ANNUAL MEETING, 1952	
NEWS OF BRANCHES. BOOKS RECEIVED, - - - - -	ix-xii

Intending members of the Mathematical Association are requested to communicate with one of the Secretaries, F. W. Kellaway, 87 Pixmore Way, Letchworth, Herts.; Miss W. Cooke, Yarningale, Pitts Road, Salt Hill, Slough. The subscription to the Association is 21s. per annum, and is due on Jan. 1st. Each member receives a copy of "The Mathematical Gazette" and a copy of each new Report as it is issued.

Change of Address should be notified to the Membership Secretary, Mr. M. A. Porter, Gordon House, 29 Gordon Square, London, W.C. 1. If Copies of the "Gazette" fail for lack of such notification to reach a member, duplicate copies can be supplied only at the published price. If change of address is the result of a change of appointment, the Membership Secretary will be glad to have notice of this.

Subscriptions should be paid to the Hon. Treasurer, Mathematical Association, Gordon House, 29 Gordon Square, London, W.C. 1.

BELL

TWO IMPORTANT NEW BOOKS

SCHOOL MATHEMATICS

A Unified Course

by H. E. PARR, M.A., *Chief Mathematics Master, Whitgift School.*

Part One, Second Edition, 7s. 6d. ; or with answers, 8s.

Part Two, 10s. ; or with answers, 10s. 6d. Also in two sections, A and B, 5s. 9d. each.

Part Three, 6s. ; or with answers, 6s. 6d.

A Senior Mathematics Master writes: "It would probably be impossible to produce a book which absolutely satisfied all its users, but this one goes a long way to doing that here. All the Staff using the book with classes have been loud in their praises—no mean achievement when their differences of outlook and qualifications are taken into account. Personally, as Head of the Mathematics department, this has been a godsend to me, as practically all Parr's methods are those which I have gradually adopted as the best lines of approach. This has led to a more unified set of methods than any syllabuses laid down in the past have achieved, and should in turn lead to better understanding on the part of the pupils."

FURTHER ELEMENTARY ANALYSIS

by R. I. PORTER, M.A., *Senior Mathematics Master, King's School, Macclesfield.*

Demy 8vo. 21s. net.

This book is a continuation of the well-known *Elementary Analysis* by A. Dakin and R. I. Porter and completes a two-year Sixth Form course in Pure Mathematics suitable for all but the mathematical specialist. It has already been widely adopted and has received much praise. Typical of the comments on it is the following from *A Senior Mathematics Master*: "I have been teaching now for 40 years. All that time I have been looking for a good Analysis book. At last, I think, I have found it. Please pass on my congratulations and thanks to Mr. Porter for giving us such a fine textbook."

*Fuller details of the above books will gladly
be sent post free on application to the publishers*

THE MATHEMATICAL ASSOCIATION

GORDON HOUSE

Hon. Treasurer
J. B. MORGAN

29 GORDON SQUARE
LONDON, W.C.1

September, 1951

DEAR SIR OR MADAM,

The recent increase in the subscription payable by Members to the Association still leaves us with insufficient annual income properly to finance the production of *The Mathematical Gazette* and the various Reports which are in course of preparation. The cost of printing, and all the necessary expenses of administration, have continued to increase.

It seems certain that, failing a further rise in income from subscriptions during the next two or three years, the Association will be compelled either to curtail its activities or be faced with a serious reduction in our only reserve fund—the £1100 War Loan. In the hope of increasing the income without another rise in the annual subscription all Ordinary Members who are liable to British Income Tax, and who do not have their subscriptions allowed as 'expenses' for purposes of tax relief, are invited to pay their annual subscriptions under seven-year covenants.

Sums of money paid annually to the Association under a covenant covering a period of at least seven years are treated for tax purposes not as income of the person making the covenant, but as income of the Association. Since the Association is not liable to income tax, whereas in general the Member is, the Inland Revenue authorities will refund to the Association any income tax already paid by the Member in respect of the sums involved.

If you are willing to assist the Association in this way, I shall be grateful if you will be good enough to sign and return to me the enclosed deed of covenant, which does no more than bind you to pay your annual subscription to the Association each year for the next seven years. Each year when you pay your annual subscription you will be asked to sign a certificate of deduction of income tax. There are no other formalities, and there will be no increased expenditure by you, but your one guinea subscription will be worth £2 to the Association while income tax remains at 9/6 in the £. If you will do this, you can, at no cost and very little trouble to yourself, be of substantial assistance to the finances of the Association. I should be grateful if Members who are willing to help in this way will return the attached deed of covenant, properly completed, to the Association office as soon as possible. It may avoid some doubt if I draw attention to the wording of the second paragraph of the deed, which ensures that payments cease automatically on the death of the Member.

Yours faithfully,

J. B. MORGAN

DEAR SIR OR MADAM,

The recent increase in the subscription payable by Members to the Association still leaves us with insufficient annual income properly to finance the production of *The Mathematical Gazette* and the various Reports which are in course of preparation. The cost of printing, and all the necessary expenses of administration, have continued to increase.

It seems certain that, failing a further rise in income from subscriptions during the next two or three years, the Association will be compelled either to curtail its activities or be faced with a serious reduction in our only reserve fund—the £1100 War Loan. In the hope of increasing the income without another rise in the annual subscription all Ordinary Members who are liable to British Income Tax, and who do not have their subscriptions allowed as ‘expenses’ for purposes of tax relief, are invited to pay their annual subscriptions under seven-year covenants.

Sums of money paid annually to the Association under a covenant covering a period of at least seven years are treated for tax purposes not as income of the person making the covenant, but as income of the Association. Since the Association is not liable to income tax, whereas in general the Member is, the Inland Revenue authorities will refund to the Association any income tax already paid by the Member in respect of the sums involved.

If you are willing to assist the Association in this way, I shall be grateful if you will be good enough to sign and return to me the enclosed deed of covenant, which does no more than bind you to pay your annual subscription to the Association each year for the next seven years. Each year when you pay your annual subscription you will be asked to sign a certificate of deduction of income tax. There are no other formalities, and there will be no increased expenditure by you, but your one guinea subscription will be worth £2 to the Association while income tax remains at 9/6 in the £. If you will do this, you can, at no cost and very little trouble to yourself, be of substantial assistance to the finances of the Association. I should be grateful if Members who are willing to help in this way will return the attached deed of covenant, properly completed, to the Association office as soon as possible. It may avoid some doubt if I draw attention to the wording of the second paragraph of the deed, which ensures that payments cease automatically on the death of the Member.

Yours faithfully,

J. B. MORGAN

This Deed of Covenant is made the.....day of
One thousand nine hundred and.....**BETWEEN**.....
.....
of.....

(hereinafter called ‘ the Member ’) of the one part and **THE MATH
TION** whose office is at Gordon House, 29 Gordon Square, Lon
called ‘ the Association ’) of the other part

THIS DEED WITNESSETH that the Member hereby coven
that he will during the term of seven years from the date hereof if
live pay to the Association for its general purposes on the first day
such a sum as less Income Tax at the standard rate for the time be
of One guinea the first payment thereof to be made on the 1st day

IN WITNESS whereof the parties hereto have hereunto set
day and year first before written

SIGNED SEALED AND DELIVERED
