

**JOURNAL OF DAIRY
RESEARCH**

Volume 34 Number 2 June 1967

CAMBRIDGE UNIVERSITY PRESS

THE JOURNAL OF DAIRY RESEARCH

was established in 1929 as a medium for the publication of the results of original research in dairy science and cognate subjects. It is published by the Cambridge University Press.

The annual subscription to the *Journal* is 80s. (U.S.A. \$13.50) for a volume of three parts. Single copies may be purchased at 30s. (U.S.A. \$5.00) each, plus postage. Subscriptions may be sent to any bookseller or to the Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1. Subscribers in the U.S.A. or Canada should send their orders to Cambridge University Press, American Branch, 32 East 57th Street, New York, N.Y. 10022.

Back Volumes. Enquiries about the price and availability of back volumes should be sent to the publishers.

Claims for the replacement of journals believed to have been lost in transmission will only be entertained if made within six months of publication.

Consultative Committee

PROFESSOR R. G. BASKETT, O.B.E.

PROFESSOR E. L. CROSSLEY

PROFESSOR R. C. GARRY, F.R.S.E.

PROFESSOR J. W. HOWIE

SIR ROBERT RAE, C.B.

DR J. A. B. SMITH, C.B.E.

DR L. A. MABBITT

Secretary MR J. C. F. COLES

Editorial Assistant MRS DOROTHY SKIDMORE

THE JOURNAL OF THE SOCIETY OF DAIRY TECHNOLOGY

17 DEVONSHIRE STREET, LONDON, W.1. *Tel. Langham 5059*

The Journal is issued in quarterly parts, four parts constituting a volume. The parts are usually issued in January, April, July and October each year.

The Subscription rate to non-members of the Society, payable in advance, is £3. 5s. net per volume (post free): single numbers, 17s. 6d. net. Subscriptions and all business enquiries should be sent to the Secretary, Society of Dairy Technology, 17 Devonshire Street, London, W. 1.

Each member of the Society receives one free copy of each number. One further copy of each number may (if available) be bought by members for 12s. 6d.

CONTENTS OF THE OCTOBER ISSUE

Spring Conference

Subject: Research and Development in the Dairy Industry

Butter, by J. E. KING; Cheese, by G. M. ROBERTSON; Concentrated and Manufactured Milks, by C. W. CULLIP; International and National Aspects of Dairy Research and Development, by E. J. MANN

Personalia

XVIIth International Dairy Congress

International Dairy Machinery Exhibition

The Annual Meeting of the International Dairy Federation, by A. L. PROVAN

Bulk Collection: Bacteriological Quality of Milk on Arrival at Creamery in Road Tankers, by S. B. THOMAS and R. C. DRUCE

The Influence of Vacuum Pressing on the Texture of Cheddar Cheese, by P. S. ROBERTSON

Book Reviews

A note on the Self-Regulating Capability of a Starter Organism in Continuous Culture, by N. J. BERRIDGE

Section Notes

Contents of Vol. 19

The Journal publishes not only papers read at meetings of the Society, but also papers on dairy technology by members and non-members

Advertising Offices: 9 COUGH SQUARE : LONDON : E.C. 4

JOURNAL OF DAIRY SCIENCE

Official Publication of the American Dairy Science Association Since 1917

PRESIDENT, RAYMOND ALBRECHTSEN
Cornell University, Ithaca, N.Y.

EDITOR-IN-CHIEF, E. O. HERREID
903 Fairview, Urbana, Ill.

EXECUTIVE SECRETARY, C. J. CRUSE
903 Fairview, Urbana, Ill.

VOL. 50

APRIL 1967

No. 4

Representative Research Papers with Shortened Titles:

- Structure of fat globule membrane. H. C. CHIEN.
- Determination of hydrogen peroxide in milk. V. M. AMIN.
- Xanthine oxidase activity. L. W. AURAND.
- Isolating lipolytic organisms. T. F. FRYER.
- Oxidative stability of milk. W. L. DUNKLEY.
- Mastitis-screening tests. A. R. BRAZIS.
- Urea for cattle. N. F. COLOVOS.
- Digestibility of silages. F. G. OWEN.
- Metabolism in ketotic cows. J. R. LUICK.
- Spermatozoan metabolism. N. V. VERA CRUZ.

ANIMAL PRODUCTION

JOURNAL OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

Contents of Volume 9, Part 2, May 1967 include:

- STOBO, ROY and GASTON. The ability of the calf weaned at five weeks of age to utilize urea given as a supplement to a low-protein concentrate.
- RICKABY. Protein levels in practical diets for bacon pigs.
- TOPPS and ELLIOTT. Partition of nitrogen in the urine of African sheep given a variety of low-protein diets.
- LANGLANDS. Some sources of error when sampling oesophageally fistulated sheep at pasture.
- WIENER. Body size, fleece weight and maternal performance of five breeds of sheep kept in one environment.
- HOLME and COEY. The effects of environmental temperature and method of feeding on the performance and carcass composition of bacon pigs.
- KAY, MACLEOD, MCKIDDIE and PHILIP. The effect of replacement of fish meal with either urea or ammonium acetate on growth rate and nitrogen retention in calves fed *ad libitum*.
- HINTZ and HEITMAN. Sewage-grown algae as a protein supplement for swine.
- EADIE, HOBSON and MANN. Comparisons between the rumen content of barley-fed steers and that of young calves also fed on a high concentrate ration.
- VEUM, POND and VAN VLECK. Correlations between sow milk production and composition and growth and haemoglobin of their pigs.
- SMITH, TONKS and LAWRENCE. Back rasher ratios as predictors of lean percentage of pigs of bacon weight.
- LODGE. Sorghum for barley in diets for fattening pigs.
- GUNN. Hill ewe mortality.
- PROCEEDINGS OF THE BRITISH SOCIETY OF ANIMAL PRODUCTION

Contents of Volume 9, Part 3, August 1967 include:

- DONEY. The effect of inbreeding on feed consumption and utilization by sheep.
- HODGSON and WILKINSON. The relationship between live-weight and herbage intake in grazing cattle.
- O'CONNOR and WILLIS. The effect of artificial insemination on the breed structure of British Friesian cattle.
- SMITH. Improvement of metric traits through specific genetic loci.
- LANGLANDS. Studies on the nutritive value of the diet selected by grazing sheep. III. A comparison of oesophageal fistula and faecal index techniques for the indirect estimation of digestibility.
- FORBES, REES and BOAZ. Silage as a feed for pregnant ewes.
- TAYLOR and YOUNG. Variation in growth and efficiency in twin cattle on constant feeding levels.
- PERRY and WATSON. Sources of variation in the uptake of a marker antibody by piglets.
- PERRY and WATSON. Variation in the absorption of a colostrally secreted marker antibody in piglets.
- DONEY and GRIFFITHS. Wool growth regulation by local skin cooling.
- SLEE and SYKES. Acclimatization of Scottish Blackface sheep to cold temperatures. 1. Rectal temperature responses.
- HOLMES and CURRAN. Feed intake of grazing cattle. V. A further study of the influence of pasture restriction combined with supplementary feeding on production per animal and per acre.

The Journal is published quarterly in February, May, August and November.

The annual subscription rate is 90s. (U.S.A. \$14.00) single copy 25s. (U.S.A. \$4.00). Orders and subscriptions may be sent to any Bookseller or direct to:

OLIVER & BOYD LTD.

Tweeddale Court, 14 High Street, Edinburgh 1

The Journal of General Microbiology

Editors

B. C. J. G. KNIGHT
and A. F. B. STANDFAST

Vol. 47, No. 1. April 1967

CONTENTS

- A. H. REISNER and H. MACINDOE. Incorporation of amino acid into protein by utilizing a cell-free system from *Paramecium*.
- M. HUTCHINSON, K. I. JOHNSTONE and D. WHITE. Taxonomy of anaerobic thiobacilli.
- M. FELTON, JUN., J. J. COONEY and W. G. MOORE. A quantitative study of the bacteria of a temporary pond.
- B. JARVIS. Resistance to nisin and production of nisin-inactivating enzymes by several *Bacillus* species.
- J. D. ANDERSON and G. T. CROUCH. A new principle for the determination of total bacterial numbers in populations recovered from aerosols.
- P. N. HOBSON and R. SUMMERS. The continuous culture of anaerobic bacteria.
- S. G. WILKINSON. The sensitivity of pseudomonads to ethylene diaminetetra-acetic acid.
- P. WEGLENSKI. The mechanism of action of proline suppressors in *Aspergillus nidulans*.
- W. J. BRAMMAR, P. H. CLARKE and A. J. SKINNER. Biochemical and genetic studies with regulator mutants of the *Pseudomonas aeruginosa* 8602 amidase system.
- A. AFSHAR. The growth of *Mycoplasma bovis* in cell cultures.
- A. B. HARRIS. Inhibition of growth and nucleic acid synthesis in iron-deficient *Mycobacterium smegmatis*.
- W. A. HAMILTON and J. M. STUBBS. Comparison of the germination and outgrowth of spores of *Bacillus cereus* and *Bacillus polymyxa*.
- J. T. SMITH. Production of thymineless mutants in gram-negative bacteria (*Aerobacter*, *Proteus*).
- H. U. JOSHI, A. J. H. CARR and D. G. JONES. Effect of clover phyllody virus on nodulation of white clover (*Trifolium repens* L.) by *Rhizobium trifolii*.
- H. WILLIAMS SMITH and S. HALLS. The transmissible nature of the genetic factor in *Escherichia coli* that controls haemolysin production.

The subscription rate is £5 net per volume of three parts.
Single parts 45s. each, plus postage.

Four volumes will be issued each year.
Orders should be sent to

Cambridge University Press,
Bentley House, 200 Euston Road,
London, N.W. 1

The Journal of Applied Bacteriology

Edited by
G. Sykes
and F. A. Skinner

The *Journal of Applied Bacteriology* (previously known as the proceedings of the Society for Applied Bacteriology) is published for the Society to advance the study of microbiology, particularly bacteriology, in its application to industry.

Long established as an international medium for original papers embracing the many aspects of *applied bacteriology* the *Journal* serves the widening interests of microbiologists in all fields of research.

The *Journal* is published three times a year (comprising one volume) in April, August and December.

The Editors are ready to consider for publication papers appearing on all aspects of applied microbiology. Review articles may also be accepted.

Papers submitted for consideration should be addressed to:

G. Sykes,
Microbiology Division,
Boots Pure Drug Co. Ltd.,
Pennyfoot Street,
Nottingham, England

SUBSCRIPTIONS

Vol. 30, 1967 140s./\$20.00 per annum.
Postage outside England 6s. per year.
Certain back volumes are obtainable from the publishers. All enquiries regarding subscriptions/advertisements should be addressed to the publishers.
