In the article “Trafficking Nature and Labor Across Borders: The Transnational Return of US Environmental History,” on page 185 in *ILWCH* 85, an author is incorrectly identified as Robert Cushman, but he is actually Gregory T. Cushman.

Also, in Note 42, the book by Cushman to which Douglas Sackman is referring is not cited. The Note should have included the following citation:

Gregory T. Cushman, *Guano and the Opening of the Pacific World: A Global Ecological History* (Cambridge and New York: Cambridge University Press, 2013)
