## Guide for Contributors

**Articles:** *DRJ* is a refereed journal, using a blind review process. Article manuscripts must be accompanied by written assurance that they have not been published, submitted, or accepted for publication elsewhere. They will not be returned unless accompanied by return postage.

Manuscripts should contribute original material. They may be research reports, discussions of theory and methods, critical syntheses, or evaluations of the state of knowledge or method in the different disciplines involved in dance research. Articles are evaluated by the Editor and at least two outside readers. The review process is completed as quickly as possible, and every attempt is made to notify authors regarding acceptance within three months. The Editor reserves the right to reject or return for revision any material on the grounds of inappropriate subject matter, quality, or length.

Authors must prepare manuscripts for blind review by putting their name on a separate title page only, and by submitting *three* clear copies of the manuscript. The entire manuscript, including notes, bibliography, and indented long quotations, should be double spaced. Notes must be numbered consecutively throughout the article and typed on a separate sheet as end notes. Manuscripts, including notes and bibliographies, should follow the *Chicago Manual of Style*, unless the paper is written in a discipline such as anthropology or biology that follows a different method of footnote style. Illustrative materials, such as tables, maps, and graphic notation, should be done in black ink and should be camera-ready copy. Photographs should have a glossy finish, and authors must obtain permission to publish them if taken by individuals other than themselves. All manuscripts must be accompanied by an abstract of 50-100 words and bibliographical information of four-six lines that includes current evidence of expertise in the topic of the article.

Manuscripts should be submitted to the *DRJ* editor.

**Reviews:** Book reviews are assigned by the Book Review Editor, but individuals wishing to review a particular book may submit an inquiry to the Book Review Editor. Reviews in the current issue are the best guide to correct format. The heading should include name of author(s) or editor(s), book title (underlined), place of publication, name of publisher, year of publication, number of pages, cloth or paperbound, and price. Reviews should be scholarly in orientation, and approximately 1500-2000 words in length. A parallel format should be used for film and other material.

**Reports:** Reports are assigned by the Editor, but individuals wishing to submit a report on a particular conference or activity are encouraged to submit an inquiry to the Editor. Reports should include what, where, when, who, and how, and should specify the relevance of the activity to dance research. Related literature should be cited, if relevant.

**Final Manuscript Approval:** Authors of articles will have an opportunity to reread their work after it has been copyedited. The edited manuscript must be returned to the Editor immediately with the author's response to any editorial changes and answers to queries. Galley proofs will be sent during the printing process and should be examined by authors and returned within the specified time.

**Complimentary Copies:** Contributors of major articles will receive three complimentary copies of the issue in which their article was published; authors of reviews and reports will receive two complimentary copies.
