a copy, or two reprints, to the *Journal of Laryngology*. If they are willing, at the same time, to submit their own abstract (in English, French, Italian, or German) it will be welcomed.

6. Editorial Communications may be addressed to THE EDITOR, *Journal of Laryngology*, c/o HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.

7. The Annual Subscription commencing with the January issue is Two Pounds sterling, post free, and is payable in advance.

8. Single copies, both of the present and the previous series, are on sale at Four Shillings each.

9. All Subscriptions, advertising and business communications should be sent to the Publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2.

United States of America

Orders for this Journal may be sent either through a local bookseller, or to Messrs. G. E. STECHERT & Co., 31-33 East 10th Street, New York, or may be sent direct to the Publishers, HEADLEY BROTHERS, 109 Kingsway, London, W.C.2, England.

PRESCRIBE THE EASY EFFECTIV™ METHOD

When spraying, the patient can hold his head in a natural position, yet the solution spreads throughout the nasal cavity, assuring thorough treatment. Effective dropper-application, on the other hand, requires a complicated posture technique which patients are apt to neglect in home treatment.

**DeVilbiss
ATOMIZERS**

These illustrations, which are based on X-ray research, clearly demonstrate the advantages of the atomizer as compared with the dropper

A REVOLUTIONARY DEVELOPMENT IN
INTRANASAL SULPHONAMIDE THERAPY

'SULFEX'

'Sulfex'* combines, for the first time, in a single chemically stable preparation the potent bacteriostatic action of 'Mickraform'* sulphathiazole (5%) and the effective vasoconstriction of 'Paredrinex'* (1%). The minute crystals of 'Mickraform' sulphathiazole ensure: (1) Enhanced therapeutic effect; (2) Uniform coating over infected areas; (3) Prolonged bacteriostatic action; (4) Easy passage into the sinuses. 'Paredrinex' exerts a rapid, complete and prolonged shrinkage of the nasal mucosa, thus achieving maximum ventilation and drainage. Indicated in acute nasal and sinus conditions—especially those secondary to the common cold.

Available, on prescription only,
in 1-oz. bottles with dropper.
Retail price 4/6 + 7d. Purchase Tax.

*Sample and further details on
the signed request of physicians.*

MEDICAL PROVERBS
OF THE WORLD No. 2

“Woe to the city whose doctors have gouty feet”

(Indian Proverb)

Difficult under such a handicap for a medical man to make his rounds! In these days of little port and much certificate-signing doctors are less likely to be impeded by gout than by writer's cramp. Whatever the difficulties to be overcome in wartime practice, some compensation is to be found in the possibility now of prescribing remedies that shorten the duration of some acute illnesses—remedies without which the doctor's day would be even longer than it is.

If precious time can be further saved by reference to the publications on May & Baker's products or to our Medical Information Department, please write or telephone us stating your requirements.
